

A New Remedy for Kidney, Bladder & all Uric Acid Troubles

Dear Reader: I appeal to those of you who are bothered with kidney and bladder trouble, that you give up the use of harsh salts or alcoholic medicines and in their place take a short treatment of "Anurie."

to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica, or you suspect kidney or bladder trouble just write Dr. Pierce at his Surgical Institute, Buffalo, N. Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemists have examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy, "Anurie," which is found to be thirty-seven times more powerful than lithia in removing uric acid from the system.

Note:—Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished medical authorities—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is

OREGON MUST HAVE UP-TO-DATE WEIGHING METHODS SAYS SEALER

Fred G. Buchtel Lists Specifications for Weighing Apparatus

To prevent Oregon from becoming the dumping ground for inferior weighing apparatus, protect the public against inaccurate measures, and enable the merchants to procure properly constructed equipment, Deputy State Sealer Fred G. Buchtel has promulgated specifications for the state which puts Oregon on an equality with the most progressive weights and measures states in the union. They became operative January 6.

This result is accomplished without unwarranted expense to the business public by making only those specifications retroactive which apply to equipment in use, or held for sale where the public's welfare absolutely demands it.

"This method of placing the specifications in effect will prevent the condemnation at this time of such apparatus as is reasonably satisfactory, and yet will eliminate immediately, inaccurate and improperly constructed equipment, the use of which would be detrimental to the public's interest," said Deputy State Sealer Buchtel in announcing the specifications.

"Probably the most important to the people generally are the specifications that govern the manufacture and use of computing scales. Computing scales must be correct both in weight and value indications, and the charts must not repeat the same value in any given column or row. These specifications will eliminate a considerable number of computing scales that give the user his choice of two or three values for the same weight. As such equipment is detrimental to the public welfare, these particular specifications have been made retroactive. In common with other scales the computing type must also be so constructed that their zero adjustment cannot be changed without the use of a tool.

"With the view of protecting the merchant against scales of inferior quality and construction, numerous specifications have been prescribed. Possibly the most important is the one providing that 'all scales shall be of such construction that they are reasonably permanent in their adjustment, and will repeat their weight indications correctly, and are not designed to, or may not be used to facilitate the perpetration of fraud.' This sounds like the death knell of the family scale for commercial purposes. For platforms, counter-platforms, counter balances, counter scales, and other scales having been treated in classes by themselves."

Many Vehicle Drivers Race To Crossings

Five hundred and twenty-five vehicle drivers on the Pacific Coast did their best to break into a railroad crossing accident in the two years ended June 30, 1915, despite the fact that gates were down and warning bells ringing. This is shown in a report of the Southern Pacific Company which reveals that during the period mentioned five hundred and twenty-five crossing gates were broken by drivers who risked life and limb for speed and carelessness. The gamble taken by the drivers is obvious. To be broken the gates had to be down and the gates are down only when trains are approaching. The railroad company spends over \$100,000 annually to operate and maintain crossing gates but feel that the active cooperation of motorists and other vehicle drivers is imperative if crossing accidents are to be minimized.

Robbers steal stamps. St. Paul, Minn., Jan. 7.—Internal revenue stamps valued at \$1,000,000 and currency worth upwards of \$4,000 are missing today as the result of an automobile robbery here last night, their loot obtained by blowing a safe, weighed more than 300 pounds. The stamps were of the internal revenue documentary kind, used on deeds, mortgages and the like and ranged in value from half cent to \$500. They were unnumbered and hence could be easily sold.

Bank official accused. Kalama, Wash., Jan. 7.—Accuser in connection with \$40,000 shortage in the bank's accounts, J. P. Atkin, founder, president, cashier and heavy stock holder in the Cowlick County bank, is at liberty on \$5,000 bond today. He is under the care of a physician. Officers believe an investigation of the bank's affairs will disclose "high finance" methods.

GET IT FIRST—NOT LAST

When a cold grips your system it is convincing proof that your condition is weakened—remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold—the one so often relied on when others fail, is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate strength to thwart further sickness.

Get Scott's first, not last—and insist on the genuine—always free from alcohol and injurious drugs.

Scott & Bowne, Bloomfield, N. J. 15-33

Famous "Inspiration" Picture Approved by Salem Critics

Although Miss Munson appears in the role, no offense can be taken on account of the extreme artistic and educational value of this masterpiece.

Miss Munson is widely known as the "Panama-Pacific girl," because she posed for many of the pieces of statuary at the Panama-Pacific exposition, notable among them "The Fountain of Eldorado," by Mrs. Harry Payne Whitney, wife of the New York multi-millionaire, as well as for the statue called "Evangeline," by Daniel Chester French, which has been placed before the home of the immortal Longfellow, at Cambridge, Mass.

Miss Munson was also the inspiration for the figure of liberty adorning the Maine monument, at the entrance to Central Park, in New York City and numerous other statues and paintings in various museums and public places in many of the large cities. The story, much of the locale of which is laid in New York, deals with Miss Munson's arrival in the metropolis, her inability to find work, during which she all but starved to death and finally an accident—a fortunate one in this instance—which resulted in her securing her first step on the ladder that later brought her international fame.

Throughout the five reels is woven a heart stirring love story which finally results in her marriage to the young genius of the studios who first "discovered" her.

"Inspiration" will be shown at the Liberty theatre today and Saturday.

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition because of over-work, lack of exercise, improper eating and living demands stimulation, to satisfy the cry for a health-giving appetite and to refresh sleep essential to strength. GOLD MEDAL Hairline Oil Capsules, the National Remedy of Holland, will do the work. They are wonderful! Three of these capsules each day will put a man on his feet before he knows it; whether his trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that befall the over-zealous American. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. 25c, 50c and \$1.00 per box. Accept no substitutes. Look for the name GOLD MEDAL on every box. They are the pure, original, imported Haarlem Oil Capsules.

EXPRESS MATTER BURNS

Cincinnati, Ohio, Jan. 7.—Fourteen carloads of express matter valued at \$150,000 were destroyed when fire leveled the Adams Express company general offices and warehouse today, according to the company's report. Earlier reports that a large sum of money was destroyed were declared unfounded, for the company said, the fire did not penetrate the vaults where \$1,000,000 brought from New York was stored. The building loss was an additional \$70,000.

San Francisco reports a disastrous windstorm and Puget sound cities an alarming earthquake, while Portland reports reasonable weather and a solid underpinning. Perhaps your tourist friends back east would be interested in the facts.

ENROLLMENT OF THE PUBLIC SCHOOLS GROWS

Almost Three Thousand Pupils Are In Attendance, Says Monthly Report

For the month ending December 24, 1915, the number of pupils registered in the Salem schools was 2993, a gain of 24 over the enrollment of November according to the monthly report of Superintendent O. M. Elliott.

With the Christmas spirit in the air the parents seem to have taken a more lively interest in the schools as the report shows that 381 parents visited the school compared to 188 visits for the month of November.

If the boys in the city could manage to bring in a few of their friends and enroll them, the attendance of boys and girls would be evenly divided. In years past, the girls were always in a great majority, especially in the upper grades. Now, that parents realize that a boy must have at least the foundation of a fair education, in business as well as any profession, the boys are staying in school. Between the ages of 12 and 14, the report shows an enrollment of 270 boys and 268 girls. In the highest grades, ages between 14 and 20, the boys enroll 488 and the girls 509.

There are no scholars under the age of six years, and just 29 over the age of 20. Of the 29 over the age of 20, the boys number 20, and the girls 9. During November, 1850 pupils were neither late nor absent, but with the excitement of the holiday season on, it was just a little more difficult to arrive on time, and the record of those who were perfect in their attendance dropped to 1611.

Governor Withycombe Travels 20,333 Miles In First Year In Office

Governor Withycombe's first year in office is ended January 11, and an examination of his engagement book for 1915 discloses the fact that he has covered 20,333 miles, or about 54 miles per day.

The railroad mileage for the year totals 17,287, and all of this, with the exception of approximately 2,500 miles involved in trips to San Francisco and Seattle, has been within the boundaries of Oregon. By boat he has covered 851 miles, this being exclusively on the Columbia and Snake rivers. Automobiles are credited with 1,285 miles; while he estimates that since the purchase of his pure bred American saddle mare, "Loretta," in April, he has traveled on her approximately 1,080 miles, this being reckoned on an average basis of 30 miles per week.

Of course as matters stand much of the cost of the transportation utilized by the governor comes out of his own pocket, for his office has available an appropriation of only \$500 a year for traveling expenses. The result is that any executive who really gets around the state has to foot the excess bill himself.

The 1915 trips have included two journeys to San Francisco, one as a "private citizen" for the Benson day exercises, and one in an official capacity; a voyage from Lewiston, Idaho, to the sea, when the Cello canal was opened; an automobile journey through central Oregon and back to Medford, via Crater lake; a journey to Baker to welcome the Liberty bell; a score of meetings with governors and other notable travelers en route to the San Francisco exposition; trips over the Columbia river highway from Portland to The Dalles, and from Portland to Astoria; and scores of other engagements ranging from county fairs to official and semi-official meetings of every character.

KIDNEY DISORDERS QUICKLY RELIEVED

Leading druggists everywhere are establishing new records in the sale of medicine. Believing that no medicine ought to be paid for unless it does the user some good they have adopted the plan of selling Solvax, the standard kidney remedy, under a positive guarantee of quick relief from all kidney or bladder misery, or money back without a question. This speaks eloquently for the virtues of the remedy and already has created a wide-spread demand for it here in Salem. Hundreds of people in every walk of life have been relieved of the agonies attendant on weak, disarranged or clogged-up kidneys and bladder by this remarkable remedy. It is not just merely a kidney treatment, it is a medicine that aims to put the entire, pampered body into normal condition and give vigorous health after the many painful disorders caused directly or indirectly by sick kidneys. A change for the better will be seen after the first few doses of Solvax and its continued use should tone up the entire system of improperly working organs and give the desire to live and enjoy life to its fullest.

Solvax is considered by many the best kidney remedy on the market today because it aims to cure by striking directly at the cause of all the trouble. The many pains and aches caused by improperly working kidneys cannot be permanently cured unless the cause is removed. Solvax is sold under a positive guarantee to refund the money if it does not cure. This is the strongest proof that can be offered as to the merit of the medicine. You are cheating yourself out of your slice of life if you do not give Solvax a chance. Get it today from Daniel J. Fry or any leading druggist in this vicinity.

SPRING VALLEY NEWS

(Capital Journal Special Service.) Spring Valley, Or., Jan. 7.—Miss Merviel McKinlay returned Saturday to Portland, to resume her studies at Washington High School. Harvey Crawford was at Dallas, Friday on business. Sheriff John Orr was in the neighborhood last week serving summons to the jurors drawn for the term of court convening January 10th. The parent-teachers association will meet Friday evening at the school house. There will be a short program and an old-fashioned spelling bee. D. S. Cornelius returned Friday to his home in Astoria, after a week's visit with the Taylor family. Wilfred and Harold Jenkins have returned to Eugene, after spending their vacation here with friends. Jesse French, a former resident of Spring Valley, but now living at Lexington, is the guest of his brother, James French, and friends. Harvey Crawford was a business caller at McCoy, Wednesday. Donnel Crawford returned Sunday from a trip to Portland. Otis Clanton, who has been employed this winter on S. H. Barker's farm, left this week for his former
