

Everybody Admires a Beautiful Complexion.

DR. T. FELIX GOURAUD'S
Oriental Cream
OR MAGICAL BEAUTIFIER
An Indispensable and Delightful Toilet Requisite for Fashionable Women.

A daily necessity for the ladies' toilet whether at home or while traveling. It protects the skin from injurious effects of the elements, gives a wonderfully effective beauty to the complexion. It is a perfect non-greasy Toilet Cream and positively will not cause or encourage the growth of hair which all ladies should guard against when selecting a toilet preparation. When dancing, bowling or other exertions heat the skin, it prevents a greasy appearance.

Gouraud's Oriental Cream has been highly recommended by physicians, actresses, singers and women of fashion for over half a century and cannot be surpassed when preparing for daily or evening attire.

Gouraud's Oriental Cream cures Skin Diseases and relieves Sunburn, Removes Tan, Pimples, Blackheads, Moth Patches, Rash, Freckles and Vulgar Redness, Yellow and Muddy Skin, giving a delicately clear and refined complexion which every woman desires.

Oregon Debate League
Schedule Is Made Out

University of Oregon, Eugene, Jan. 15.—Preliminary schedules in the Oregon High School Debating League have been arranged by the directors of the league at the University of Oregon for each of the five western Oregon districts, as follows:

Lower Columbia district — Opening debates, January 15; contestants, Tillamook vs. Scappoose, Rainier vs. St. Helens, Clatskanie vs. Astoria. J. G. Imel, superintendent at Astoria, is director of the debate district.

North Willamette district — Opening debate probably January 14; contestants, Estacada vs. Oregon City, Oregon City vs. Forest Grove, Forest Grove vs. Estacada, Silverton vs. Canby, Canby vs. Woodburn, Woodburn vs. Silverton, Newberg vs. Jefferson, Jefferson vs. Salem, Salem vs. Newberg. The nine schools in this district are grouped thus: 1. Estacada, Oregon City, Forest Grove. 2. Canby, Silverton, Woodburn. 3. Jefferson, Newberg, Salem. The selection is explained on geographical lines by James C. Nelson, principal of the Salem high school and director of the debate district.

Southern Oregon—Ashland vs. Tillamook, Medford vs. Grants Pass, winner vs. Klamath Falls for championship of district. George A. Briscoe, superintendent of Ashland schools and director of the district, asks that preliminary contests be over by January 15, if possible, and suggests January 28, or an earlier date, for the finals.

Cook Bay—Debaters are to be held January 28 as follows: Marshfield at Myrtle Point, North Bend at Bandon, Myrtle Point at Coquille, Bandon at Marshfield, Coquille at North Bend. In this district a school gets one point for a decision and one point for each judge who votes favorably, but if two schools have two winning teams they debate again, regardless of comparative points. E. A. Tilden, superintendent of schools at Marshfield, is director.

Southern Willamette—Eugene, Roseburg, Corvallis and Springfield compose this district. Youellia and Junction having withdrawn. A. R. Nichols, principal of the Corvallis high school, is director.

Finals for the whole state will be held in May at the University for the University of Oregon cup.

WOODBURN ROD AND GUN CLUB
The club was started on its way on January 2, when E. G. Hawman was elected president, C. W. Kent vice-president, and E. J. Stanard secretary-treasurer. A committee was appointed to draw up a constitution and by-laws and get things in running order. A tract of land just north of the city has been obtained and a good shelter put up. At present the club is interested in trap shooting and hopes to be able to pull off the state championship shoot here next spring. Twenty-five enrolled as charter members and more are being added rapidly.—Woodburn Independent.

CHANGE AT INDEPENDENCE
Independence, Ore., Jan. 15.—Homer S. Wood has been appointed postmaster here to succeed M. Mervin, who has held the place for the past 12 years. The change will probably be made March 1, next.

MR. REES HAS TWO HEARTS

To have two hearts on his inside at the same time, was the rather unusual experience this week of Phillip Rees, a farmer living near Salem. One was the regular article that had been doing duty for him the past 77 years. The other was a chicken heart which Mr. Rees attempted to swallow without the usual amount of chewing.

Being rather advanced in years, he has but a limited supply of teeth, and to this is due the fact that he attempted to swallow the heart before it had been sufficiently masticated.

"The heart started down all right," said Mr. Rees, "but it stopped right at the bottom of my throat in what the doctors call the oesophagus."

Under the care of Drs. Morse, Findley and Steeves, the obstruction got to the entrance of the stomach, but here again it was found too large to pass through the small opening into the stomach. At this stage of the trouble, it was found necessary to introduce an instrument known as a probang, into the oesophagus by which it was pushed into the stomach. After having the heart lodged in his oesophagus for five hours, Mr. Rees felt that life was worth living when permitted to drink a glass of water.

Famous Woman Adventurer Arrives In San Francisco

San Francisco, Jan. 15.—Mrs. Ruth Hellman, famous "woman soldier of fortune," who has scoured the African and South American jungles over the path later followed by Theodore Roosevelt, pioneered in every mining camp in America and braved the Chilean wilds, arrived in San Francisco today.

She brought with her from Antofagasta, Chile, her two nieces, Miss Sarah Redfield of Palo Alto, and Miss Catherine Hellman. The girls were attending school near London when the Germans dropped bombs there and they hurried to America.

"Why can't a woman do the things a man can?" remarked Mrs. Hellman. "It's all a question of how one gets started in life. My father was a pioneer miner. I learned to love the rugged life, and to fight my own battles with a six-shooter. We pioneered in Wyoming, Arizona and Nevada. Then I got a chance to go to Africa and we covered the jungle country on foot. We went through South America too, and took the route later followed by Teddy."

"I am next going to the front as a nurse for the allies."

Old Pioneer Talk of Famous Hard Winter

"The snow and snow storms of this week are nothing to be compared to the great snow, beginning January 9, 1842," said D. A. Johnson today.

"That was a real snow and is remembered now by pioneers as the hard winter. The snow was on the ground for six weeks. We had no railroads in those days, and the only way to get out of town was by stage coach. They were on runners for six weeks, with a relay of horses every 12 miles.

"The big flood came just a few weeks before the snow. The rains were so heavy in December of 1841 that the water backed up as far as the court house. The water was deep enough to swim a horse about where the court apartments are located.

"The next big snow was in 1884, when it was 29 inches deep. It first snowed 15 inches and then a crust was formed. Then another snow 15 inches fell and another crust of ice was formed. This snow stayed on for several weeks and with the two crusts of ice, traveling was a serious undertaking."

a ticket and see the latest papers and magazines would be desirable in Oregon, the Medford Sun thinks.

WHY CHILLY WEATHER BRINGS RHEUMATISM

Says Skin Pores Are Closed and Uric Acid Remains In Blood

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions; it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia water drink which overcomes uric acid and is beneficial to your kidneys as well.

TWO WERE KILLED AND TWO WOUNDED

Result of Shooting Affray at El Centro, Calif., Last Night

El Centro, Cal., Jan. 15.—Mrs. A. L. Bell was dead here today, her divorced husband dying, and two others seriously wounded as the result of a shooting affray at midnight, in which Bell, in a furious rage, attempted to kill everybody on the second floor of the Oregon hotel, and then committed suicide.

The men wounded by Bell were Martin Mallory, not expected to live, and John Antholz, a prominent cotton buyer from Tennessee.

Police believe Bell was rendered temporarily insane by jealousy of his former wife's success in the hotel business. Shortly before midnight he quietly entered her establishment and went to the second floor. There he met the woman in the hallway.

Bell immediately began shooting and Mrs. Bell dropped to the floor, dying. Picking up her bleeding body, Bell rushed down the hall with it under his arms. Meeting Mallory and Antholz, he shot them both. Other guests fled. After having hurriedly searched several rooms on the floor, supposedly for other victims, Bell, still carrying the body, ran into a bath room, locked and barricaded the door.

A posse headed by Marshal McFadden arrived shortly and demanded that he admit them. Bell maintained silence.

Governor Johnson Guarded In Comment

Sacramento, Cal., Jan. 14.—Speaking of the Mexican situation, Governor Johnson today made this statement:

"From many sources I have been asked for a statement concerning the murder of American citizens recently in Mexico. More than a year ago, I became intensely interested in the Mexican situation and at that time from such sources as were available, I obtained all the information I could."

"I have very strong and very intense opinions upon the subject but I feel that as the chief executive of one of the states of the union, it would be quite unbecoming in me at this time, to express any views of mine no matter how well grounded upon fact, nor how intense they might be."

"The whole subject is before the national government and while the national administration is determining the course to be pursued which most commends itself, those of us who hold minor positions, no matter how long repressed have been our views, nor how strong they are, should refrain from their expression."

The making and laying of 12 miles of cement pipe this year, the Herald is glad to state, will give work to many men at Baker. Local labor and supplies from the vicinity are to be given the preference.

Tell Your Foot Troubles To Our Foot Specialist

For two days a noted Chicago Foot Specialist will give free examinations and advice at our store. He will be here **JANUARY 21 AND 22** Friday and Saturday Next

During this time all who visit us will have the benefit of his services free of cost. No obligation to buy your shoes here.

Arch Support Must be Fitted to the Feet

Arch supports and other foot appliances to give results that are satisfactory must be fitted to the feet. It is impossible to make these devices on stock sizes to fit the innumerable peculiarities of the human foot. Have the Foot Specialist fit you with the proper corrective device or appliance and rid yourself of foot troubles permanently.

What Our Foot Comfort Service Means to You

After months of preparation we have installed Dr. Scholl's Foot Comfort Service for the benefit of our customers. This insures you correct, scientific fitting of shoes; it means supplying you with the proper corrective device to free you of foot aches and pains, that tired worn feeling, broken arches, corns, bunions, callouses and other foot troubles. This special service is given you without any added cost.

There's a Scholl Appliance for Every Foot Ill

Dr. Wm. M. Scholl is the greatest authority on the feet and the inventor and manufacturer of foot appliances for every known foot ailment and deformity. We carry a full line of his goods and the splendid preparations he also manufactures for bringing relief to the feet. Come in and let us tell you about these wonderful methods of correcting foot troubles.

Cheerful Wash Days

Nothing to do on wash day except to gather up the clothes, send for our wagon and await their return, when upon examination you find your garments spotlessly clean and sweet. Further examination shows no garment missing, shrunken or faded. Comparing our bill with what home washing costs, you find you saved money and a day as well.

Such are the happenings on the cheerful wash days that are being spent by scores of women in this city. Spend one yourself. You'll appreciate what they mean. Call our wagon now.
