The Capital Journal carrier boys are instructed to put the papers on the porch. If the carrier does not do this, misses you, or neglects getting the paper to you on time, kindly phone the circulation manager, as this is the only way we can determine whether or not the carriers are following instructions. Phone Main 81.

## EDUCATION AND SALARIES

As faddists increase the amount of genuine rot that finds its way into the newspapers grows by geometrical progression. Here is a sample taken from an editorial in the Portland Livestock Reporter, but being really a reprint of a certain educator's statement:

"According to statistics every child who finishes the eighth grade has an earning capacity during his life's expectancy of about \$32,000.00, one who finishes the high school \$48,000.00, and a university-trained man or woman \$72,000.00. This gives the boy or girl who finishes the high school course a salary of \$20.00 a day for every day spent in the school room during the high school course; for every year spent in getting the university training is an equivalent to \$30.00 per day; in a rural school with twenty children there is an earning capacity of from \$400.00 to \$1000.00 per day. Are you mothers and you fathers going to let the matter of \$1.00 per day difference in salary between a real trained teacher and an untrained teacher stand in the way of your boy's and your girl's future?"

The faddist who wrote the above brilliant statement evidently does not understand that there is lots of work to be done in the world outside of the bosses jobs, nor does he seem to realize that if every boy in the country was educated, no matter how highly, that they could not all command the salaries mentioned.

Every child should have a chance for the best education possible, on general principles, for it is good for the child and for the nation, but to try to boost for higher education by palpably false arguments is not only silly, but indicates that either the booster's education was neglected or nature was chary in filling his think tank. The argument is that if every man was university trained he would earn \$40,000 more during his life, in other words that all wages and salaries would be advanced.

## THE UNPARDONABLE CRIME

John Casper, a distiller of Kansas City, recently pleaded guilty to operating his distillery after the same had been sealed by the government, and in connection with certain revenue officers, not only conspiring to defraud Uncle Samuel, but actually beating the old gentleman out of many thousands of dollars, and this too when the money was badly needed for increasing the navy, organizing a bigger army, arranging for a fleet of air ships and building a big factory for the manufacture of war munitions.

The judge in sentencing Casper evidently had his offense figured down to a nicety, for he sentenced him to serve nine years and three days in the penitentiary at Leavenworth, plus a fine of \$33,000. Three of the other defendants were given sentences of one year and one day each in the same prison, and were each fined \$1,000.

Just why that three days was added to Caspar's fine, and the one day to each of the others is one of the things the public need not understand. Perhaps it was like some bills made out by public utility companies, where a penalty of five per cent is added, so the company can be generous and rebate it on payment of the bills. Anyway Caspar should have known better than try to rob Uncle Sam, for in the eyes of most Federal judges, that is worse than taking human life. It is the unpardonable crime.

Portland is making strenuous efforts to get a general steamship service, and seems in a fair way of accomplishing it. However, to those outside the city it looks as though it was an uphill fight. Astoria is the natural shipping point for all the territory tributary to the Columbia and for that matter Portland, and it looks as though eventually it must become the main port in Oregon. It is only the big business and financial pull that holds the trade at Portland and this some day will not prove strong enough to overcome natural conditions. This is not said in derogation of Portland's facilities but just as a conclusion of fact from conditions.

## AN UNTHINKABLE HAPPENING

William Rockefeller and ten other directors of the New Haven railroad are on trial charged with conspiring to form a trust, and they are being defended by 100 lawyers. The charge against these big financial highwaymen is purposely made of such a character, that should they be found guilty the maximum fine is \$5,000 with a possible but far from probable sentence to one year in jail.

The real charge against them should be of deliberately robbing the stockholders of that railroad of more than \$20,000,000, and by methods no self-respecting highwayman would descend to. That is the charge that should be made against them, and then if found guilty the punishment should be made to fit the crime.

What a gasp of astonishment, would go up from all parts of the United States, should some judge sometime punish this class of crime committed by the "big financiers" by a real jail or penitentiary sentence. And what a howl of anguish would go up from the realms of "big business" at the unwarranted hampering of commerce, and the driving capital out of its legitimate pursuits.

Now comes Mrs. M. V. Greene of San Francisco and advocates the teaching of salesmanship in the public schools. Mrs. Greene says many drift into the ranks of the unemployed because they are not trained salesmen. Wonder if the lady ever allowed whatever she thinks worth to realize that there are now no vacant jobs in the salesman line, and that educating young folks in this branch would not create any more jobs?

The shipping trust may after all cut its own throat. Charters to Europe and England have been raised to a point where wheat can be shipped from Portland clear across the continent and reshipped cheaper than it can be sent by vessel from coast points.

Somehow those Oregon Agricultural hens at the exposition do not begin to come up to the record made by some of the biddies at the college. Is it possible the O. A. C. did not send her best layers to take part in the shelling-out contest?

A Barnard college professor wants girls to be trained to carry guns. It is hoped if this is done they will also be taught how to shoot them without shutting both eyes.

## CONFIDENCE

I know a man who hunts for snakes, and kills them for their grease. He says 'twill cure rheumatic aches, and make your anguish cease. The doctors say that serpent oil no sort of virtue owns; it will not cure the pains that coil around your joints and bones. But this old gun who kills the snakes has never had a doubt; he says all other cures are fakes, when reptile oil's about. He is so everlasting sure that what he says is true, that even skeptics buy his "cure," to see what it will do. And so it keeps him toiling hard, the keen demand to meet, and he has bought with bullsnake lard a home in Easy street. If you believe in what you sell, have faith in what you say, in that same avenue you'll dwell, upon a future day. If one is not supremely sure that what he has for sale makes all competitors look poor, his eloquence will fail. A man can sell me setting hens, or swarms of bumble bees, or double action fountain pens, or cures for housemaids' knees, if he's convinced that what he sells beats everything around; that sort of salesman's wearing bells, wherever he is found.

## SALTS IS FINE FOR KIDNEYS. QUIT MEAT

## Flush the Kidneys at Once When Back Hurts or Bladder Bothers--Meat Forms Uric Acid

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your

kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in uric acid. No longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

**GREECE REFUSES BAIT**  
Athens, Oct. 22.—Greece, according to all signs, will refuse to rise to the bait—the Island of Cyprus—thrown out by the allies for her entry into the war.

The government journal today quoted Premier Zaimis as saying the Greek attitude toward the stirring events about her is unchanged. It is presumed that Greece will answer politely to the allies' ultimatum, asking specific definition of her attitude toward them.

One may carry the left hind foot of a rabbit, but one must actively co-operate with it.

## SOOTHE AND HEAL YOUR ECZEMA WITH POSLAM

Poslam deserves the confidence of all who seek a treatment for Eczema and itching skin. Not only does it possess known merit and healing properties, but it is absolutely harmless and no injury results from its use. Has been unusually satisfactory in treatment of stubborn cases of Eczema, some of them of many years' standing and should be very helpful in your case, alleviating itching quickly and showing improvement every day. Use Poslam for pimples or any surface disorder.

## Court Apartments Are About Completed

The Court Apartments on Court street will be completed within two weeks and ready for occupants. Profiting by the Portland builders, these apartments have been constructed in what may be termed the most approved apartment style for general convenience. The building will have 24 apartments of the two and three room size. A two room apartment includes a living room, kitchen, bath room and an 8 by 8 feet room. In each of the apartments is a disappearing bed, a gas range for the kitchen, and also a refrigerator of the self cooling construction.

According to the present plans of George P. Rodgers and Charles H. McNary, the owners, the rent for the apartments will vary from \$25 to \$35 a month. This monthly rent will include heat, telephone, hot and cold water service, dumb waiter and vacuum cleaning. In fact, everything is furnished except lights and gas for cooking and for the convenience of the occupants, the oils for these are added to the monthly rent bill. All the 24 apartments are finished in light brown, and the kitchens in all white enamel.

## IF HAIR IS TURNING GRAY, USE SAGE TEA

## Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Faded, Lifeless Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and frizzy, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

## Alaskan Vegetables In Seattle Markets

Seattle, Wash., Oct. 22.—Ten tons of Alaska grown vegetables from the vicinity of Juneau, to be sold on the market here were being discharged today from the steamer Humboldt, just arrived from the north. The Humboldt also brought \$130,000 in gold bullion from the Fairbanks district, 30,000 cases of canned salmon, 100 boxes of fresh halibut and 145 passengers.

## Hotel Is Robbed and Billie Burke Advertises

San Francisco, Oct. 22.—With only one slight clew, which they refuse to divulge, the police today worked on one of the most mysterious and baffling robberies occurring here in years. Gems valued at nearly \$10,000 were stolen from several suites in a local hotel Wednesday night without a single guest having been awakened.

Miss Billie Burke, actress, declared jewelry valued at \$5,000 was taken from her and other guests were also robbed.

## Pimples Disappear

There is one remedy that seldom fails to clear away all pimples, black heads and skin eruptions and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, black heads in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is safe, clean, easy to use and dependable. It costs only 25c. An extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skin. Zemo, Cleveland.

## FRUITLAND NEWS.

(Capital Journal Special Service.)  
Fruitland, Oct. 21.—Monday Mrs. M. Carver and son, Arthur Van Cleve, of North Salem, visited friends here.

Many wells in this community are getting quite low on account of the protracted dry weather. Some have to haul their water supply from neighbors who are now hoistfully supplied. Mr. H. Standiford is deepening his well. Mr. Lundeen, of Salem is helping to do the work.

W. C. Bressler is digging up his loganberry patch and burning the vines this nice weather. This is one of the best kept yards in the neighborhood. Mr. B. being very particular to have everything just so. The ground was level as a floor and clear of weeds. He says it does not pay to grow fine berries to rot on the vines for want of a market. He will devote the ground to something more profitable.

Clarence Boling has moved his house and barn down to a location near the road. This will be much better in several respects as the old location put him back from the road. He has had a 67 foot drilled well put down which furnishes an abundance of soft water. He is going to have it piped into the barn. He states that it is impossible to exhaust the water supply even with a pumping engine.

Reliable information comes from Douglas county that Fred Doney, a former resident, while deer hunting in the wilds of Southern Oregon, captured one of the fair daughters of the region who consented to remain a prisoner and keep house for the doughty hunter till death do them part. Fred being a good fellow, Fruitland extends congratulations.

Guy Johnson is building a new barn. L. A. Battenberg is out with his wood saw getting the winter's fuel ready for the stove.

The potato crop as I stated last week is smaller than last year, the yield being light. Also the acreage is smaller than last year. One small patch yielded at the rate of 125 bushels to the acre.

E. E. Berlin has traded his farm for store property at St. Louis, this county. Br. B. was in the mercantile business at Aberdeen, Washington, before coming here, so his new vocation will not find him a novice. Good wishes attend him.

I suppose Fruitland will attend the corn show at Salem in December. There will probably be some exhibits also. Although the corn rows in the ear may not be straight as a fiddle string and may not be just so many to the inch as required by the rather fastidious rules, still it will be corn and good corn too, straight or crooked, hump backed or stoop shouldered. It will make just as good corn dodger or "Injan," or just as good silo if it don't come up to taste measure or the aesthetic ideas of our good county agriculturist. That the coming show will prove a success is the wish of

## How to Destroy Catarrh Germs and End Catarrh Forever

A Specialist's Advice.  
Catarrh is a germ disease and the only way to cure it so it will stay cured and never come back is to kill and drive out of your system the catarrhal germs which have found lodgement there. When the germs go the catarrh will stop. The trouble with most treatments, like sprays, salves, creams, greasy balms, lotions, etc., is that they give only temporary relief by opening up for a while the clogged head, throat and nostrils. In a little time the catarrh comes back as bad as ever.

People who suffer continually from catarrh should drop such temporary makeshifts and get something that really gets at the root of the disease and stamps it out. There is nothing better for such cases than breathing into your nose and lungs the pleasant, soothing, healing, germ destroying air of Hyomei (pronounced High-may) made from purest oil of Eucalyptus and combined with other powerful healing, antiseptic and germ destroying ingredients. Hyomei penetrates and heals the inflamed swollen membranes of your nose and throat, stops discharges, clears the passages and completely overcomes the disease by destroying its cause. For catarrh germs cannot live in your body after Hyomei reaches them. Daniel J. Fry and many other good druggists in Salem and vicinity have long sold Hyomei on a positive guarantee of successful results or money back and find this generous policy pays. Most druggists are now giving a pocket inhaler made from hard rubber with every complete treatment sold. This makes a very simple, easy and convenient as well as a thoroughly reliable means of treating by the best known method this dangerous and often disgusting disease.

D. Crow, of the supreme court, who died early this morning, the supreme court was adjourned today, and the prohibition argument, the most important litigation to come up during the October term, was postponed until Monday. It was scheduled for argument today.

## President's Daughter Pleased Over Match

San Francisco, Oct. 22.—Though she admitted she wished she might have had a part in it, Mrs. William G. McAdoo, President Wilson's daughter today denied she had played any cupid role in her father's romance with Mrs. Galt. So, Miss Margaret Wilson stands as responsible for bringing together the president and his fiancée.

"We are all tremendously happy over the coming wedding and I know the country is too," Mrs. McAdoo commented. "We all think the world of Mrs. Galt. She is a brilliant woman."
