

AN OLD-TIME NURSE CURED

Of Catarrh of the Stomach by Peruna

MRS. SELENA TANNER,
Athens, Ohio.

This Cure Dates From October 3, 1899.

- Oct. 3, 1899 —"Catarrh of the stomach. Was nearly starved. After taking Peruna I have a good appetite."
- Sept. 11, 1904 —"I can assure you that I am still a friend of Peruna. My health is still good."
- April 23, 1906 —"Yes, I am still a friend of Peruna. Will be as long as I live. I keep it in the house all the time."
- Dec. 18, 1907 —"I recommend Peruna so often that they call me the Peruna doctor. Peruna recommends itself when once tried."
- Dec. 27, 1908 —"I still tell everybody I can that Peruna is the best medicine in the world."
- Aug. 15, 1909 —"Peruna saved my life years ago. I still take it when I have a cold."
- Jan. 4, 1910 —"I was threatened with pneumonia. Peruna saved me."
- May 17, 1912 —"I am glad to do anything I can for Peruna."
- May 6, 1914 —"I have always been a nurse. Peruna has helped me in my work more than all other medicines."
- Mar. 22, 1915 —"I have divided my bottle of Peruna with people many times. It always helps."

The above quotations give a vague glimpse of the correspondence we have had with Mrs. Tanner since 1899. Our files, which cover twenty-five years, include many similar correspondents.

"Preparedness" Slated For Some Hard Sledding

(Continued from Page One.)
The president's preparedness program, and that he threatens to stomp the country prior to the national convention next June to arouse sentiment against the preparedness issue, and against a second term for Wilson. They said, however, that Bryan does not intend to bolt the convention if it supports Wilson, but that he hopes to prevent this support.

Preparedness hearings were begun today by the house naval committee and they promise to last for several months. Hearings on the army measures will begin in the house military committee tomorrow. Secretary Garrison is slated to be the first person examined by the members.
The administration is confident that two battleships and a number of auxiliary vessels will be authorized.
The need for more government docks where battleships and smaller vessels can be built was the general tenor of the testimony of Rear Admiral Stanford before the naval committee.

The Country Gentleman says: First thing after I bought my place I learned the good old comfy habit of carrying some "PIPER" around with me. While I'm knocking around out-of-doors there's something appropriate about biting off a delicious chew of "PIPER."

PIPER Heidsieck

Chewing Tobacco—Champagne Flavor

"PIPER" fits in mighty handy everywhere—farm—shop—office—sport. You just get the convenient habit of having some "PIPER" tucked away in your hip pocket and you'll get a sensation of 100% tobacco satisfaction.

Smack your lips over "PIPER's" famous and unique "Champagne Flavor"—all the bouquet of the ripest, richest, mellowest leaves of the best tobacco. You try "PIPER."

Sold by dealers everywhere, in 5c and 10c cuts—ready, follow-up, to preserve the "PIPER" flavor.

THE TOBACCO COMPANY OF CALIFORNIA
San Francisco, Cal.

FREE Send 10c and your tobacco dealer's name, and we'll send a full-size 10c cut of "PIPER" and a handsome leather pouch FREE, anywhere in U. S. Also a folder about "PIPER." The tobacco, pouch and mailing will cost you 20c, which we will gladly spend—because a trial will make you a steady user of "PIPER."

SARGENT PROPOSES CIVIL SERVICE FOR BANK EXAMINERS

Banking Business Is Good and Business Men Are Feeling Optimistic

In the part of his annual report issued today relating to banking laws, State Bank Superintendent S. G. Sargent states that the "Loan Shark Law" is still far from practicable and recommends that the regulation of loan offices be left to the municipalities. He further recommends that all state bank examiners be placed under the civil service regulations as he says that once a man becomes thoroughly acquainted with the duties of the position he is a valuable adjunct to the department and should not be turned out with a change in political administration.

Mr. Sargent says that the duties and responsibilities of the position of state bank examiner are many and heavy and that when a well qualified man is in the position he should be kept there as long as he is doing good work regardless of his politics.

"The banking business of the state in general is entirely satisfactory," says Mr. Sargent in his report, "and the feeling of confidence and the prospect of the new year is most encouraging. Business men generally are confident and even optimistic in their views of the future and I have every reason to believe the coming year will prove most satisfactory."

Six new state banks have been organized and established with a capital of \$15,000 and one bank increased its capital \$5,000 while four banks reduced their capital a total of \$30,000. The report states that a special commission is working out a Trust company act that will be presented to the next legislature and it is also hoped that some of the other banking laws will be improved.

Democrats Are Rare At Registration Booth

The registration books at the office of the county clerk have been open for three days but so far less than 40 voters have registered. The first two days was given over to the gopher bounty business mostly and voters did not care to stand in line until they could send in their name since there was plenty of time to register after all of the gopher scalps had been deemed. Of the 34 who had registered this forenoon, 27 were republicans and 5 admitted Democratic tendencies, while 2 were prohibitionists. Three of the voters were women, of whom two registered as republicans and one as a democrat. Claud C. Ashby, of Route 3, Salem, was the first man to register in this county under the new law and Mrs. Max Gehlar, the wife of the county clerk, was the first woman to register.

Marion Poultry Show Will Be Best Ever Seen Here

The eighth annual exhibition of the Marion County Poultry association promises to be the best poultry show in every respect that has ever been held in the county, according to the secretary, Walter H. Smith. Entries are now being made by many of the bird fanciers in the surrounding counties. Among the exhibitors well known in this part of the state who will show their birds are Kerr Brothers of Sheridan, who have entered a pen of brown and a pen of white Leghorns, and J. D. Drake of Silverton, who has entered a pen of Sicilian Buttercups. Walter Downing of this city will show two pens of white Wyandottes and four entries were received yesterday from Eugene fanciers.

An entrance fee has been charged at all shows heretofore held by the association, but through the assistance of the Commercial club, and the giving of a building free of rent by S. M. Endicott, the association announces that no admittance fee will be charged this year.

The exhibition will be held on Commercial street, opposite the Marion hotel. Entries will close Friday. The first day of the show is next Tuesday, January 11, closing Friday evening, January 14.

Civic Department Is Getting Down to Business

The formation of an automobile association, municipal bathing beach and the improvement of the Fair Grounds road occupied the attention of the executive committee of the Civic department of the Commercial club at their meeting held last evening.

In order that these important subjects may be fully discussed a meeting will be held at the auditorium of the Commercial club on the evening of January 25, in which the members of the Civic department and the public in general will express opinions.

The committee was of the opinion that an automobile club should be formed to include Salem and owners of cars in the vicinity of the city and that through such a club, much could be done towards regulating road traffic and the maintenance of good roads.

Several months ago a committee was appointed by the Civics department, consisting of R. A. Harris, Rev. E. N. Avison and Henry B. Thielsen to investigate the Mount Crest mausoleum. This committee reported last night, their report stating that the mausoleum was a permanent and ornamental structure, evidencing commendable enterprise and progress as an improved and sanitary place for interment, and commending it to the favorable consideration of those interested.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-made tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

WAR NEWS OF ONE YEAR AGO TODAY

Italy issued an order to 3,433, 150 men between 20 and 40, to be ready for a mobilization order. The Germans reached the Sucha river in Poland. Kitchenier told the house of lords that two million more recruits would win the war. The overwhelming Turkish defeat was expected to forestall any invasion of Egypt by the Teutonic allies.

Old Fire Horse Sold to Farmer For \$35

"Old Sam" who became a member of the Salem fire department December 2, 1904, will no longer plunge out of his stall and trot under the suspended harness when the fire alarm is turned in but will follow the low pursuits of the "back to the farm" movement. Sam was coming five years old when he entered the Salem fire department and for two years pulled the hose wagon to some of Salem's most spectacular blazes. He was then transferred to the big engine and hauled this apparatus to fires until the coming of the auto engines when he was transferred to his street department.

Years of planting his galloping hoofs on the pavements, however, proved too much for Sam's feet and also the common ailment of rheumatism which attacks man and beast alike in this country, stiffened up Sam's shoulders and finally he was unable to hold a job on even the street department.

Sam will be 16 years old next spring and has several years of good service in him if he can find soft ground to put his feet on, and will doubtless adapt himself to his rural environment. An effort was made to sell him last year but some members of the council were opposed to selling an old fire horse who had become worn out in the service of the city but at the last meeting of the city council it was decided to sell "Old Sam" to a farmer for \$35.

Gus Anderson Is First Punished Under Dry Law

Portland, Or., Jan. 5.—Gus Anderson is serving a three months sentence in the county jail today, the first victim of Oregon's new prohibition law.

Anderson's case was the quickest administration of justice on record in the county. Arrested in a raid at 11:00 o'clock Monday night, he was indicted at noon Tuesday. Somewhat giddy from the quick action he pleaded guilty later in the afternoon and began his sentence. The confiscated liquor was poured into the courtyard gutter while a big crowd gathered to watch the ceremony.

Journal Will Publish the Professor's Lecture

Lime will sweeten the soil and will help a plant, but has no value as a fertilizer, according to Prof. Florian Von Eschen in his address last evening before the Six O'clock club of the Commercial club. If farmers would plow under a crop of clover or vetch or beans, the value to the soil would be greater than the value of the crop. In answer to the question as to whether the Willamette valley was adapted to the growing of alfalfa, he stated that this valley was all right, but that the land must be well drained. In other words, alfalfa would not stand wet feet.

GASOLINE GOES UP

Portland, Or., Jan. 5.—On the heels of the demand in congress yesterday for an investigation into the soaring price of gasoline, the Standard Oil company today announced another increase of one cent a gallon. This makes the retail price 16 1/2 cents.

Don't Forget the Fire Sale Bargains

THE TOGGERY 167 COMMERCIAL ST.

STATE LACKS ONLY \$1,527,560.79 OF BEING BANKRUPT

According to the annual report of State Treasurer Thomas Kay, the state had \$1,527,560.79 in cash on hand December 31 which is considered a tidy sum in these days. Of this sum \$1,107,410.95 is in the general fund and the remainder of the amount is distributed through the other various funds of the state.

The cash on hand, however, is not the only resource of the state as the bond investments and school fund loans show. The following is a statement of the investments in the several trust funds for the period ending December 31:

- Common school fund principal, \$6,387,938.79.
- Agricultural college fund principal, \$202,663.89.
- University fund principal, \$103,635.95.
- A. R. Burbank trust fund principal, \$24,481.30.
- Segregated accident fund, \$278,271.48.
- Industrial accident fund, \$214,763.88.

Second master at arms—H. A. Lundeen.
Sentry—F. J. A. Boehringer.
Picket—J. O. Leeper.
Trustee—Dr. J. G. Van Winkle.

Says Every Woman Should Take Exercise

Audrey Munson, the famous artist's model, who is featured in "Inspiration," a five-part Mutual Masterpiece, and who is known everywhere as the "American Venus," says that every woman, young and old, can obtain a perfect figure by following a few simple forms of exercise.

"Every woman," Miss Munson recently declared, "should exercise twice each day—once on rising in the morning and again before retiring. Exercise means health and with perfect health any woman can achieve a good figure. There are any number of exercises that can be followed—but one must keep at it, make it just as much of the day's routine as dressing, eating and sleeping to benefit by it."

Miss Munson will be seen at Ye Liberty, Thursday, Friday and Saturday.

once noted in no unmistakable terms throughout the upper corridor.

The county commissioners, Goulet and Beckwith, assisted in the ceremonies with County Clerk Gehlar and Representative Thomas Brown who nurtured the gopher and mole scalp law through the last legislature. Over half of the available fund for gopher bounties this year has already been exhausted and it is likely that the appropriation will be raised to one and one-half mills if the supply of field pests keeps up or until they are killed out.

A marriage license was issued today to Camille J. Stappell, of Mazomania, Wisconsin, a farmer, and Miss Catherine Kemmerick, of Mt. Angel. The marriage will take place January 18.

The county court met today to consider a number of special matters in addition to the regular routine business that comes up during the first few days of the session of the county court. It is not expected that any bridge matters will be disposed of until the last of the week as both the county courts of Polk and Marion county will be busy with county business until that time.

The jury in the Stool damage suit visited the scene of the accident at Turner yesterday evening and the taking of testimony began this morning in department No. 1 of the circuit court.

COURT HOUSE NEWS

Every lady stenographer about the county clerk's office today was glad to see the gopher go when 32,000 gopher and mole scalps were piled up in front of the furnace and cremated while the movie man turned his crank and clicked off several rods of film with Cal Morgan in the steller role armed with a scoop shovel. The gopher and mole scalps have been collected in the last two days and they not only filled every available basket and box in the clerk's office but also they made their presence

The case promises to be long drawn out as neither side is taking any chances upon overlooking a point and the case will probably not be settled before the end of the week. The jury members selected to try the case are W. Y. Richardson, Perry Moser, M. L. Kaplinger, O. L. Hattberg, Bruce Fox, S. A. Yerge, Sherman Richards, J. G. Flake, O. L. McPeck, G. E. Berringer, N. H. Doty and H. K. Gauthron.

A marriage license was issued today at the office of the county clerk to Louis P. Weiss, a Salem farmer, and Miss Marnie L. Korb, also of this city.

"I Feel Like a Real Day's Work"

Most men do who have good digestion, steady nerves and a clear brain. Right living—particularly right eating—makes for energy and ambition.

The sound nourishment that gives "punch" to wade right into work, is richly supplied by the field grains. But some grain foods are lacking in certain mineral elements which are all-important for physical and mental vigor.

Grape-Nuts

FOOD

—made of selected whole wheat and malted barley, furnishes one all the nutriment of the grain, including their vital mineral salts—phosphate of potash, etc.—necessary for the balanced rebuilding of body, brain and nerves.

Grape-Nuts is easily digested; has a delicious nut-like flavour; is ready to eat direct from package; and with cream or good milk is a splendidly balanced food.

"There's a Reason" for GRAPE-NUTS
