Tonight there will be a general social gathering of all the members of the Salem Commercial club, which will take the form of a smoker and a reception to the new manager, O. H. Luck. It is understood there is to be no formality in this reception. The meeting was called in order that the members might become acquainted with the new manager and at the same time, the new manager take a look and become acquainted with the men who will assist him in solving a lot of the knotty problems that have been coming to the front the last year or so.

Two car loads of catalogs, numbering 30,000, will be shipped to Salem within two months by an eastern mail order house, to be distributed into the second and third zones, which will include a radius of 150 miles from the city. Not only will this number of catalogs be sent out in February, but the same number will be mailed again six months later. The postage on each shipment will amount to between \$1,800 and \$2,000, and will be paid into the local office. In order to reduce the postage on catalogs, this mail order house ships by freight to distributing zones, and the number sent to the entire northwest may be estimated from the fact that the 30,000 coming here, will not go farther than 150 miles from Salem.

The sum of \$25,000 was made last night at the Elks' lodge by E. K. Piasecki. Erel Kay profited \$20,000 and Bert Pratt, \$10,000. Yet with all this money, the winners could not buy a cake with it today, as the money was only issued by The Bank of Lighthouse, Joyland, and was the script used last evening by the Elks in their celebration of frontier days. However, Mr. Piasecki was awarded the first prize, an Elk's tooth for his skill in beating the bank. Erel Kay received an Elk's card case as second prize, and Bert Pratt possesses a card case, as the award to the third best man in playing the game of the '49-ers. The event brought out more than 300 Elks and many visitors from Albany, Independence and Dallas.

They import Japan's choicest silk. They procure the finest, longest cotton fibre grown in Egypt. They could pay half for lesser yarns. But then these hosiery would wear like common hose.
