Marion County exhibit at the State Fair that captured the blue ribbon. This exhibit was arranged by and under the care of Henry S. French.

We have no patience with Vermont because it doesn't cover all those abandoned farms with sugar maples; while out west we are still afflicted with bogus maple syrup.

You Have Eaten Tons of Food

Did it ever occur to you that waste food ferments in the large intestine, that poisonous poisons are gradually destroying your vital organs and displacing vigor with premature old age?

On these poisons may punish you with rheumatism, diabetes, constipation, nervous diseases, loss of memory and appetite, mental depression and loss of vitality. Have you any of these ailments now?

If you are going to get all the joy out of living you ought to get it is time to stop, to think—and to act. Make the effort to purify your system, and keep the large intestine free from fermenting waste food. Begin now—get a bottle of Intest-Fermin Tablets, a drugless treatment to clear the large intestine of poisonous products. These Tablets contain the active properties of Bulgarian lactic acid, which Prof. Metchnikoff so emphatically endorses to overcome the poison-forming microbes that fermenting waste food makes in the large intestine.

Intest-Fermin Tablets are sold everywhere. This message was sent to us by the Secretary of an Engineers' Association in Brooklyn.

Don't give up, and don't go on and on until you must give up. Don't think your case hopeless—begin treatment before greater injuries are made on your vitality. Get a bottle of Intest-Fermin Tablets, today.

J. C. PERRY, Salem

Intest-Fermin is made exclusively by The Berlin Laboratory, Ltd. 373 Fourth Ave., New York City

Incendiary Fire On Sugar Steamer

New York, Nov. 4.—Slow fuses, placed aboard by spies, were suggested today as responsible for the incendiary fire which destroyed \$25,000 worth of sugar and damaged the 2,000-ton British tramp steamer Enterprise at the South Brooklyn docks last night.

Fires on sugar ships bound for territory of the allies have become an almost daily occurrence, and officials hinted that there is some connection between them and the Robert Pay bomb plot.

Authorities are investigating the Enterprise incident.

WANTS SOLID BACKING

Washington, Nov. 4.—An appeal for the united backing of the American people in the administration's defense program is expected tonight when President Wilson speaks before the Manhattan club in New York.

The executive was slated to arrive in the metropolis this afternoon when he will be Colonel House's guest. Mrs. Galt, his fiancée, will join him there and accompany him back here tomorrow.

Delegates to the Oregon Federation of Women's clubs at Salem grew belligerent over a resolution protesting against senseless and ever-changing fashions. "What can't be cured must be endured," probably explains it.

Parents Neglect To Visit the Schools

Parents were not especially busy during the past month in visiting the public schools, as the monthly report just issued by Superintendent Elliott notes the fact that not a parent had the time or interest to make a school visit, although other people did make a few calls to the number of 16.

But while they are not visiting the schools, evidently the parents have decided that the boys must all have proper school training, as out of a total attendance of 2850, the girls are only 21 in the majority. Statistics show that a few years ago, the girls greatly outnumbered the boys, especially in the upper grades. Now the higher classes are almost equally divided. Between the ages of 14 and 20, the attendance is 978, and the girls have only the small majority of 22.

Under the age of six years, no pupils are enrolled. Between the ages of six and nine, the enrollment is 664, with the boys 12 in the majority. In the grades where the children are between nine and twelve, the girls have a majority of 15, in an attendance of 727.

In the division of ages between 12 and 14 years, the boys are in a minority of only three, in a total of 529. Superintendent Elliott regards this large attendance of boys in the upper grades as especially satisfactory, showing the desire of parents that the boys receive at least a high school education.

Compared to the report issued October 1, today's report indicates an increased attendance of 158 during the month. Of this increased attendance, 112 are in the grades where the pupils are over 14 years of age. One of the encouraging points shown in the report is the fact that the students of the higher grades are holding up in their proportion of attendance.

It seems the French will pass through Greece on the way to attack the enemy. There was no scrap of paper to tear up.

"A GUARDIAN OF HEALTH"

HOSTETTER'S Stomach Bitters

TRY A BOTTLE when you need a tonic or a stomach remedy. Start today.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

Crazed by Illness Killed His Family

New York, Nov. 4.—Despairing of his life because of illness, Edward McManus, aged 31, today killed his wife and four-year-old son, slashed his daughter slightly and then committed suicide. He drew a razor across the throats of all.

His wife rushed down stairs to her brother-in-law's apartment. McManus followed and slashed her until she was unconscious inside the doorway. At the same time he wrested his son from her arms and hacked his throat till he fell to his knees in the hallway shrieking for mercy.

Then he tried to take the baby with him in death.

BAUSMAN NOW JUDGE

Olympia, Wash., Nov. 4.—The oath of office was administered yesterday to Attorney Frederick Bausman, of Seattle, who was appointed to succeed the late Judge Herman D. Crow of the supreme court by Governor Lister. Chief Justice George Morris administered the oath.

TWO YOUNGSTERS ARRESTED

Vancouver, Wash., Nov. 4.—Charged with shooting W. A. Hall, a merchant in the thigh while trying to hold him up, Fred Thompson, 18, and his brother, Claude, 19, were under arrest today. Hall resisted and was shot during the struggle.

Nobody ever sympathizes with Denver in any of its quarrels with Judge Lindsey. Did it ever occur to Denver to ponder on that?

The School Libraries Are Well Patronized

The pupils of the senior high school carried home with them for home reading, 1024 books during the month of October, according to the report of Miss Flora M. Case, school librarian. From the public library the students borrowed 45 books during the month, and from the state library, 43 books. The daily average circulation was 57, an increase of 12 over the month of one year ago.

Junior high school libraries have been established at Washington, Lincoln and Grant junior high schools. In Lincoln and Grant, the work has been organized under the direction of a teacher, with students assisting. The larger number of books and pupils at Washington has rendered the conditions so difficult that as yet the library has not been fully opened for the use of the students.

The books in the three junior high schools number as follows:

Washington 455
Lincoln 288
Grant 296

In the grade schools 32 traveling libraries have been selected, with a circulation of 810. Included in this traveling library circulation is 178 from the public library. Even pictures circulate in the grade schools, as the report of Miss Case notes the loaning of 121.

The purchase of the list of books approved by the school board at a recent meeting fills a need which has been in some cases, long felt, according to the report. These new books will add especially to the efficiency of the high school library.

Rockefeller, Jr., On Eugenic Problems

New York, Nov. 4.—Concerning the new eugenic play, "The Unborn," produced in New York today by physicalians and philanthropists, John D. Rockefeller, Jr., said:

"For the first time in dramatic history the perplexing problem of the limitation of undesirable offspring which has been engaging the attention of thoughtful eugenicists and sociologists the world over is dealt with on the stage in the play that we are to produce. The right of the child to be well-born and the right of the wife to decide about it are problems the solution of which society can no longer ignore."

THE MARIPOSA FLOATED

Victoria, B. C., Nov. 4.—The steamship Mariposa, of the Alaska Steamship company, was floated Wednesday and towed to McLaughlin Bay, B. C., for repairs.

ACCIDENT COMMISSION RECEIVES 563 CLAIMS

Five Fatalities Reported During October--93 Fatal Claims To Date

The records of the state industrial accident commission show that 6514 claims have been reported since the commission was installed. Of this number 93 have been fatal. During October of this year 563 accidents were reported and five of these were fatal.

The record for the month of October follows:

Final settlements	320
Suspensions (no claim for compensation)	34
No time lost but first aid paid	111
Claims in process of adjustment	463
Rejection for cause	23
Settled by third party	0
Monthly payments continued	5
Awards made and amounts set aside—permanent partial	2
Awards made and amounts set aside—permanent total	0
Awards made and amounts set aside—fatal cases	0
Fatal cases in process of adjustment	2
Fatal cases suspended (no record of dependency)	3
Fatal cases rejected	1
Totals	565

S. P. Cars Are Used For School Houses

Bankhouses or dismantled car bodies are being used for school house purposes on the Southern California and Arizona desert territory through which the Southern Pacific passes. As a result the company is, and has been able for some time, to provide school privileges for every child of school age on the desert, regardless of their race or position. In most of the desert countries the railroad depends almost entirely upon Mexican labor for track forces, and the educational privileges are being eagerly taken advantage of by the Mexican children.

Before the Southern Pacific took an active interest in the welfare of its men in the cactus country, because of sparse population and isolation there were no school facilities on many of the sections and there were not enough residents in the communities to make it possible to obtain funds to put up suitable buildings. To send the children to distant towns to school was out of the question, so that until Assistant General Manager H. V. Platt and Superintendents W. H. Whalen and T. H. Williams took the matter in hand, a job on the desert and a disadvantage to the employer with a family—a disadvantage that, happily, does not now exist. On the Tucson Division at Mohawk, for instance, the company recently put up a tie house for a school and it is one of the best patronized by Mexican children. At other points on the division, the company is furnishing drinking water to nearby public schools. In other ways it is aiming to encourage educational opportunities. For example the Los Angeles Division might be said to be divided into two sections—desert and inside. When a man has worked on the desert for some time and his children get to be of school age, the railroad endeavors to transfer him to an inside point where his children may have the advantages of an education.

Nothing lessens a man's success in his work or a woman's fascinating personality more than a weak stomach, with its attending evils. Use Mi-o-na and see how much more there is in life.

TO STOP AT LOS ANGELES

Los Angeles, Cal., Nov. 4.—According to announcements here today, the Nippon Yusen Kaisha steamship line, operating 100 vessels, will make Los Angeles an important port of call when the Panama canal re-opens.

TO HAVE "GO TO SCHOOL DAY"

(Capital Journal Special Service.)
Dallas, Ore., Nov. 4.—Friday, November 12, has been set aside by County School Superintendent H. C. Seymour as "Go to School Day" and he is asking every parent in the county who can possibly do so to visit the schools that day if only for a very short time, at least long enough to show the pupils that they are interested in their work. Last year on "Go to School Day" 1,708 parents visited the schools of the county and Superintendent Seymour is desirous of having at least 2,500 parents visit the schools this year.

Why Tolerate Catarrh?

You have noticed, no doubt, that any cold aggravates nasal catarrh, and the flow of mucous amazes you that such objectionable matter could find lodgment in your head. To ignore this catarrh when the cold subsides is wrong because it continues to slowly injure the delicate linings of the nasal passages and clog them up.

To correct catarrh, cleanse the nostrils frequently with a solution of warm water and salt, insert vaseline on retiring, and take a spoonful of Scott's Emulsion after meals for one month. Scott's acts through the blood to feed the tissues, and contains soothing glycerine to check the inflammation and heal the sensitive membranes.

Scott's is pleasant to take.

Scott & Bowne, Bloomfield, N. J.

"SLANG-JANG" JOHNSON.

Tyler, Tex., Nov. 4.—Solicitor (one Johnson of the state department at Washington, recently admitted that he is the inventor of Texas' widely known and eaten "slang-jang." He went hunting with a party at home here 15 years ago and the cook struck. Nobody would volunteer. One got so hungry he heated a kettle of water, uncanned beans, pickles, tongue, tomatoes, peas, mustard, etc., indiscriminately, cooked it and ate it. So did the others. "Slang-jang" is on the menu of every cafe in the southwest today.
