APPLY POSLAM; SEE HOW QUICKLY PIMPLES RESPOND
 Poslam is a most useful remedy for Pimples, Urticaria, Redness and minor skin affections and it is also an excellent treatment for Eczema and stubborn eruptions of the face.
 To see how quickly it acts on Pimples or in clearing an inflamed complexion, simply apply upon the affected spot at night and note the improvement in the morning. Poslam takes hold and exerts its work of healing at once. Its results after a brief time are often surprising. Poslam is absolutely harmless.
 Use Poslam Soap daily for Toilet and Bath, particularly if skin is tender and other soaps irritate.
 For samples, send 4c stamps to Emergency Laboratories, 23 West 25th St., New York City. Sold by all druggists.

FISH SCALES FOUND TO BE INACCURATE BY DEPUTY SEALER
Individual Peddlers Have Their "Family" Scales Confiscated by Buchtel
 The scales on the wagons of three individual fish peddlers were seized yesterday by the state sealer of weights and measures on account of the inaccuracies of the "family" scales such as was in use. Fred G. Buchtel, deputy state sealer, said today that no charges were made that the fish peddlers deliberately intended to short weight their customers but that it was not possible to deliver accurate weights with the scales in use. If shortages are reported in the future the matter will be taken up with the district attorney. Investigation has shown that the regular fish dealers in the city of Salem are complying with the law in all respects and are using standard scales.
 Several gasoline pumps were examined and all but one or two were found to be accurate and these were corrected to comply with the law. Mr. Buchtel advises the purchase of four foot wood to be sawed into stove lengths after it is delivered in preference to the wood which is delivered already sawed. He states that in many instances it has been found that the shrinkage due to sawing into stove lengths has been greater than it should be where it was delivered by the load by the dealer.
 The office of weights and measures has of late received a number of complaints from in and around Salem, as regards the measurement of wood which has been sawed before delivery, and in order that the public may be informed as to what they are entitled to, the following statement was issued:
 Primarily wood must be sold by the cord or the fractional part of a cord, and not by the load, the basis of measurement being the wood in the four foot length, one cord constituting 128 cubic feet (4x4x8).
 From now on and during the winter months, a very considerable amount of the wood sold will be in the stove lengths of either 12 or 16 inches, and it should be taken into consideration by purchasers that where a cord of wood is ordered with the request that it be sawed, that the pile in the "short lengths" will contain a less number of cubic feet than originally, due to the fact that the shorter wood packs more closely together. The amount of wood, less the sawdust, is the same, but the cubic contents measures less, this shrinkage varying according to the degree of the straightness of the wood in the four foot lengths.
 After many tests conducted by fuel dealers, sealers, and this office, shrinkages have been determined as follows:—one cord of the average four foot fir wood, and such as is being commonly sold today will measure 116 cubic feet when sawed and repiled, the shrinkage being 12 cubic feet to the cord. Oak, ash, and similar crooked wood will

Radical Slashing of Princely Ball Salaries
 San Francisco, Nov. 10.—Radical slashing of the princely salaries paid many baseball players was expected to occupy the attention of the delegates to the convention of the National Association of Professional Baseball leagues, when the minor leaguers began the real work of their sessions here today.
 As business was suspended the first day, the delegates decided to make the meeting today a closed one in order to expedite the work. This is the first time in the history of the association that the public has not been admitted to the sessions.
 Dismissing the salary question, President Sexton said:
 "For several years I have anticipated that it would take a catastrophe such as we have suffered to bring the owners to their senses and make them realize that they have thrown their money away. Not alone in salary limits, but with other expense accounts, such as the cutting down of spring training, can we reduce."

Public Service Dates for Hearing Set by State Commission
 The Public Service commission will conduct a hearing at West Woodburn November 17 at 10:15 relative to the petition of a number of citizens of Loganville to have the station at this place removed south to the crossing of the county road and the Oregon Electric tracks. They represent that in this place the station will be more easily accessible.
 At 1:30 in the afternoon on the same date a hearing will be held at Tigard in the matter of the application for an open crossing over the Oregon Electric tracks. A hearing will be held in Portland November 12 on the petition of the Portland Railway, Light & Power company to discontinue the physical connection with the lines of the O. W. R. & N. at Montavilla.
MAYOR IS DEFEATED.
 Bellingham, Wash., Nov. 10.—Mayor J. P. DeMatos, running for an eighth term was defeated here in the republican primaries by George F. Raymond, shoe merchant, a former Seattle politician.

AN-URIC!
The Newest Discovery in Chemistry.
 This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation — as backache, scalding urine and frequent urination, as well as sediment in the urine, or if acid in the blood has caused rheumatism, it is simply wonderful how surely "An-uric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.
 Go to your nearest drug store and simply ask for a 50-cent package of

MUCH DAMAGE TO STOCK OF MUNITIONS
Machine Shop of Bethlehem Steel Works Swept By Fire
 South Bethlehem, Pa., Nov. 10.—Munitions for the allies and machinery worth several million dollars was badly damaged today when number 4 machine shop of the Bethlehem Steel company was destroyed by fire. The flames started in the boring mill sections and spread quickly to the entire apparatus of the plant. Four borough fire apparatus could not control it.
 Only the skeleton of the building is now standing. There were in the shop 800 guns, including 150 ready to ship. Some were intended for the allies; others for the United States.
 The shop had recently been rebuilt at a cost of \$3,000,000 and it contained 1,000 different machines.
 The fire started in oil near the entrance, but there is no reason to suspect incendiarism according to officials.
 The fire forced out of employment 2100 shop employees and caused an estimated loss of \$1,000,000 or more. Officials were unable to tell exactly how much final figures will show.
Caused By Short Circuit.
 New York, Nov. 10.—Short circuiting of electric wires set fire to oil around the Bethlehem steel works at South Bethlehem causing the big blaze there, according to Vice-President A. D. Mitchell. Elsewhere the plant is running as usual. The company plans to rebuild soon.

Resignation of Captain Gehlhar Is Declined By Adjutant General
 Captain Max Gehlhar will remain as the head of Company M, O. N. G., of this city as he received a letter today from the adjutant general formally declining to accept the resignation of Captain Gehlhar which was tendered in July to take effect October 15. From October 15 to date the company has been in charge of First Lieutenant James R. Neer who will remain in charge of the company by a special arrangement with the headquarters of the regiment.
 First Sergeant Dana H. Allen has been promoted to Second Lieutenant of the company in place of Lieutenant Lewis Judson, who retired after 15 years of service in the company. In the letter received by Captain Gehlhar it was stated that his resignation had not been accepted by the adjutant general and would not be accepted as Captain Gehlhar was considered a valuable man in the service and it was felt that he should remain in charge of Company M.

CATARRH GERMS EASILY KILLED
Only Way To Cure This Disease Is To Destroy Its Cause.
 By A Specialist.
 If you have catarrh and want to get rid of it you must kill the germs which cause catarrh. Stomach dosing, ointments, sprays, creams, douches, etc., fail because they overlook this fact. They all help by giving temporary relief but they do not reach the germ life that has found lodgement in your head, nose, throat, and could not destroy it if they did.
 The best known way of destroying the dangerous germs of Catarrh and consequently ending the disease itself, is to breathe into the air passages of your nose and throat the pleasant, penetrating air of Hyomei (pronounced High-o-mei). Hyomei is made from purest oil of Eucalyptus combined with other powerful, healing, antiseptic and germicidal ingredients. You breathe it through a little pocket inhaler which Daniel J. Fry and other leading druggists in Salem and vicinity are furnishing with every complete treatment sold. Every time you inhale the sweet, fragrant air of Hyomei through this little device you are drawing into your swollen, inflamed, germ laden membranes a medicated air which will not only reduce all the swelling and inflammation and open your clogged nose and stoppered-up air passages, but will absolutely and positively destroy every trace of Catarrh germ life it reaches. Druggists are so sure of the blessed, lasting relief that Hyomei brings to catarrh sufferers that they sell it invariably on the positive guarantee that money paid will be refunded if successful results are not secured from its use. Get a Hyomei outfit from your druggist today and begin at once to drive this dangerous and disgusting disease from your system forever.

Dr. Fisher Delivers Address To Club
 Dr. E. E. Fisher delivered an address last evening before the members of the Six O'clock club at the Methodist church to an attendance that taxed the capacity of the church parlors.
 The address was on "Health and Sanitation," which the doctor suggested that now is the time to swat the fly, and also to take note as to whether the back yard would not be improved from a health standpoint by a little cleaning.
 Health would not be endangered by drinking deeply of Salem water, as it had been analyzed and found to contain no microbes or anything else a healthy man could object to. In fact, the water is so pure that the doctor could see no reason why any one should want to go elsewhere for a drink.
 Another means of improving the sanitary conditions of a town is by cilling the streets, as a means of keeping down the dust and dirt. Statistics show, said the doctor, that the death rate is less in localities where oil is used.
 As a final advice, he urged the men to be careful about their diet. The man who is a light eater has a better chance for average good health than the heavy eater, and it is the man who eats too much that is subject to heart failure.

Blighs Win After Tie Score With Oregons
 After taking one game each the Bligh team and the Oregon team tied the third game on the Club alleys last night and in playing off the tie the Blighs won by seven pins. L. Price, of the Blighs, won the high score with 242 and the high average with 207. Tonight the W. O. W. and the Elks team, the only two lodge teams entered will meet.
 The score last night follows:
 Bligh:
 E. Price 192 193 200 195
 Domogalla 149 149 144 147
 Lotes 155 157 148 153
 McKinney 177 197 230 201
 L. Price 242 205 165 207
 Totals 915 801 887
 Total pins 2703, team average 180.
 Oregon:
 Annibal 154 177 147 159
 Sundin 157 169 175 167
 Wheeler 154 178 170 167
 Zenger 129 200 228 186
 Laflair 173 235 167 192
 Totals 767 959 887
 Total pins 2813, team average 174.

Giving all we can for what we get and not getting all we can for what we give, is the policy of this growing store — perhaps that is one reason why we grow. We are giving the very best values it is possible to give, with the conviction that it pays in the long run.
