

WAR NEWS OF ONE YEAR AGO TODAY

The Allies began a western drive to get the Germans out of Belgium. England promised not to seize American ships if British consuls O. K. them. France raised the ban on cotton as contraband. Commander Stirling of the submarine fleet told Congress the U. S. never realized the submarine's worth before the European war began.

For Acid Stomachs Use Magnesia

The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles is due to the fact that it neutralizes the excessive acid and thus stops food fermentation—the direct cause of nearly all stomach trouble. Of the many forms of magnesia such as oxides, citrates, carbonates, sulphates, etc., the one now supplied in either powdered or tablet form and especially recommended for acid stomachs is bismerate magnesia, a teaspoonful of which in a little warm water immediately after eating will instantly neutralize the excessive acid, stop fermentation, and thus ensure painless normal digestion. Be sure to get bismerate magnesia rather than any other magnesia, as this form is prepared especially for the treatment of acid stomachs. The five grain tablets are the most convenient for physicians and travelers to carry and two tablets are equivalent to a teaspoonful of the powder. Take two of the tablets (with or without water) or a teaspoonful of the powder in a quarter of a glass of water after each meal. Stomach sufferers and dyspeptics who follow this plan and avoid the use of pepsin, charcoal, soda salts, drugs and medicines are astonished to find that the stomach, relieved of the irritating acid and gas, soon regains its normal tone, and can do its work alone without the doubtful aid of artificial digestants.

CONVICT IS GOOD STUDENT Has to Study in Tent Among 14 Men After Supper, but Promises His Best University of Oregon, Eugene, Dec. 14.—One student in the correspondence-enrollment of the State University is getting an education under desperate conditions. He is a convict, and he works all day with a road gang. "My lessons are not sent regularly," he must admit, "he writes to his instructor, about out here on the highway we find plenty of work, and after supper the only place to study is our tent, where 14 men are sleeping, so a fellow does not get much chance, but I'll do my best."

DON'T CRY VIOLET

By Ella McMunn. Little Violet Newton's rabbits have just died and her heart is breaking. I had a good home and good Violet's then as well as if we had wandered all our lives together over the sage brush country. I know that country, where there are no fences or houses or limitations, save those of my own soul, and so of course, I know Violet's rabbits, and I am going to tell her that they are happier than they have ever been. She won't believe it; not till she has lived half her life and knows rabbits, because she knows herself. True they had a good home and Violet's pure love, but I believe that they would have preferred to nibble at the top of some brush just sticking out of the snow, to burrow into the ground for a home, and to do without Violet's love, since it was the kind that pleased Violet, not the rabbits, for in that respect rabbits are not much different from human beings. When dogs came snarling around their butch they withdrew to the farthest corner, but they were always afraid that it would not hold strong enough to keep the enemy out, and one day when they thought sure the dog was coming in, they died.

Once An Irishman Always An Irishman

Philadelphia, Pa., Dec. 14.—When is an Irishman not an Irishman and does he ever become thoroughly Americanized? That is what First Sergeant John Fox, United States Marine Corps, retired after thirty years honorable service with the colors, would like to know. A young man for a position as watchman at one of the large factories supplying ammunition to the Allies, Fox was told that the fact of his having been born in the Emerald Isle over half a century ago, barred him absolutely from such employment. Fox's discharges show that he fought bravely at Guantanamo, Cuba, in 1898, when a handful of United States Marines held in check thousands of Spaniards there, and established a naval base at that point, but his thirty years of excellent service with Uncle Sam's sea-soldiers counted for naught with the munition makers. "Once an Irishman always an Irishman and we can't be too careful in the selection of our guards," Fox was told. Fox, who says he is intensely American and absolutely neutral, cannot get their viewpoint, but isn't worrying much, for Uncle Sam pays him \$70.00 a month retired pay.

KAISER BOTTOM NEWS

(Capital Journal Special Service.) Kaiser Bottom, Dec. 14.—Thomas Newton, of this place, believes that his fine Baldwin apples have made a good reputation for themselves as some person came in the night and relieved him of 3 bushels last night. The only souvenir the miscreant left were 3 rubber shoes, new, stuck in mud near his front house. The grower, also thoughtfully left Mr. Newton a 3 new apple crates, evidently removing the apples to gunny sacks and transferring away by horse and buggy. As it seems to be against the ethics never saw those rabbits, but I know night, the travelers made an easy get-away with the fruit.

MINK KILLS CHICKENS.

(Capital Journal Special Service.) Falls City, Ore., Dec. 14.—A mink broke into the poultry house of C. E. McPherson last Friday night and killed and snatched the blood of sixteen grown chickens and frightened the remainder of the poultry from the premises. The varmint was frightened away by the barking of dogs before it had an opportunity to do any further mischief. This vicinity has been bothered with minks for some time and the residents have lost quite a good many chickens. G. Boyer has been the heaviest loser in the past, having lost 11 at one time and 14 at another.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and the sound of the hearing is lost. When this tube is restored to its normal condition, hearing will be restored; and this can be done without surgery, and without the use of any dangerous drugs. We will give you \$100.00 if you can be cured by any other means. Write for our free literature. F. J. CHENEY & CO., Toledo, Ohio.

STOMACH MISERY QUICKLY VANISHES

Your money back if you want it is the way in which Daniel J. Fry, the popular druggist, is selling Mio-na, the great dyspepsia remedy. This is an unusual plan, but Mio-na has so much merit and is so almost invariably successful in relieving all forms of indigestion that he can't but little risk in selling under a guarantee of this kind. Do not be miserable or make your friends miserable with your dyspepsia. Mio-na will help you. If it doesn't, tell Daniel J. Fry that you want your money back and he will cheerfully refund it. A change for the better will be seen from the first few doses of Mio-na and its continued use will soon start you on the road to perfect digestion and enjoyment of food. Mio-na has been so uniformly successful that every box is sold under a positive guarantee to refund the money if it does not relieve. What fairer proposition could be made. Daniel J. Fry gives his personal guarantee of "money back if you want it" with every box of Mio-na that he sells. A guarantee like this speaks volumes for the merit of the remedy.

The silken quilt and the small articles of needlecraft brought the sum up to \$26, all of which will go to benefit the church here. The gathering was an unqualified success.
