DOCUMENTS ON VON PAPAN TELL OF PAYMENTS MADE

Statement Issued From London Denied by Seattle German Consul

London, Jan. 14.—Documents taken from the recalled German attaché Von Papan of the Washington embassy recently at Falmouth showed that he paid \$1800 to the German consulate at Seattle for Werner Horn, who attempted to dynamite the Vanceboro, Maine, international bridge last spring according to the foreign office today. This payment was made a fortnight before Horn made his attempt.

The foreign office said this was the last installment sent to Horn, while other portions of the documents show that German Ambassador Von Bernstorff gave Von Papan several checks. One of these was for \$2,000 on the Riggs Bank of Washington, the day before Horn was paid a \$700 installment. The documents have been set to Washington to aid the state department in investigation of anti-ally conspiracies in America.

Horn was a former German army officer. He is under indictment on a charge of illegally transporting explosives.

Officials took him into custody on American soil after the attempt was made last February to blast the Vanceboro bridge over which great trains pass daily between Canada and the United States.

The records showed that the Bernstorff payments were charged against the war intelligence office. To payments to Von Papan totaled \$6400, and the latter paid out \$5000.

Consul Knows Nothing.

Seattle, Wash., Jan. 14.—German Consul Zoepffel, of Seattle, declared today, when his attention was called to the London statement that Attaché Von Papan had paid the German consulate at Seattle \$1800 for Werner Horn, the alleged attempted dynamiter, that he had never had any personal correspondence with Von Papan.

"I know nothing of any such business," he said, "and have never heard anything mentioned regarding it since I took office here last June."

"I consider it incredible—absolutely inconceivable."

Colonel Roosevelt Is In Favor of Force

Washington, Jan. 14.—Colonel Roosevelt's advocacy of sending General Leonard Wood with troops into Mexico met with conflicting comment today from members of congress. Here are some of the views:

Senator Jones of Washington: "In the name of humanity, we must take the step Roosevelt advocates."

Representative McKellar of Tennessee: "It is fortunate that Roosevelt is not in authority."

Representative Hensley of Missouri: "If Roosevelt wants to go to Mexico, I'm in favor of giving him his passports."

Representative Anthony of Kansas: "It's the right thing to do, and I wish President Wilson would choose Roosevelt to lead the expedition."

Senator Gallinger of New Hampshire: "It's just what I would do if I were president. At least, Roosevelt proposes something."

"There is much more justification for intervention in Mexico than there was in Cuba," said Roosevelt. "We should send in the regular army, and General Wood is the man to do the job."

At the same time, the colonel took a fling at the president's foreign policy in general.

Sharp Advance In Wall Street Today

(Copyright 1916 by the New York Evening Post.)

New York, Jan. 14.—It was inevitable after the severe decline in the stock market up to Wednesday that by stopping short contracts on the part of traders satisfied with their profits, that there would be a sharp rise unless some event justified a renewal of the decline. Only some development of first importance in the financial world could have stimulated the market into fresh activity and a new break in prices. No such development occurred, and the Mexican news were not regarded as of large financial importance, so the market has become a thing governed by the covering of a large speculative short account.

There were a number of sharp advances today, principally among stocks which had gained a reputation from their proneness to wild fluctuations. But this did not reflect the large influences at work in shaping the country's outlook; and it mostly reflected hasty buying back of stocks on the part of the bears.

ASKS FOR INSTRUCTIONS.

Washington, Jan. 14.—Charge d'Affaires Zwielschok of the Austrian embassy today wired to Vienna "for instructions" regarding his procedure on this government's course in allowing the Italian liner Verdi to leave New York carrying two 3 inch guns. It is expected Austrian representations will be made against this action, which is the only unsettled portion of the Austro-American submarine warfare negotiations.

POULTRY SHOW WILL CLOSE THIS EVENING

Exhibition Has Proven Very Successful and Satisfactory

The eighth annual exhibit of the Marion county poultry show will close this evening, not in a blaze of glory, like an exposition, but in a general feeling of satisfaction among poultrymen and a feeling that awards were justly made.

For those exhibiting their prize birds, this exhibit has been more than satisfactory, as orders have been general, and there has been no disposition to hold back orders until prizes have been awarded. In fact, among those in the poultry business, business has been good.

The Dryden hen, or what may hereafter be called the Oregon breed, attracted a large share of the attention of poultry dealers and fanciers. The Dryden hen has made a record as an egg producer and is the result of breeding, by Professor Dryden, of the O. A. C.

C. W. Wilcox, who is in charge of the poultry farm of the Oregon state hospital which is used at the state hospital poultry farm, was loaned through the interest of Dr. R. E. Lee Steiner, and those in charge feel indebted not only to Dr. Steiner, but to the city authorities for permission to place the colony house on the side walk.

The officers of the Marion county poultry show are under obligations to the owners of the building and to Claud Johnson for the free use of his office, also to the Ladd and Bosa bank and the Capital National bank for the silver cup awards. The management feel indebted to the commercial club for its aid, by which it was enabled to give the show without charging an admission.

Others helping and doing their share towards making the exhibit a success are the Portland Railway, Light and Power company, for lights; D. A. White and Sons, and Fletcher and Byrd for assistance in various ways, and so Judge Keeney, of Eugene, for his impartial manner of judging and for the time he has devoted to the work here.

AMBASSADOR RESIGNS.

Washington, Jan. 14.—Chilean Ambassador Suarez has resigned, the embassy announced today, assigning "personal reasons," as the cause. Suarez took a prominent part in the A. B. C. negotiations at Niagara Falls in 1914, when efforts were made to settle Mexican troubles through mediation.

MOVING PICTURES OF LETTER WRITERS

Parade Is Planned For Friday of Letter-Writing Week In Salem

A Pathe moving picture will be made of the Cherrians and school children and the business firms of the city when they mail their letters to their eastern friends, telling of Oregon wonders. This moving picture will be made at 11:30 next Friday morning in front of the office of the Portland Railway, Light & Power company office, corner of Commercial and State streets. Arrangements will be made made for receiving the letters.

President Hamilton received a wire this morning from the Pathe company in Portland, announcing they would be on hand with their camera to record the great letter mailing event, weather permitting.

With the Pathe company showing views in Salem, millions of people within a week or two will view the scene, and Salem at least will be on the map.

Next Monday a stenographer will have her office in the show windows of the Portland Railway, Light & Power company and begin writing for the citizens of Salem, the hundreds of letters that are to be forwarded east. This was done to especially accommodate those who have not the time or inclination to write. The charge is nominal.

For those who would like to seal their letters with beautiful scenic views of Oregon, the Columbia Highway poster stamps may be secured of the stenographer at a cost of one-half cent each. The poster stamps are of large size, in colors, and tell more of the highway than can be described in a page of writing.

DIFFICULTY IN SOLVING MANY LIKE THIS IN SALEM

Similar Cases Being Published In Each Issue.

The following case is but one of many occurring daily in Salem. It is an easy matter to verify. You cannot ask for better proof.

F. A. Sutton, tent and awning dealer, Salem, says: "I had kidney trouble for ten years and sometimes I was laid up. Doctors did not help me. Sharp pains extended through my back and were most severe in my kidneys. Often when working I had to give up. I lost weight and was in very poor health. I had headaches, rested but little at night and didn't know what to do. On a friend's advice, I tried Doan's Kidney Pills and to my surprise they brought great improvement in a few days. I continued to get better steadily. I got more sleep, my appetite improved, and the pains gradually, but surely, left me. After I had used three boxes of Doan's Kidney Pills, I was in better health than I had been for ten years and not a sign of kidney complaint remained." (Statement given Jan. 31, 1906.)

Over Six Years Later, Mr. Sutton added: "I confirm my former endorsement of Doan's Kidney Pills. They effected a permanent cure in my case." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sutton has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

INTERNED SAILORS ARE UNDER ARREST

Escaped From Kronprinz Wilhelm But Taken by Federal Officials

Wilmington, Del., Jan. 14.—Four sailors, who escaped recently from the interned German raider, Kronprinz Wilhelm and Prinz Eitel Friedrich at Norfolk, were arrested here today. Two were working on a government dredge at Fort Dupont and the others at the Bancroft cloth mills near the Hagley yard of the Dupont Powder company where there have been several explosions recently.

The four were taken to Gloucester, N. J., for a hearing before a United States commissioner on charges that they are aliens who have violated their paroles.

According to officials, a majority of the dredge crew answered descriptions of the sailors, missing from the interned ships, while another sailor from the Kronprinz was reported working in the mills, and a number of others, at Coney's Point. The authorities are planning to investigate these reports.

CHANCELLOR SAYS KAISER IS BETTER

Official Advises That Illness Is Not As Serious As Was Reported

New York, Jan. 14.—Kaiser Wilhelm of Germany, is not near death, as various newspaper reports have claimed. He receives guests daily, and soon will resume his usual activities. This word came today from Chancellor Von Bethmann-Hollweg, to the United Press in response to a request for authoritative information as to the emperor's condition. Coming as it does, directly after an official denial through United Press Correspondent Ackerman that the Kaiser's illness is serious, it was taken here as indicating there is no foundation for recent alarming reports.

The message from Hollweg follows: (Copyright 1916, by the United Press.)

"The United Press: 'Berlin, by wireless to Sayville, L. I., Jan. 14.—His Majesty receives guests every evening. He received in audience his ministers of state and officers of high rank for daily conferences. The Kaiser walks in the palace gardens when weather permits. He had never been confined to his bed and will very shortly resume his customary activities.' (Signed) 'Von Bethmann-Hollweg.'"

all prepaid way bills and records pertaining to the delivery and forwarding of shipments by express companies must be printed. This is in accordance with the ruling of the Inter-State Commerce commission. But right here is where the war in Europe changes a few things. The beautiful deep orange color is made from German dyes, and as everyone knows, German dyes are not coming to this country just at present. Hence, the express bills within the next week or two will be those dyed from dyes made in this country and they are more or a light lemon color.
