Four Thousand Rose Slips Offered To High Schools

State University Will Give Up to 20 Hardy Frau Karl Druschkis to Each and Will Send Them Prepaid.

University of Oregon, Eugene, Dec. 14.—Four thousand Frau Karl Druschki rose slips, rooted and growing, are to be given away this college year to the four-year high schools of the state by the University of Oregon. The plants are to be set out on the high school grounds and cared for.

Any time after the first of January, the desired number of slips—from 12 to 20—will be shipped prepaid on the request of the high school principal, the chairman of the board, or the president of the student body. The requests will be filed and filled in order of receipt, but some of the eastern Oregon shipments will be held up until after the hard freezes.

H. M. Fisher, superintendent of the

University grounds, says that the roses are a uniformly hard and vigorous variety. The two-hundred foot hedge from which the slips are cut, is even now full of large white buds. Most of the 1600 cuttings sent out last year grew, Mr. Fisher says. It was the first time the offer had been made, and there were more requests than could be filled. Even the grade schools began asking for them. Mr. Fisher says that by close trimming the parent hedge could furnish as many as 10,000 slips, so prolific is it.

The only receipt asked by the extension division of the University, through which application for the cuttings should be made, is acknowledgement through the local paper.

* RUINOUS CURLING IRON *
* NO LONGER NECESSARY *

The woman whose hair has been burnt dreads the hot curling iron. She knows only too well how destructive to the life and beauty of the hair this instrument of torture is. She will therefore welcome the information that a simple product to be found at any drug store will not only give her tresses the desired wavy effect, but without burning, discoloring, streaking or injuring hair or scalp in any way. It is nothing more than plain silmerine in liquid form. It should be applied to the hair with a clean tooth brush, preferably at night.

A convenient way is to divide the hair into strands and moisten these one at a time from root to tip. In the morning the hair will be found beautifully wavy and curly, having the appearance of perfect naturalness, no matter how the hair is done up. The effect lasts a considerable time and one need get only a few ounces of the liquid silmerine. This, by the way, is neither greasy nor sticky.

WILL LEND BOXES OF ORE

University Has Sets of 25 Specimens Each Made Up for High Schools

In order that high school pupils and teachers can better understand minerals and ores the extension division of the University is sending to high school geology teachers who make the request a box containing twenty five different specimens of rock-making minerals and ores. These boxes may be borrowed for a month, or for six weeks if not in great demand.

Each box contains twelve specimens of common rock-making minerals, three iron ore minerals, two copper ore minerals, two lead silver ore minerals, one zinc ore mineral, one aluminum ore mineral and three miscellaneous specimens.

Boxes Are Handy for Your Contribution

A number of boxes have been placed in the stores by the Salvation Army for contributions toward the Christmas dinner fund, also the kettles are on the streets today, and tomorrow a central depot for the receiving of donations of food, vegetables, fruit, clothing, etc., will be opened from 10 a. m. to 5 p. m., continuing until Christmas in the store formerly occupied by DeVoe's shoe store, which has been kindly donated by the owner for the purpose. Also donations of furniture, dishes or anything that will help to rebuild and furnish a home where a poor family have unfortunately lost all by fire. The husband is out of work and has a wife and three small children dependent on him. Kindly leave donations at 263 North Commercial street, or phone 1820.

MARRIED LIFE WAS SHORT.

San Francisco, Dec. 14.—On the ground that her husband left her standing on the street while he went to see a friend fifteen minutes after their marriage in 1911 and she has not seen him since, Mrs. Mary Devine was granted an interlocutory decree of divorce today from Max Devine, chauffeur. They had known each other four weeks prior to the marriage.

* TO HAVE SMOOTH, WHITE, *
* SOFT SKIN ALL WINTER *

Does your skin chap or roughen easily in this weather, or become unkindly red or blotchy? Let me tell you a quick, easy way to overcome the trouble and keep your complexion beautifully white, smooth and soft the winter long. Just get an ounce of ordinary mercerized wax at the nearest drugstore and use a little before retiring, as you would cold cream. Upon arising, remove the coating with sudsy water. The wax, through some peculiar attribute, flecks off the rough, discolored or blemished skin. The worn-out cuticle comes off just like dandruff, only in almost invisible particles. Mercerized wax simply hastens Nature's work. Used as required, it keeps the face constantly free from dehydrated, scurf skin and only the healthy, young-looking skin is in evidence. It's the best treatment known for weatherbeaten, aged, muddy, freckled, pimpled and all unbecoming complexions.

Some skins wrinkle easily in winter. There's an excellent remedy in a harmless wash lotion made by dissolving 1 oz. powdered saxolite in 1-2 pint witch hazel. This will quickly eradicate every line.—The Woman Beautiful.

Mr. Henry Arthur Jones, the distinguished English playwright is having two of his plays produced in America at the present time: "Miss Margaret Illington in 'The Lie,'" and Mr. Otis Skinner in "The Cock of the Walk." Mr. Jones is one of the three of England's greatest living playwrights, the others being Sir Arthur Wing Pinero and Sir James Barrie. Mr. Jones has been much more prolific in his dramatic writings than either of the others, having produced ninety three plays in the past thirty years. "The Lie," is a play of English life, the story being about two sisters, remnants of a fading country family, living in Waver-
