

ROAD TO HEALTH IS THROUGH THE KIDNEYS

No person alive is stronger than his kidneys. The minute the kidneys become disarranged or clogged with waste the warning is flashed throughout the entire system.

Most any reliable druggist in this vicinity can probably tell you of many well-known people whom Solvax, the standard kidney remedy, has restored to health, often after they have tried many other methods of treatment with little or no benefit.

There are hundreds of people who were not the least bit surprised when they read awhile ago that Daniel J. Fry is selling Solvax on a guarantee to refund the money in case it did not relieve. This remarkable kidney remedy is guaranteed to help the worst case of lazy, sluggish, or clogged-up kidneys, or the general headachy, kinky backed, played out condition that afflicts people suffering with kidney trouble.

The best kind of advertising is the praise of a pleased customer, and there are hundreds today praising Solvax because it has done for them what it is advertised to do. Not very long ago they were afflicted with all manner of sickish, uncomfortable pains and each day seemed to bring with it a new ache in some other part of their body. Since using Solvax they are once more bright and chipper and able to enjoy life at its fullest with no more fear of suffering.

Do you doubt if any other kidney remedy has made such a large percentage of cures as Solvax. It is so large that its owners are perfectly safe in standing ready to refund the price to any customer whom it does not help. This is a good time to get well and you ought to take advantage of this offer. Get it from Daniel J. Fry or any well stocked drug store.

IT'S SALEM'S BUSY DAY THOUSANDS WRITING TO ADVERTISE OREGON

Have you written your letters today?

This is the week when every true patriot in Oregon will take pen in hand, or write on a machine, or have letters from the multigraph duplicated, stating the fact that Oregon and especially the Willamette valley has the finest summer climate and the greatest scenic attractions in the country and suggesting to eastern friends and acquaintances that next summer is the time to visit Oregon.

The business interests of the city are taking an active interest in this letter writing campaign. They are not writing just a few, but are sending them in large numbers in the regular form, besides writing many personal letters.

Among those who are busy today are the Drager Fruit company, who will send 30 letters; the Salem Bank of Commerce, 25; and Patton Bros., 20. The Portland Railway, Light and Power company will do their share in sending 125 hoisting letters, and H. S. Gile and company, 300. Others are sending as follows: D. A. White and Sons, 20; Farmer Hardware company, 25; Moore Furniture store, 25; Dwight Misner, 40; U. G. Shipley and company, 40; Imperial Furniture company, 25; T. M. Barr Plumbing Co., 20; Capital Journal Publishing company, 35; J. H. Lauterman, 30; Houser Bros., 25; Salmon Hardware company, 30; Stensloff Bros., 25; Spaulding Lumber company, 50.

The above are just a few of the firms, but others are getting in line today and are expected to do their share in the great letter writing week.

If any citizen wishes to appear in the hand Friday morning, do not fail to be on hand Friday morning at 11:15 o'clock

at the corner of State and Commercial streets. The students of the high school will be there. The Cherritas in uniform and state and city officials will all take part in the Patsie moving picture that is to be taken, showing what Salem has done when the sacks of mail are carried from the office of the Portland Railway, Light and Power company to the postoffice.

The school children will also do their share in spreading the good news of Oregon and its climate and the advantages it has to offer the tourist for a summer vacation. The English classes of the high school are already busy writing letters and it is estimated that the majority of the pupils in the high school will write at least ten letters each. Before the meeting this evening of the principals of the other schools, Superintendent Elliott brought the matter before the teachers, by which Washington, Lincoln and Grant junior high schools may join in the week's writing.

The senior high school will be dismissed at 11:15 o'clock Friday morning for that period, in order that they may appear in moving picture scenes at the corner of State and Commercial streets, and accompany the procession to the postoffice.

Caution. Do not mail your letters in the postoffice or mail boxes. In order to make a proper showing, all these must be mailed at the office of the Portland Railway, Light and Power company's office. Already an opening has been made by which letters may be mailed from the corner, and remain in full view the remainder of the week until Friday morning. Letters are already coming in by the hundreds.

COURT HOUSE NEWS

Sheriff William Eech left for Reno, Nevada, last night to return Adam J. Mishler, who is in custody in that city, to Salem for trial. Mishler was indicted at the last term of the grand jury on a charge of converting \$10,000 to his own use from funds entrusted to his care while guardian of Jacob G. Miller, an incompetent. The Miller estate is valued at about \$125,000 and as manager of the estate it is charged that Mishler speculated in hops and then gave the estate two personal notes for \$5,000 each. Sheriff Eech expects to return with his prisoner some time the latter part of this week. It is said that Mishler will fight extradition.

The jury in the case of C. G. Burton and Genie C. Burton against Thad M. Wilson returned a verdict for the defendant Saturday night. This was a case brought by the Burtons to set aside a note for \$650 given by them in a trade in real estate whereby they traded 40 acres near Silverton, encumbered with a \$950 mortgage for four lots in California.

The case of the State against Eddie Patterson, charged with obtaining money under false pretenses, was dismissed today in the circuit court by order of Judge Kelly upon the motion of District Attorney Ringo. The cases of the State against George Yellowlich charged with assault and the State against Frank Von Hatten, charged with non-support of his children, were also dismissed upon the motion of the district attorney.

The will of E. Clara Martin Morgan, deceased, was admitted to probate today and Thomas B. Morgan, the husband and only heir of the deceased, was named as executor. The estate consists of real property in Douglas county valued at \$1,500. The appraisers appointed were E. C. Derrick, J. Baumgartner and Frank J. Chapman.

The case of A. R. Richardson and Mary Richardson against W. L. Diehl was called in department No. 1 of the circuit court this morning. This is a case brought in connection with a land deal and the plaintiffs allege that they traded some lots in Piedmont addition to Portland for some land in Polk county. They say their deed called for 55 acres more or less and they found upon surveying it that it was 11 acres less. They brought suit for \$1,650, the value of 11 acres of the land. The defendant denies that he made any statement as to the exact amount of the land and that he accepted the property as it lay without stipulating the exact number of acres. W. C. Winslow and B. F. Swope are attorneys for the plaintiffs and McNary & McNary and E. M. Page represent the defendant.

Marriage licenses have been issued by the county clerk to John A. Bass, a contractor of Mehama, and Alice Mary Wheeler, also of Mehama. Harold B. Aldwell, a printer of Sherwood, and Inez F. Barry, a stenographer, of Mehama, also secured a glory ticket.

The county school superintendent and his force of examiners are busy today looking over the recent grade examination papers. About 140 pupils took the examination this time but a large number took the examination in only one or two subjects. The results will be given out during the early part of next week.

John Schultz, who assaulted a man named Brown in the northern part of this county about a year ago and was paroled from the bench still reports to District Attorney Ringo and the reports have been sent in from all parts of the world. Schultz, who says he found the name to be unappropiate during the war, has assumed the name Herman Zahler and the report received by the district attorney today came from Oregon, Algeria, North Africa. He is now on the steamship Waimana, of Nanking, China, engaged in carrying meat to the allied armies. Schultz's last report was from Nanking, China, before he went to Africa. This is the only item found today of local interest which makes no complaint about the snow.

Deputy Sheriff O. D. Bower went to Portland today to bring Harold T. Booth back to Salem to stand trial on a charge of obtaining money under false pretenses. It is charged that Booth gave the Meyers store a bad check for a bout \$60 in December, 1913, and at the same time also passed bad paper on Oscar Johnson's Plymouth store for \$15 and Hal Patton for \$15 more. Booth was a former Salem resident and was well known here. He had been away from Salem for some time and then returned to pass the paper and left for California before any of the checks could be cashed. He returned to Portland a few days ago and was arrested by the Portland police. The warrant for Booth's arrest was issued out of justice court.

A suit was filed in the circuit court today by Flora L. Newman against Gordon E. Tower and Bessie G. Tower to collect on a note for \$1,200. It is alleged that this sum less \$233.35 is due with \$151 alleged due on a pasture bill. The plaintiff asks \$150 attorney's fees. Smith & Shields are attorneys for the plaintiffs.

A suit for divorce has been filed in the circuit court by Elizabeth M. Mullinix against Roy Mullinix. They were married in this county in 1910 and the plaintiff alleges that the defendant, who was a bar tender, drank to excess and beat her when drunk. She asks that her maiden name of Elizabeth M. Green be restored. Martin & Martin are attorneys for the plaintiff.

Lydia S. Smith has been granted a divorce from Ashbel Smith by Judge Galloway on the grounds of desertion. The couple were married in Multnomah county in 1913 and all property rights were settled before the filing of the suit.

VATICAN'S INTEREST IN TEMPORAL AFFAIRS

This is Opinion of Close Observers of Trend of Old World Events

By Alice Rohe. (United Press Staff Correspondent.) Rome, Jan. 16.—(By mail).—The Vatican is to take more active interest in temporal diplomatic politics than it has evinced for many years, in the opinion of Vatican affairs' observers whose opinions are respected.

In the recent elevation of six new cardinals to the royal purple of the sacred college, Pope Benedict has given the first definite indication of what will be the future character and policy of his pontificate, say these men who assert that they base their conclusion upon centuries of Vatican precedent.

The sacred college, consisting usually of from 60 to 70 members, has charge of the administration of the Catholic affairs throughout the world. The college is under the direction of the Pope. The pontiff usually wants this body composed of cardinals in harmony with his ideas.

The Vatican world awaits with interest the first conviction that a new pontiff holds in order that it may assess and the State against Frank Von Hatten, charged with non-support of his children, were also dismissed upon the motion of the district attorney.

When a cardinal is elected pope he finds himself surrounded by a sacred college chosen by his immediate predecessors. These cardinals may be out of harmony with what he wants to accomplish. It is seldom a prelate becomes a cardinal before he is fifty and as deaths in the college membership are not infrequent, the new pontiff gradually may change the character of the sacred college by the elevation of new members. In the course of ten years a new pope ordinarily may have, if he wished surrounded himself with a sacred college, the majority of which is in harmony with his ideas. It is only then that a pope begins to give to his pontificate that character which is likely to be associated with his name in history.

In the recent creation by Pope Benedict of his first six cardinals the fact that stood out most prominently was that four of them were chosen from the ranks of the Vatican diplomatic service. These were: Cardinal Tonti, papal nuncio to Portugal; Cardinal Agliero, papal nuncio to the Central American republics; Cardinal Pruvirth, papal nuncio to Munich, and Cardinal Scapinelli, papal nuncio to Vienna.

Pope Benedict's reign therefore, according to Vatican students and tradition, is expected to mark a revival of the political side of the church. This predicted outcome would be in harmony with Pope Benedict's training.

Pope Benedict, when he was Monsignor Della Chiesa, was trained in the diplomatic and political school of Pope Leo. When Cardinal Rampolla, as secretary of state to Pope Leo, labored in harmony with the latter to strengthen the Vatican's diplomatic relations in all the leading courts of the world, Monsignor della Chiesa was under secretary of state to Cardinal Rampolla. He also had held diplomatic posts at Paris and elsewhere.

The revival of this policy, Rome believes again is present in the elevation to the sacred college of four veteran diplomats. It is confidently expected that this entire pontificate will be marked by this policy.

Washington, Jan. 17.—A resolution by Senator Gore, of Oklahoma, today directed President Wilson to make an agreement with General Carranza for restoration of order in Mexico. It was referred to the foreign committee without debate.

Under it, a neutral zone would be created along the border for joint police by both governments until order is restored. The American troops would withdraw. The resolution empowers the president to employ the necessary military and naval forces.

AN ITEM FOR LADIES ONLY.

(Roseburg Review.) A Roseburg man went to Portland recently on pleasure and left Friend Wife at home. Shortly after his return he and his wife were invited to a party. The wife laid out her husband's overcoat, and left she should forget her gloves, she placed them in the overcoat pocket. On his way to the party Friend Husband put his hands in his pockets, discovered the gloves and immediately had a nervous chill. A few minutes later at a dark place in the street, he threw the gloves away. After the party the wife asked her husband for her gloves. "I have not had your gloves," he replied. "Yes, you have; I put them in your pocket before we started." Gradually the husband saw a great light, and the next day it cost him \$1.75 for new gloves.

TRIBUTE TO MRS. BOOTH

Woman's Home Missionary society writes the following letter of tribute to the late Mrs. Bushong Booth, of this city.

Aside from communion with the Master, communion with brothers and sisters in Christ is one of the greatest prizes of the followers of our Lord. Men have many avenues wherein they labor together, and fellowship; but until the past thirty years women have had little outside of the missionary societies of our church.

Our sister who has just departed had the active years of her life filled with love and labor for the societies, both foreign and home. But the same society had the greater interest for her, for during the "vacation of her former husband, Dr. Bushong, in one of our churches in Cincinnati, the Women's Home Missionary society had its beginnings. Mrs. Booth, with Mrs. Kosh, made a personal canvass throughout the church to interest the women in that very first meeting from which the organization sprang.

Mrs. Booth became the secretary of the first auxiliary, and, after several years, when the society had grown to have conference recognition, she became conference secretary and continued for many years in that office.

When they removed to Seattle, her interest grew, for she then got a vision of the frontier work which they had not had in the east, and everywhere she moved her interest was contagious. Her manner was gracious, her ability was marked, and her devotion was unquestioned.

Twelve years ago the writer had the privilege of acquaintance with Mrs. Booth. It was a great pleasure to be in touch with her wide knowledge of the work and her early achievements and the hopes and desires for the future.

Time and changes have rendered it impossible for her to engage actively in the work, but her interest has never waned, and she has continued as president emerita through the years.

As a missionary society, we desire to express our sympathy to the husband and her sons and commend them to the Holy Spirit who will guide them unerringly, and to the Comforter who will abide "hem forever."

THE WIDOW IS CALM. Providence, R. I., Jan. 17.—While murder trial witnesses today told how Cecil V. Brown and Henry Spellman confessed to shooting Dr. C. Franklin Mohr, the latter's widow sat silent and unmoved. The fact that she is charged with investigating the slaying seemed not to trouble her in the least.

She expects to receive an uncontested third of the doctor's estate. The whole is valued at \$200,000.

Phoenix, Ariz., Jan. 17.—Clifton miners today agreed to the wage scale proffered by the managers and the Morensi and Metcalf strikers are expected to follow suit. Sheriff Cash has promised protection to all men resuming work under the new scale. It looks as if the trouble were over and an early settlement imminent.

CONSPIRATORS FINED. New York, Jan. 17.—Judge Clayton today fined Max Jaeger \$1500, Edward Weber and Paul Schmidt \$750 each and Richard Wohlberg \$100 for their part in a conspiracy to violate customs laws by shipping rubber to Germany in trunks, as personal effects.

Of course nobody is required to use a model in writing next week's letters. The important thing is that every body write.

NEW STATE LEADER OF FARM DEMONSTRATION WORK

Paul V. Maris, the newly appointed State Leader Farm Demonstration Work in Oregon, has arrived at the Agricultural college and taken up the duties of his position. He comes here from Missouri, where he was agricultural agent for one of the leading agricultural counties, and hence is quite familiar with the duties of the county agents in Oregon, whose activities it is his work to supervise. He has the further advantage of having been born and reared on an Oregon farm and educated in Oregon institutions, being a graduate of the McMinnville college.

Mr. Maris reached Corvallis in time to join in the conferences of county agricultural agents from the thirteen counties now maintaining these aids to progressive agriculture, and also the superintendents of several of the seven branch experiment stations. In this way he was able to initiate measures for a still closer relation between the work of the stations and that of the farm demonstrators—the sources and applications of scientific agriculture—and also to form an intimate knowledge of the personnel of these forces.
