

# Electrical Prosperity Week

## This is Electric Prosperity Week

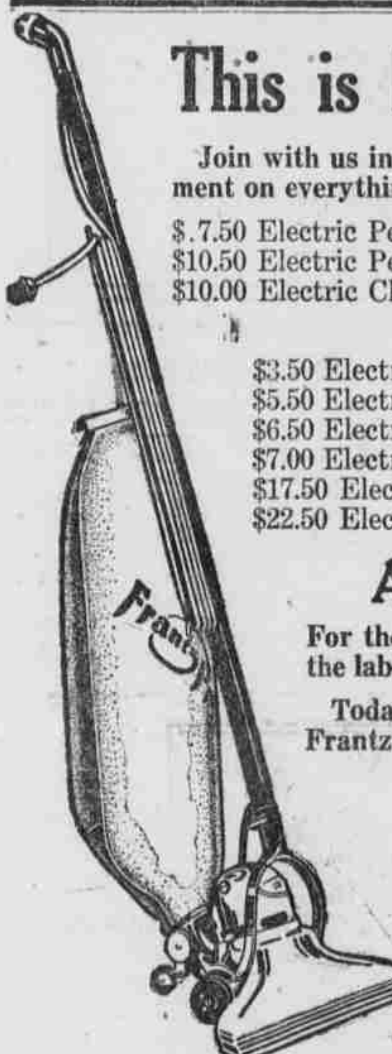

Join with us in making it a huge success. We offer you special inducement on everything electrical in this store. Ideal for Xmas gifts—

- \$ 7.50 Electric Percolators ..\$5.95
- \$ 8.50 Electric Percolator ..\$6.35
- \$10.50 Electric Percolators \$8.10
- \$11.00 Electric Percolator ..\$8.50
- \$10.00 Electric Chafing Dish \$7.50
- \$ 5.00 Electric Irons .....\$2.50
- \$65.00 Electric Washing Machine \$57.50.
- \$3.50 Electric Portable ...\$2.75
- \$11.50 Electric Portable ...\$9.35
- \$5.50 Electric Portable ...\$3.95
- \$13.00 Electric Portable ...\$10.50
- \$6.50 Electric Portable ...\$5.10
- \$14.00 Electric Portable ...\$10.75
- \$7.00 Electric Portable ...\$5.65
- \$17.50 Electric Portable ...\$13.50
- \$17.50 Electric Dome ...\$10.65
- \$18.50 Electric Dome ...\$11.15
- \$22.50 Electric Dome ...\$15.85
- \$ 9.50 Electric Pendant ..\$ 6.15

### A "No Cost Demonstration"

For the asking. Learn the economical Frantz Way of using the labor saving electricity that flows past your home.

Today—Now—without price or obligation ask to have a Frantz Premier Electric Cleaner sent to your home. Prove for yourself how the Frantz Premier saves cost of "special" cleanings—saves furniture and rugs—saves your hands, your eyes, your time, your energy. Weighs only 9 pounds, one hand operates it; soon pays for itself. Let us show you how it takes handfuls of dust out of rugs you thought were clean. An ideal Xmas gift.

## Great Electrical Industry Backs Prosperity Movement

### Electrical Prosperity Week, Nov. 29-Dec. 4, Will Celebrate Return of "Better Times" to This Country—Other Interests In Line

\*\*\*\*\*  
**ELECTRICAL FACTS**  
 \* 70 per cent of the people use electricity in some form every day.  
 \* 10 per cent of the population derive their living, directly or indirectly, from the electrical industry.  
 \* \$7,999,802,157 invested in electrical industry, including telephone and telegraph.  
 \* \$2,098,513,122 invested in privately owned central station electric light and power plants.  
 \* \$2,000,000 a day estimated business of electrical industry.  
 \* \$730,000,000 expended annually for new electrical equipment and service.  
 \* \$80,000,000 expended each year to sell electric service, of which \$20,000,000 is spent to explain and develop new uses of electricity.  
 \* \$2,385,000,000 gross income of electrical industry for 1914.  
 \* \$20 a year spent by every person in United States for electrical materials and service.  
 \* 1,075 per cent more electric light (C. P. U.) can now be obtained for 10 cents than for a like sum twenty years ago.  
 \* The huge electric industry in all its branches will celebrate Electrical Prosperity Week, Nov. 29-Dec. 4, in an optimistic attempt to bring back prosperity and good times throughout the country. The stimulus this great industry can give toward prosperity will go far to bring back the good old times.  
 \*\*\*\*\*

The three billion dollar electrical industry of the country is back of a nation wide celebration of Electrical Prosperity Week scheduled for Nov. 29 to Dec. 4. Local electrical interests will celebrate. An electrical engineer, affiliated with the Society for Electrical Development, explains this prosperity campaign as follows:

"The mere mention of the word 'prosperity' brings a sense of warmth and contentment over the average man. We have been so fed with the word 'depression' since the outbreak of European hostilities that today we do not know what is prosperity. The word and condition flew out the nation's window when we fell to thinking and wondering how the war, legislation and other influences seemed to conspire to kill business. From figuring and from timidity sprang business stagnation."  
 "Prosperity is returning to us by just the reverse chain of thought with the identical psychological links, the mind again performing the operation. The electrical industry viewed the nation wide business depression and decided to switch off people's minds and to make 'prosperity' spell something real and true."  
 "The electrical industry said: 'Let's

## SELF GOVERNMENT, NOT INDEPENDENCE

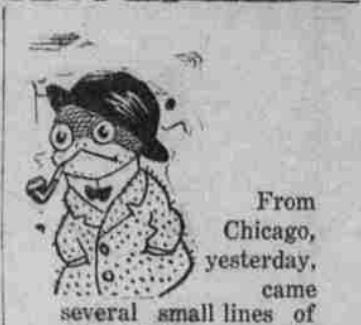

### This Secretary of War Garrison Says Is the Policy In the Philippines

Washington, Nov. 30.—Self government, without complete independence for some time, is the administration's Philippine policy, according to the construction generally placed today on Secretary of War Garrison's statement criticizing Ex-President Taft's recent utterances on the island policy.  
 Garrison declared the administration's "independence" bill is misnamed and provides merely for all possible local self government in the islands.  
 Statements from Taft and others he termed "mendacious in character and mischievous in intent." He suggested that republicans are merely trying to make campaign capital of the island situation.  
 His attack on Taft was aroused by an anti-administration article in an Oakland, California, paper recently bearing on the Philippines, later circulated with an introduction by Taft as a pamphlet. Garrison charged that the writer of the original article also sought to find where he could place articles favorable to the administration.  
 Taft admitted this claim tended to reflect on the credibility of the writer. He maintained that his own criticisms of the island policy were based on fact, such as the administration's "arduous pleasure" in turning out of office men capable of handling affairs and substituting untrained men. Demoralization, he claimed had resulted therefrom.

## Selecting Material From Oregon Exhibits

(Capital Journal Special Service.)  
 Oregon Building, P. P. L. E., Nov. 30. E. T. Judd is here making a choice of the many materials in the several Oregon exhibits for the permanent state exhibit provided for by the last legislature. The exact detail of the proposed exhibit have not yet been worked out, but certain it is that the best of the excellent showings here will go far toward making an effective exhibit to show homecomers when they come to the state's metropolis. Various of the railroads want some of the grains and grasses for permanent eastern exhibits.

The well known DeMoss family, who hail from The Dalles, have been singing and playing at the Oregon building each afternoon for a week. They are now enroute to Los Angeles and will continue their concert tour until the good old summer time. The DeMosses have been singing throughout the nation and Europe since 1890.  
 A social event at the building fathered by Commissioner C. J. Hawley was a reception and ball open to every Oregonian who would register for a card. While this was somewhat "common" for many of the grand dames of the exposition, it fitted in with Mr. Hawley's idea of the eternal fitness of things when Oregon money is being spent for entertainment. The Oregon Society of California assisted the Hawleys and Hostess Gray and the occasion proved a delightful social success. Thanksgiving at the Oregon building brought the first closing of the building since the exposition opened, February 20th. From 12 until 3 o'clock the doors were shut and the inmates, a total of fifty-five connected with the Oregon showing here, ate turkey in the dining room conducted by the senior girls of the domestic science department of the agricultural college. And it was some turkey dinner, well worth closing the building for. Every day, rain or shine, and including Sunday the Oregon building has been open to

From Chicago, yesterday, came several small lines of very choice overcoats, cut on the latest patterns.  
 These coats have a big, loose, sumptuous look; cloth collars to match; sleeves with out-seam running from the shoulders, big armseyes; knee length; three buttons, buttoning through; and in every way a most distinctive garment. And the price?  
 Twenty-five Dollars.  
 Other new lines at \$15 and \$20.

all comers, but turkey proved too much for the aggregation.  
 The crowds at the exposition continue to average more than 20,000 daily. Two days last week registered more than 100,000 each. The number of easterners coming in is remarkable.

## ONLY 14 PER CENT REJECTED

Portland, Ore., Nov. 30.—About 14 per cent of the sailors examined under the new seamen's law in the Portland, Puget Sound and San Francisco districts have been rejected, John K. Bulger, supervising inspector of the Pacific district stated today. Approximately 2,700 sailors have been examined on the coast thus far.

## New Railroad In Polk County Is Puzzle to Public

Monmouth, Ore., Nov. 29.—As the new railway, 13 miles long, nears completion in the southern section of Polk county, nearby residents are speculating on what is the purpose of the Valley & Siletz line and several questions are asked.  
 Will the road be used for passengers or for freight service?  
 Will a sawmill be erected at Independence, replacing the old mill which burned several years ago, to be furnished with logs carried over the Valley & Siletz road which traverses Siletz timber belts?  
 How will the road be used to help the inhabitants of the South Polk county districts, and the Siletz settlers wishing to gain a start?  
 More than ever before citizens of south Polk county are asking these questions. Speculation on the outcome has been widespread. General discussions by groups have covered the questions but no conclusions have been reached definitely.  
 F. S. Belcher, secretary of the railroad company, has declined to make any announcement of the company's operations.  
 Farmers who sold land to the company for the road say they know nothing about how the road is to be

utilized. Benefit is expected, though, by the creation of better markets for farm products, owing to quicker transportation, but that the line is to serve the country within the next few years is doubted.  
 The Valley & Siletz company rushed its construction work during the past summer. A full crew worked 10 hour days for seven days a week. Several bridges are erected along the line, with work lasting but a few more weeks it is estimated the road will be completed over the entire route between Independence and the timber belt. Already several miles of track have been laid.  
 The resources of the Siletz district, tapped by the railroad, are rich. The timber is considered to be among the best for lumbering purposes in the Willamette districts. The quantity is enormous. Numbers of trees measure 25 feet in circumference.

\*\*\*\*\*  
 \* **DON'T BURN AND RUIN** \*  
 \* **THE HAIR WITH HOT IRON** \*  
 \*\*\*\*\*  
 Straight, lank hair is becoming to but few women and there's no excuse now for anyone looking homely and unkempt on that account. Those who have forewarned the curling iron because of the damage it does by drying and breaking the hair, will be glad to hear that plain liquid silmerine will produce a far better and prettier effect, without any injurious result whatever. If just a small quantity be applied to the hair at night with a clean tooth brush, a lovely curliness and natural wave will be in evidence in the morning, and there will be nothing streaky, sticky or greasy about it.  
 A few ounces of liquid silmerine, obtainable at any drug store, will prove a welcome addition to many a dressing table. It is best applied by dividing the hair into strands and misting each of them separately from root to tip. The beautiful wavy effect will last for a considerable time.  
**KILLED BY STREET CAR**  
 Portland, Ore., Nov. 30.—It was believed today that George E. Rowland, aged 45 years, instantly killed by a street car last night, was thrown under the wheels when he attempted to board the car while it was in motion.

## WOMEN SUBJECT TO KIDNEY TROUBLES

I beg to say that I have been a constant sufferer with severe pains in my back and was on the verge of nervous prostration resulting from kidney trouble and other complications. A friend of mine recommended Dr. Kilmer's Swamp-Root as a sure cure for these troubles. Acting upon her advice I began taking Swamp-Root and began to improve before I had finished the first bottle. I continued its use until I had taken several bottles and continued to improve until completely cured. I am happy to say that I am as well as any woman on earth and have been so for the past nine years, thanks to Dr. Kilmer's Swamp-Root, and I cheerfully recommend it to all who suffer from kidney troubles.  
 Very truly yours,  
 Mrs. Alva Baxter,  
 1108 Main St. Orange, Texas  
 Subscribed and sworn to before me this 21st day of March, 1912.  
 John J. Ball,  
 Notary Public.  
**MEXICANS ROB TRAIN**  
 Laredo, Texas, Nov. 30.—One hundred bandits last Wednesday held up a train between Durango and Tornon, riddled the cars with bullets, wounded a passenger and then fled with thousands of dollars worth of money and jewels, a refugee arriving today reported.

## WAR ODDITIES.

London—Workmen in a department of the Bangor Corporation, refused an increase in their salary, immediately quit their jobs and joined the army.  
 Cheriton, Eng.—Just before he died, A. Martin, master of the local hunt, had his other hounds brought to his bedside and bade them farewell.  
 \*\*\*\*\*

## American Liner China To Haul Down Flag

San Francisco, Nov. 30.—The last ship on the Pacific under American registry, the liner China, will haul down the Stars and Stripes when it arrives here late next month, according to President Look Tin Eli of the China Mail Steamship company. The only thing which will keep the former Pacific mail vessel from foreign registry, he said, will be repeal by congress of the seamen's act.  
**THIRTY TO LOSE JOBS**  
 Portland, Ore., Nov. 30.—Thirty municipal employees will be dismissed tonight in the city's retrenchment campaign.
