WHAT OUR NEIGHBORS IN CALIFORNIA SAY.

Passadena, Cal.—"I want to extend to you my heartfelt thanks for the benefits derived from the use of your medicines, also for the kind and good advice obtained. I am a proud mother."

"I had been a great sufferer; three times I was given up to die—the last time being four months ago. I doctored with several doctors but obtained no relief. Was told that an operation would effect a cure, so I submitted to one, but this proved like all the medicines I had taken—not beneficial. I obtained relief at once taking 'Favorite Prescription.'"

"Four months ago the doctors and nurse said it would be a year or more before I would be able to do my housework, and, of course, I thought so myself as I was not able to walk across the floor for several weeks. I am now able to do my housework and to care for my children and I do not feel as though I could ever thank you enough for the benefits I have received."

—MRS. MABELLE KIPP, 184 South Pasadena Ave.

LIVESTOCK PRICES HIGHER

Portland, Or., Jan. 11.—There was a big run of stock at the yards yesterday; a strong market with plenty of competition between local and Puget Sound packers, and a better exhibition of quality than the yards has seen for some time past. The net result was a material advance in both cattle and hogs. Sheep were also firm.

The feature of the day in the cattle division was the sale of two loads of grain-fed 2-year-old steers at \$7.90, an advance of 15 cents over the best previous price. These steers were shipped in from Terrabonnie. Pulp-fed steers brought \$7.75 to \$7.85. Cows were up a quarter at \$6.25 for the best grade, and other butcher cattle were correspondingly strong.

The bulk of the hogs were also of finer quality than for some time. There was an advance of a nickel in the market, the top going to \$6.90.

Lambs were firm at 8.25 and good ewes sold at \$6 to \$6.30.

Receipts were 1348 cattle, 6 calves, 6780 hogs and 1348 sheep.

Quickest, Surest Cough Remedy is Home-Made

Easily Prepared in a Few Minutes. Cheap but Unequaled

Some people are constantly annoyed from one year's end to the other with a persistent bronchial cough, which is wholly unnecessary. Here is a home-made remedy that gets right at the cause and will make you wonder what became of it. Get 2 1/2 ounces Pinex (50 cents worth) from any druggist, pour into a pint bottle and fill the bottle with plain granulated sugar syrup. Start taking it at once. Gradually but surely you will notice the pinex thin out and then disappear altogether, thus ending a cough that you never thought would end. It also loosens the dry, hoarse or tight cough and heals the inflammation in a painful cough with remarkable rapidity. Ordinary coughs are conquered by it in 24 hours or less. Nothing better for bronchitis, winter coughs and bronchial asthma.

This Pinex and Sugar Syrup mixture makes a full pint—enough to last a family a long time—at a cost of only 94 cents. Keeps perfectly and tastes pleasant. Easily prepared. Full directions with Pinex.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in guaiacol, and is famous throughout the world for its ease, certainty and promptness in overcoming bad coughs, chest and throat colds.

Get the genuine. Ask your druggist for "2 1/2 ounces Pinex," and do not accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

SALEM DRUGGISTS SHY AT AFFIDAVITS FOR SELLING ALCOHOL

One Druggist Considers Them Not Only Unnecessary But a Hindrance

The fact that only one out of Salem's eleven drug stores has secured a set of affidavit blanks to sell alcohol indicates that local druggists shy at the mass of red tape that encumbers the working of the 1916 Prohibition law. One of the most prominent druggists in Salem explained this morning that affidavits were not necessary to their business and in fact were useless according to his way of looking at the law.

He said that denatured alcohol could be sold freely and that there were numerous methods prescribed by law for denaturing alcohol, that is, rendering it unfit for drinking as a beverage.

The druggist went on to say that he did not need affidavit blanks because he sold only denatured alcohol, and if the customer desired the alcohol for external use only that the customer did not object to the alcohol being rendered unfit for drinking purposes. This operated as a check also, because if the customer objected to the alcohol being denatured it indicated that the customer did not want it solely for external use, but for drinking purposes and the druggist would therefore refuse to sell it.

Alcohol is in greatest demand for liniments, hair tonics and in prescriptions. For liniments alcohol can be denatured by adding camphor or carbolic acid which in reality added to its value as a liniment but rendered it unfit for drinking.

In prescriptions the druggist stated that alcohol became a compound and the other ingredients put in made it a medicine and excessive drinking would have other effects than rendering the drinker blissfully intoxicated.

"Now, for example," said the druggist, "suppose a man secures a prescription and comes here to buy a pint of grain alcohol. We find his prescription to be all right and we sell him the alcohol upon his affidavit that it is to be used for medical purposes. He then goes to a bootlegger and secures a supply of whiskey, mixes the two and gets drunk. If he is arrested the police begin to wonder where he got the booze. Our affidavit on file shows them in a minute and they have only to present it to a jury to secure a conviction and our fine is already up in the shape of a bond."

"If we have no affidavit blanks we are unable to sell grain alcohol even on a doctor's prescription and can sell only denatured alcohol and it relieves us of a lot of responsibility since we can refuse to sell grain alcohol under any circumstances except when it has been denatured. All of this can be done without securing any affidavit blanks or depositing any bond, so what's the use?"

Out of 23 drug stores in Marion county, eight have secured affidavit blanks, two in Silverton, and one each in Salem, Aurora, Mill City, Hubbard, Mt. Angel and Woodburn.

The fact that these drug stores have secured the blanks does not in any way indicate that they intend to make a business of selling grain alcohol but the foregoing simply explains why, in one man's opinion, Salem druggists have not secured more affidavit blanks.

MRS. MOHR REFUSES TO VISIT MURDER SCENE

Providence, R. I., Jan. 11.—Willa Mrs. C. Franklin Mohr, accused with two negroes of murdering her husband, Dr. Mohr, remained behind, deputies, counsel and jurors today made a trip to the lonely spot on the Naytt-Newport road where Mohr was shot last summer, while autoing with a former employe.

Attorney Rice planned to make the opening statement for the state this afternoon. His main argument was to be that the negroes, Cecil V. Brown and Henry Spelman had confessed to aiding in the killing plot at Mrs. Mohr's behest. Attorney Lewis, negro counsel for the defense, however, will maintain that the confessions were wrung from his clients under police sweating.

George Healis, negro chauffeur of the death car, will be the state's star witness.
