BRITISH LORD WARNS AMERICA TO PREPARE CITES ENGLAND'S CASE

By Lord Northcliffe.
(Written for the United Press.)
(Copyright 1915 by the United Press.)
London, Jan. 5.—When some months ago I had the honor of communicating with at least 50,000,000 Americans through the United Press I plainly expressed the belief that we are in for a long, long war. Events have followed the lines indicated. I do not pose as a prophet but I know now something about the toughness of the Anglo-Saxon fibre as compared with the Prussians, and I know that each day that brings access to our strength, is weakening them.

PIMPY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Olive Tablets. Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a dark brown taste, a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 50c per box. All druggists. The Olive Tablet Company, Columbus, O.

ly dilates on the indemnities that Germany is going to get. Germany hopes in addition, to obtain the Belgian Congo.

She was under the impression that the wealth of France would pour into her lap within a few weeks after the outbreak of the war.

England wasn't expected to enter. Our pacifists, like yours, repeatedly informed the world that we did not raise our boys to be soldiers. England's entrance into the struggle was a great surprise to our government as it was to the Germans, for we had, with one or two exceptions, a pacifist administration.

Belgium Woke Them. But as soon as Germany entered Belgium, the common people as one man insisted on the defense of Belgium and its heroic king. The outbreak that followed in Germany was like the rage of a tiger balked of its prey. Germany convulsed itself by the thought that John Bull was an effete old plutocrat whose sons and daughters were given up to sport and amusements.

Our army was little larger than yours. The Kaiser in his famous Aix-la-chapelle address referred to it as "Sir John French's contemptible little army." Since then by voluntary enlistment we possess one of the world's largest armed forces.

Your position is not at all unlike ours before the war. You are as eaten up with commercialism and pacifism as we were. And, you are not in such a good position for fighting as we are, by reason of the lack of unity of races composing the United States. On the other hand, you offer the same temptation to any hungry, aggressive enemy that we did. Troops can be moved to your shores from hostile nations in little more time than it took to move bodies from New York to Boston 200 years ago. The fact that we have transported at least 1,000,000 across the sea shows that any European or Oriental nation could have been transported (as you are) ship them to you.

Personally I doubt that the United

GOVERNOR JOHNSON IS BITTERLY ATTACKED

Republicans See In Primary Law, Plan For Him to Grab Senatorship

Capitol, Sacramento, Cal., Jan. 5.—Assemblyman L. B. Cary, partisan leader, announced today that he will not call a caucus of opponents to the primary law amendment until late this afternoon at the close of the afternoon session.

A caucus, to plan an attack on the administration measure, was scheduled for this morning, but the main Los Angeles delegation of lawmakers did not arrive until noon.

"We don't know exactly what the bill as changed by Speaker Young, provides," said Cary, "and until we get copies of it will not map out our plans. We expect the bill to be introduced in the assembly this afternoon and read for the first time. Our plans may include amendments to the primary bill of a different nature, or an amendment to the non-partisan registration law even though the latter action appears

States will really prepare for war. There will be an immense amount of talk, as with us, and you will have people like our Late Lord Roberts preaching wisdom, but his views will be drowned in such melodies "I Didn't Raise My Boy to Be a Soldier," and so on.

One day the Laplanders or Greenlanders or some other nation (you can change the words as you choose) will notice that you are a rich pacifist and will come and take what they want.

How would you like for us to interfere when they had accomplished part of their task and you were not yet ready, and for us to cry "peace," when say, the Laplanders or Greenlanders were occupying Oregon and Washington states, and perhaps California, places as you know extremely accessible to the Laplanders.

This is how we feel about peace making before we are ready to impose terms we think necessary for the freedom of the world.

to be precluded by the governor's call."

Assemblyman Cary, George Beck of Alameda, and M. B. Browne of Tuloume county, who arrived early on the scene, are meeting later arrivals and appealing to them to stand by their guns. A number of assemblymen who voted for non-partisan measures at the last session were also interviewed but Cary admits that the governor seems to have his forces well lined up. Cary and his followers are giving vent to bitter attacks on Governor Johnson. "Using plain language," said Cary, "this latest move is only a clever step to enable the governor to grab off the republican nomination for United States senator. He feels that, with a non-partisan registration law in effect and the direct primary law changed so that a voter can go to the polls and procure any ballot he wishes, his followers will vote for him on the republican primary ballot and give him the nomination over any candidate the republican party may put up."

Officials Watch Huerta Fearing Sickness Is Ruse

El Paso, Texas, Jan. 5.—Agents of the department of justice resumed today their watch on General Huerta's house, suspecting that his illness is a ruse to offset the San Antonio grand jury's investigation of charges that he violated American neutrality. Previously they had let down the bars. A mysterious automobile load of Mexicans left the general's house last night and rushed to the station. For a time it was believed that Huerta had escaped with them.

Doctors said today the general is improved from yesterday's sinking spell but they expressed themselves as doubtful of his complete recovery.

Santa Clara Wrecked In Straits of Magellan

Santiago, Chile, Jan. 5.—The Atlantic and Pacific company's 6,310 ton liner Santa Clara, New York for Valparaiso, has been wrecked in a terrific storm in the Straits of Magellan. No details of the wreck have reached here.

New York, Jan. 5.—The Santa Clara, reported in Chilean cables as wrecked, was badly damaged but not lost, according to a cablegram today to her agents.

MET BAREFOOT BOY

(Capital Journal Special Service.)

Gervais, Or., Jan. 5.—One evening, not so very long ago, while walking on the Salem-Champoeg road, near Wacanda, I met Whittier's barefoot boy, older grown, well shod, his hat tilted backward, wearing a plaid sweater, a round face and pleasant smile. He seemed in harmony with the rustic scene, and was whistling "Coming Through the Rye." Turning at the Wacanda corner, I saw that little burg sunlit from the western sky, and I contrasted the difference between

the nearby past, and the present advance of civilization for not many years ago, not a home stood on the present site. The then dense and beautiful fir groves were lonely. Even the old dead tree, with its load of signboards had been mistaken for a ghost. How changed now, with the Oregon Electric light and powerhouse, warehouses, general merchandise store, blacksmith shop and numerous neat homes. A ridge and sunny slope, slid down to a tiny stream that encircled the town, giving it a varied, picturesque location. The bridge where always one would linger with romantic ecstasy and now, regret the fall of the two large

cottonwood trees, that once stood to the north, charming still to gaze into the shadowy depths of the shrubbery to the south, and I wondered why the spring hidden so near the bridge, was not made more public, so the thirsty pedestrian, and autoist, might drink of its refreshing waters, ere they passed by. On the western hill slope stands a beautiful new schoolhouse. It's students were crossing a footbridge, where children's feet never trod before. The Oregon Electric just unloaded its Salem high school pupils. The comingling of both, and others, and the farmers' daughters from near by, made a group of very bright, beautiful young ladies. I must say truly, few places of its size can boast of so many pretty young ladies. Literary entertainments at the school house, bring a new era of life to the neighborhood, and would also be an enjoyable electric ride for Salem people who could return on the eleven o'clock car. On account of its surroundings, I think Bonnie Glen or Sunny Brook school house, Wacanda, Oregon, would be an appropriate name for the school.

How to Fight Tuberculosis

In a paper read last year before the Texas County Medical Society and published in part in the Louisville "Medical Progress," Dr. J. W. Carhart, of San Antonio, Texas, a physician who has devoted much time to the study of tuberculosis, said: "Since time immemorial three-fourths of all the mineral substances of the human body, they must be supplied in the foods or supplemented in mineral preparations, or natural starvation causes with tuberculosis unchecked. The widespread and unchecked spread of tuberculosis and other preventable diseases is due largely to the deficiency (time lacking) conditions of multitudes throughout the civilized world."

Thus from another authoritative medical source comes justification for the use of time in the treatment of tuberculosis. Since this is one of the ingredients of Eckman's Alternative, much of the success attending the widespread use of this remedy doubtless is due to the combination of this salt in such a way as to render it easily assimilable. It causes no stomach disturbance, and since it contains neither opiates, narcotics nor habit-forming drugs, it is safe to try. Eckman's Alternative has effected remarkable results in numerous cases of pulmonary tuberculosis (consumption) and allied chronic affections of the throat and bronchial passages. In many instances such conditions, apparently, have yielded completely to it. In case your druggist is out of it, ask him to order, or send direct to us. Eckman Laboratory, Philadelphia
