

# In the Realms of Sport, But Mostly Football

## PORTLAND MAN UP.

Berkeley, Cal., Oct. 25.—A slight shakeup in the University of California football squad as the result of the poor showing made against U. S. C. last Saturday, is believed today to be in the making. Danny Foster, a quarterback from the Portland high school, has been placed on the training table. Foster is said to be an exceptionally good man, and it is probable that he may get a chance to demonstrate his worth in next Saturday's game with St. Mary's.

There is just one more game before the big game with Washington. Coach Schaeffer is striving hard to put his men in such shape that they will show improvement enough to warrant a belief that they will hold their own against Washington.

Three hundred Washington rooters are expected to accompany Coach Dobie's squad when they come here next week.

## RITCHIE-DUNDEE TONIGHT.

New York, Oct. 25.—Willie Ritchie was in prime condition today for his ten round bout tonight at Madison Square Garden with Johnny Dundee. Because of his greater weight, height and reach, the Californian expects to have no difficulty. Ritchie is a slight favorite.

The fact that Dundee holds a four round popular decision over Ritchie hasn't impaired the confidence of the westerner, who expects to reverse the order tonight.

## U. OF O. GETS BUSY.

Eugene, Or., Oct. 25.—The first real workout since Whitman was defeated last Saturday 21 to 0, was indulged in by the University of Oregon today.

Huntington, Mitchell and Beckett are still nursing injuries received in the game with the Missionaries, and most of the other players have bruises or the "charley horse."

## PORTLAND TO SEE BOXING.

Portland, Or., Oct. 25.—Portland boxing fans will have their first opportunity to see Ralph Gruman in action since he was bitten by the "light-weight championship" bug when he meets Walter Knowlton in a six round

bout at the Rose City club smoker tonight.

Gruman recently returned from the east where he won seven battles in a string. Knowlton used to be one of the cleverest amateur lightweights on the coast, but hasn't done much ring work lately.

## TO PLAY ICE HOCKEY.

Portland, Or., Oct. 25.—With the signing today of "Moose" Johnson, the formation of the 1915-16 ice hockey team to represent Portland in the north west professional league was begun. Manager Savage has enough players already lined up to make a strong team.

## TO STOP BARNSTORMING.

Chicago, Oct. 25.—Barnstorming by minor league players will be one of the subjects for correction at the meeting of the National Amateur Baseball Association at San Francisco November 9. A recent trip by some American association players during which considerable "rough stuff" occurred is responsible for the movement.

## TO BE PROFESSIONAL.

Minneapolis, Oct. 25.—Lorin Solon, recently dismissed from athletics at the University of Minnesota for playing summer baseball, will become a professional when he accepts money for playing football next Sunday, according to his announcement today.

## TENNIS STAR TO PLAY.

San Francisco, Oct. 25.—America's greatest tennis stars will be seen in action here next Saturday, when the Pacific coast championships will begin on the courts of the California lawn tennis club.

Although Maurice McLoughlin will not be in the competition, National Champion William Johnston, Clarence Griffin, Ward Dawson, Tom Bundy and other prominent men, as well as women, players are already in the lists.

## TO HAVE POST SEASON.

San Francisco, Oct. 25.—Final details for the post season series of seven games between the Seals and Oscar Vitt's major leaguers were completed today. Vitt's lineup as it stands today contained only two minor leaguers—Johnston of the Oaks and Gedeon of Salt Lake.

Board of Woodburn to John L. Hirst, west 4 acres of tract No. 4 Kennedy Acres.

Chas. R. Moores et ux to Enos Drowall, Q. C. D., all their right, title and interest in and to lots 11 and 12, block 33, Highland Add, Salem.

Royal Burr Young to Sarah Young.

## WAR NEWS OF ONE YEAR AGO TODAY

An advance of allies in Belgium drove the Germans across the eastern frontier at Nancy and progress was made at Dixmude, Paris said. France also claimed a strong Russian offensive on the San and at Przemyel.

The Lille-Yser Canal-Ypres battle continued, heavy fighting in the east still was without result, Austria reported a general augmentation of Russian forces in progress and Germany admitted that a new Russian army crossed the Vistula north of Ivangorod.

Generals de Wat and Byers led an anti-British rebellion in Orange Free State and the Western Transvaal, seizing Heilbron and imprisoning government officials.

Lisbon said German troops invaded Angola, West Africa, Portugal was ready to send battleships to protect its African possessions, Italian forces landed at Avlona, Albania, for sanitary and red cross work.

## A WOMAN DOCTOR

"Eugenics is a necessary factor in the future of the race. The average American girl is unfit for motherhood. This may be true, but if weak and ailing girls passing from girlhood to womanhood would only rely, as thousands do, upon Lydia E. Pinkham's Vegetable Compound—that simple remedy made from roots and herbs—to restore the system to a normal healthy condition, it would cause many ills from which they suffer to disappear, so that motherhood might become the joy of their lives.

## CANNOT IDENTIFY BANDITS.

Seattle, Wash., Oct. 25.—Miss Susan Woods, employee of the Citizens Bank of Renton, and other persons who saw two bandits who held up the bank and escaped with \$1400 a week ago, were called to Tacoma today in an effort to prove or disprove the suspicion that rests upon Cecil and Earl Jordan, brothers, held in jail there.

R. W. Gilman, cashier of the bank, says they are the men who held him up, but Chauffeur Harry Anderson, who drove the bandits in his automobile, says they are not.

## TO LOCATE RESPONSIBILITY.

Pittsburg, Pa., Oct. 25.—Federal state and county officials began investigations today to determine responsibility in the Union Rex company fire yesterday which cost 13 lives. They wanted to know who was supposed to enforce safety precautions at the plant, and who failed to turn in a fire alarm promptly. Old, rotten fire hose was blamed for part of the big tragedy that delayed the firemen's work.

Where is my wandering boy tonight—and popper and mommer, together with the rest of the family that can walk! At the movie show.

## DELEGATION AWAITS ON CONGRESSMAN HAWLEY

## He Says He Does Not Have To Be Converted As He Is For That Measure

On the west steps of the capitol building, Congressman W. C. Hawley received a deputation of suffrage workers yesterday afternoon, led by Mrs. Minnie M. Hayden, a prominent worker in the cause of this city, and Miss Virginia Arnold, state organizer. The deputation called on Mr. Hawley to secure his vote and influence in favor of the Susan B. Anthony amendment to woman suffrage, which will come before congress the opening session. This amendment provides for national woman suffrage.

With a few introductory remarks, Mrs. Minnie Hayden introduced Mrs. Florence Cartwright, who read the proposed Susan B. Anthony amendment, and called forth applause when she stated that this was a wonderful country with big, generous men, and that she hoped the women would live up to their new standard as voters. As for the women, they did not want to be treated as beautiful flowers, but more as comrades. Mrs. Alice Dodd, of Willamette university stated, that she hoped to find Mr. Hawley in the front ranks of the suffrage movement, and that the women voters of the state would follow him in his efforts to advance their interests in congress.

"One voting woman is worth 100 non-voters," said Miss Virginia Arnold. Referring to the suffrage movement in the south, she said the politicians were dodging behind the negro problem, and that as long as the women were willing to risk suffrage, the men should fall in line.

"I do not need to be converted," said Congressman Hawley, "having cast my vote in favor of woman suffrage in the house. I have no reason to offer why I should not vote for suffrage. In fact, I can see no excuse why suffrage should not be extended to all adults. As to the fortunes of suffrage in the next congress, I cannot say, as 148 men go out as the electors this fall. I am sure that whether we succeed or not in the coming session, it is but a short time when the amendment will be submitted to the voters of the United States.

"I am already a supporter of your cause," continued Mr. Hawley, "and I hope it will be submitted to the voters of every state within a short time. The rights of women to become comrades of men will be cheerfully admitted by all. "You are wasting time on me, as I am already confirmed," said Governor Withycombe. "I was converted 38 years ago by an address of Mrs. Dunaway. I believe in woman suffrage, because women stand for the highest ideals of government. I am proud of being the first governor of Oregon to be elected by an equal suffrage vote."

## HOW TO WAVE HAIR TO APPEAR NATURALLY CURLY

You won't need to resort to the parching, scorching curling iron if you will adopt the simple plan I will mention. Isn't that good news? At night merely apply a little liquid silmerine with a tooth brush, drawing this through the hair from root to tip. This will impart a delightful wavy appearance and a bright lustrous suggestive of hidden sunshine. It will prove beneficial to the hair, instead of making it brittle and dead-looking as the hot iron does. In the morning, instead of your tresses being mean and contrary, you will find them quite easy to do up in any form, and there will be no unpleasant odor, grease or stickiness about the hair. I would suggest that you ask your druggist for the liquid silmerine—four or five ounces—which will require no mixing and you can pour a little into a saucer when required.—Emily Coulson in Hygienic Review.

## CITY COUNCIL TRIMS TREES AND BUDGETS AT SPECIAL SESSION

## Von Eschen and Macy Show Flash of Old Times In Verbal Exchange

The special meeting of the city council last night, for a while, was like old times, and the councilmen said cutting things about the shade trees before they began pruning the city budget. The shade trees in question are those that grow on the curbing and hang their branches out over the street and then when the street sweeper or sprinkler comes along in the rain the leaves of these trees empty their moisture down the necks of the drivers.

Councilman Macy brought up the subject and made a motion that all trees be pruned to a height of 15 feet from the street and Councilman Wallace said that this was no way to prune a tree as it would make some of the trees look like the tuft on the end of a lion's tail. Then Councilman Von Eschen stated that since the city only had jurisdiction to the curb line why not prune the trees at right angles with the street pavement and make the trees look like a perpendicular wall when looking down the street. This was interpreted as sarcasm by Councilman Macy at whom the shaft was directed and then the fun began.

It ended, however, in the park board being instructed to trim the trees in accordance with good taste and not to spoil the contour of any of the trees.

The Ferry Question.

The bridge committee which met with the court officers of Polk and Marion counties today asked for instructions as to the upkeep and maintenance of the ferry boat that is to be installed while the steel bridge is out of commission. After considerable discussion both for and against it was decided to instruct the committee that the city would provide an approach to the ferry on this side of the river and would maintain the approach but would not pay for the maintenance of the ferry boat. A petition was read asking for fire-hydrants at Owen and Fir street and at Wilson and Fir streets but it appears that the water mains to this part of the city are not sufficient to provide for a fire hydrant and the water company was ordered to put in mains large enough to supply water for fire hydrants at these points and also on South Twenty-fifth street where it is stated that only a two-inch pipe is laid.

The matter of the paving of North Church street bordering on Mill Creek was presented in a petition by W. C. Winslow and about 20 others and it was stated that there were provisions in the budget for the paving of this street at a cost of about \$500.

The foreclosure of liens for paving in the Oaks addition was begun and a total of 226 resolutions were adopted authorizing the city recorder and city attorney to advertise and foreclose on the property in this addition and also a few scattered lots in other parts of the city where the payments are in arrears.

## BAUSMAN GETS THE PLACE

Seattle, Wash., Oct. 25.—Frederick Bausman, of Seattle, is today judge of the Washington state supreme court, succeeding the late Judge Herman D. Crow, by appointment of Governor Lister.

Attorney Bausman, whose duties are to begin immediately, is a member of the law firm of Bausman, Kelleher, Oldham & Goodale. He has been practicing law in Seattle since 1891.

## SAY DISTRICT DID NOT GET A SQUARE DEAL

## School Board Refuses To Appeal Hughes Case and Gives Its Reasons

The following report was submitted to the school board last evening, by the building committee, stating its reasons for not appealing the suit of S. A. Hughes, decided against the district:

To the Chairman of the Board or Directors, School District No. 24: Your building committee would report that the case of S. A. Hughes of School District No. 24 for the sum of \$950 claimed by Mr. Hughes for the construction of two high school chimneys, has been tried in the circuit court and a jury has given Mr. Hughes verdict for the amount claimed by him. The court instructed the jury, among other things, as follows:

The court instructs you that the plaintiff cannot recover the entire contract price when defects or omissions appear, for it is incumbent upon him to show not only that they were substantial, but also the amount needed to make them good, so that it can be deducted from the contract price and a recovery had for the balance only.

The court instructs the jury that substantial performance of a building contract to entitle the contractor to the full contract price means only such a slight deviation as are inadvertent and unintentional and not due to bad faith and such as do not impair the structure as a whole and can be conveniently remedied without injustice and be paid for by a deduction from the contract price.

The court instructs the jury that in an action by a contractor the burden of proof is upon him to show a substantial compliance with the contract, and if he fails to do this he cannot recover the full contract price. Willful omissions, though in an unimportant respect, will preclude a recovery by him. The spirit of the contract should be faithfully observed though the letter thereof fail.

Notwithstanding these instructions the jury saw fit to allow Mr. Hughes the full amount claimed by him. Your committee offered to allow Mr. Hughes to take judgment before the trial for \$325, thus leaving in controversy only the sum of \$125. Your committee is of the opinion that the instructions of the court fully justified the committee in not accepting the first chimney as it is well known that in its construction, all headers were left out, the dimension of the chimney was reduced from twenty-five inches as called for by the contract, to twenty-two and one-half inches inside measurement, and the outside measurement was reduced from fifty inches to forty-nine inches. Your committee feels that the jury came to a wrong conclusion, but as the amount involved is only \$125 and the cost of an appeal would probably exceed that amount to the district. As a business proposition it would be better to pay the judgment than to prosecute the case further and for that reason we recommend that the amount of the judgment be paid. We feel like saying, however, that in our judgment the district was entitled to what it contracted for and we cannot bring ourselves to believe that it is right that the district should be compelled to accept and pay for something that is less efficient than the chimneys recommended by experts employed to advise us.

Respectfully submitted, MAX O. BUREN, E. T. BARNES, Building Committee.

## HIS WIFE CAN CURE HIS KIND OF INSANITY

Seattle, Wash., Oct. 25.—Mrs. Ella Hunt, wife of George E. Hunt, a cook, is demonstrating today her ability to cure the "insanity" from which her husband has been suffering. Mrs. Hunt declares his malady is laziness.

Hunt was ordered out of the Steila-room asylum Monday by Judge Mitchell Gilliam, when Mrs. Hunt declared her ability to "cure" her spouse.

"He is only insane on the subject of work," she said, "and I am confident I can completely restore his sanity, or have him sent to the stockade. I'm sure that will cure him."

A PRELIMINARY TRIAL

# Get a Copy To-day!

From one end of the country to the other, the question on the tip of every tongue is:

"Have you seen the new PUCK?"

It is a brand new magazine with an old name. It has been accorded the most astounding reception ever tendered a weekly periodical in America.

Newsdealers have had difficulty in supplying the demand. *Everybody wants to see this new kind of weekly!*

If we placed a Paris date-line on it, you would hardly believe it was printed on this side of the water.

Its color-pages are by the foremost illustrators of America and Europe.

Its stories, *bon mots* and reviews are by the greatest of contemporary humorists.

This rare combination of entertainment costs you 10 cents a copy at all news-stands.

This week's PUCK is a splendid issue with which to begin a long and delightful acquaintance.
