EAT A SQUARE MEAL AND NOT FEAR INDIGESTION

There are hundreds of people in Salem who were not the least bit ar-

Fry stands ready to refund the price to any customer whom it does not help. The best kind of advertising is the praise of a pleased customer, and there are hundreds in Salem today praising Mi-o-ma because it does what it is advertised to do. A few months ago they could eat nothing without wondering what the result would be. Since using Mi-o-ma, they cat what they want and when they want with no fear of auffering. This medicine comes in the form of a small tablet and is very pleasant to take. It speedily and permanently relieves of a small tablet and is very pleasant to take. It speedily and permanently relieves almost all forms of stomach trouble and is the only one sold under a positive guarantee without any restriction, to refund the money if it does not relieve. Conference Reaches Agreement to Act As One In War Operations

By William Philip Simms)

Paris, Nov. 17.—French and British fighting forces are virtually one vast blood. It is positively unequaled in the treatment of scrottla and other than the treatment of scrottla and other than the treatment of scrottla and other treatment of scrottla and other than the treatment of scrottla and other than the treatment of scrottla and other than the treatment of scrottla and other trea

machine tonight.

Hitherto, though allied, the two countries armies have fought more or less independently. Henceforth they will be guided by a single source—an interallies war council. Russia and Italy, too, will join the combination as speedily as possible

The Franco-British arrangement was perfected today in a conference be-tween Premier Asquith, Munitions Minister Lloyd George; Sir Edward Grey, Foreign Minister and First Lord of the Admiralty Balfour of England with Premier Briand, Minister of War Gallieni, commander Joffre and Min-ister of Marine Lacaze of France

Despite the fact that General Joffre has been recognized as commander of the chief of the allies forces on the western front, not only the French, but the British and Belgian forces have been handled separately. The Russians, at the same time, co-operated still less in any concerted plan ally action, and the Italians hardly at all.

The nations now purpose to strike combined sledge hammer blows with five times the power heretofore possible with the armies acting virtually independently of one another.

Authorities inclined to believe that the Grecian situation is on. Authorities inclined to believe that the Grecian situation might believe that the Grecian situation might perhaps figure prominently in the discussion. Certainly, this problem is giving officials cause. With King Constantine's position still one of danger to the allies, they are anxious to get from him a definite assurance that he will not molest allied forces should they be forced to seek refuge on Greck soil after a Balkan reverse.
