

OREGON IS WINNER WITH SCORE 34 TO 0

Southern California Team Game, But Just Babies In Hands of Webfooters

Los Angeles, Cal., Nov. 9.—In spite of its defeat by Oregon, the University of Southern California football team today was declared by its backers to be the best in the state.

For 30 minutes, during the entire first half yesterday afternoon, the Trojans fought Oregon to a standstill. Neither side was able to gain consistently, and neither goal was in danger at any time.

But in the second half Oregon woke up. The superior weight of Coach Bezdick's huskies began to tell. They battered the southern line unmercifully, and the game became an Oregon parade. Mixing terrific line attacks with beautiful, long forward passes, the Oregon machine piled up 34 points while U. S. C., battered and exhausted, struggled gamely to the last.

Northern football has emphatically demonstrated its superiority over the southern variety. Oregon's adeptness at handling long, bullet-like forward passes was the surprise of the game. These beat U. S. C., and the southerners were "hoist with their own petard." The U. S. C. forward passes, when not sneered, were good only for small yardage.

In the closing moments of the contest U. S. C. became a disorganized crowd in muddy red sweaters, haggard, bruised and beaten, some men actually crying, some out of their heads and reeling crazily about, but all digging in their cleats and fighting bitterly to the final whistle.

A Boxing Tournament

San Francisco, Nov. 9.—North, east, south and west will be represented in the amateur boxing tournament to be held under the auspices of the Panama-Pacific exposition here Thursday night, and the cream of the novices will be seen in action.

Several of the eastern men are rated high by the eastern press. Charley Leonard, a Bronx boy weighing 125 pounds is reputed to be an exceptional flyweight. Joe Prior, of Cleveland, comes with a record of having defeated Matty Herbert, the New York bantamweight, who recently won honors here. Four men will represent the northwest, two from the Multnomah club, Portland and two from the Seattle Athletic club. Twenty local boxers will participate.

Baseball in Bad Shape

Indianapolis, Ind., Nov. 9.—Reports and rumors business occupied the foreground league magnates in session here today. It seems to be arranged, it is likely that this will be at French Lick where, it is rumored, leaders of organized baseball are planning to be this week.

President Mann, of Kansas City, was not in attendance this forenoon. He expects the league will forfeit his franchise as he owes \$5,300 which cannot be paid. Buffalo, likewise, is ready to give up the ghost.

Think It Was a Draw

Milwaukee, Wis., Nov. 9.—Discussions today among fight fans of the Johnny Dundee-John Rivers ten round bout here last night revealed the fact that many do not concur in the decision of a majority of the sporting writers that the New Yorker had a shade over the Californian. Many of the old ring fans declared it would have been a good draw.

Both boys started the milling at the outset, and the various rounds were much alike, with little to choose between the two.

Minnesota in Good Form

Minneapolis, Minn., Nov. 9.—Coach Williams is rapidly putting the Minnesota eleven in top form for the game with Chicago Saturday. It is reported that he has an entirely new offensive which he will spring on Chicago, and with Captain Bizman back in the game after being out some time with an injury, Minnesota enthusiasts expect to see the Gophers at their best Saturday.

Kid Has New Owner

San Francisco, Nov. 9.—The Oregon Kid will make its debut under its new owner, Carleton E. Miller, millionaire yachtsman who purchased it yesterday, in the speed boat races to be held off Sausalito Sunday. The Oregon Kid will be pitted against the fastest boats in this vicinity.

HENS MADE NERVOUS BY TOO MUCH SOCIETY

Refuse To Shell Out As Freely As When In the Quiet of Their Homes

Corvallis, Or., Nov. 3.—(To the Editor.)—The enclosed clipping from the Farm Bureau and Press News, of Hayward, California, offers the explanation advanced by the management of the Panama-Pacific exposition egg-laying contest to account for the unusually poor records made by all pens in the contest. The hens in this contest are confined in small pens along which run the alleys for use of visitors in inspecting the flocks. Thousands of visitors are said to pass along the walk every day greatly to the detriment of high record. Most hens are nervous when thus disturbed, especially those of the Mediterranean breeds, and do not produce so highly a when in retirement. It is also explained by the management that the pens are located directly in the path of the cold, foggy winds off sea, and the birds get cold at night. These two facts are said to handicap the hens, "and it is no discredit to any breeder that his hens have not done quite all that he expected and all that they would have done under more natural or ordinary conditions."

That these factors unfavorably influence the flocks of noted breeders other than those of the agricultural college is shown in the records of the Barron flocks. This noted English breeder presumably aimed to send his best pens to the most prominent contest, that of the exposition, yet it is seen that his best pens are considerably lower than other leading pens, while his pens at the Storr's contest and in the national contest of Missouri are doing better and at last reports were actually in the lead.

The record of the hens in the egg laying contest has not been as high as it would be in any contest where the hens were kept under conditions which were more like those found on the ordinary farm. Where thousands of people are passing within a few feet of the hens day after day, they will never lay as well as if they were more quiet and more secluded. They are always disturbed more or less and made more nervous when they are constantly coming in contact with strange faces, strange figures, and parties attired in strange clothing.

In the Missouri contests no one is allowed in the pens or near the birds but the attendant, and he goes through the pens in the same direction each time, always entering the same door, going from house No. 1 to No. 50 and always attired in the same kind of clothing. Whoever he reverses this course and goes from house No. 50 to house No. 1, the hens are not expecting him at the doors in the opposite ends of the houses and they are always more or less nervous and excited as a result. The attendant in the Missouri contest uses khaki suits and whenever he puts on a black suit, the hens look upon him as a stranger. Little things like this have a greater influence on egg production than most people imagine, and

for that reason many of the large egg farms require their attendants to always whistle or knock on the doors before attempting to open them.

Mrs. McCormick and daughter, Zeta, of West Woodburn, were shopping here Wednesday.

Mrs. E. Smith was shopping in Portland Thursday.

WOMEN SHOULD TAKE WARNING

If the statement made at a New York Assembly of women, that healthy American women are so rare that they are almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging down pains, nervousness, mental depression that are tell-tale symptoms of some organic derangement of which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific and may be relied upon to restore women to a healthy normal condition.

LIZARD LED TO FORTUNE

Martinez, Cal., Nov. 9.—George Mackenzie, aged 9, chased a lizard. It led him to a buried treasure of about \$1000 in gold.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds, and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

Poultry Show Soon --Fanciers Get Busy

President Geo. E. Show.

At a recent meeting of the executive committee of the Marion County Poultry association, January 11 to 14 inclusive, was chosen for their next show. Salem has been selected as the permanent home for the show.

Judge B. P. Koeny has been secured to place the awards, and Sherrell Fleming assisted by H. S. Carter will have supervision over the exhibit.

Secretary Walter H. Smith states that unusual interest is being manifested in the coming show, and that applications for entry blanks are already being received.

The Salem commercial club will cooperate with the Poultry association in making this show the best in the history of the association. A liberal cash donation will likely be made by them enabling the association to offer more cash premiums.

The officers of the Marion County Poultry association are as follows: Geo. E. Shaw, president; Mayor Harley O. White, vice-president; W. H. Smith, secretary-treasurer. Executive committee, W. A. Smith, W. E. Park, Eugene T. Prescott, G. M. Vooris, John Cornforth. The armory will again house the show.

EAT A SQUARE MEAL AND NOT FEAR INDIGESTION

There are hundreds of people in Salem who were not the least bit surprised when they read in the Joe that Daniel J. Fry is selling Mio-na on a guarantee to refund the money in case it did not relieve. This remarkable dyspepsia remedy will relieve the worst case of indigestion, headache, dizziness, or the general played-out condition that afflicts every one suffering with stomach trouble. Mio-na does not simply relieve, it aims to cure.

Daniel J. Fry can tell you of many well known people in this city who this remedy has restored to health, often after they have tried many other methods of treatment with little or no benefit. No other dyspepsia remedy has made so large a percentage of cures as Mio-na. It is so large that Daniel J. Fry stands ready to refund the price to any customer whom it does not help.

The best kind of advertising is the praise of a pleased customer, and there are hundreds in Salem today praising Mio-na because it does what it is advertised to do. A few months ago they could eat nothing without wondering what the result would be. Since using Mio-na, they eat what they want and when they want with no fear of suffering. This medicine comes in the form of a small tablet and is very pleasant to take. It speedily and permanently relieves almost all forms of stomach trouble and is the only one sold under a positive guarantee without any restriction, to refund the money if it does not relieve. This is a good time to get well and you ought to take advantage of Daniel J. Fry's offer.

Fireman Proved Himself A Hero

San Diego Cal., Nov. 9.—That August Larch, a fireman, saved the lives of 48 persons on the ill-fated steamer Fort Bragg by swimming through a running surf with a heaving line around his body was the statement today of the rescued passengers of the Fort Bragg, who arrived here on the U. S. S. San Diego.

The Fort Bragg, with a cargo of hides, coffee and hardwood struck off the Mexican coast and will be a total loss. After Larch had reached shore with the heaving line a breeches buoy was rigged up and all on board were saved.
