COMMERCIAL CLUB IS PEACEFUL BODY

Believes In Preparedness Enough To Build Sewer To Abattoir

Peace, rather than war, is favored by the Salem Commercial Club, and unpreparedness rather than being prepared according to the expressed opinions at the monthly meeting which was not very largely attended last night.
As an officer of the State Security League, appointed by the governor, State Treasurer Kay asked for an expression of opinion as to whether the club was in favor of preparedness. While not in favor of a radical program, Mr. Kay did believe that we should have a larger navy and better coast defenses and that we should so express ourselves.

Opposes Standing Army

Hal D. Patton wanted to know what could be accomplished by supporting the league. Henry Meyers favored the support of the league and especially the building of a military road on the coast, and offered a motion that a resolution be sent to congress endorsing the preparedness policy of the president.
Joseph H. Albert expressed himself as being opposed to any military program whatever or any preparedness on the part of the country and thought such a discussion should not come before the club.
F. G. Deschamps believed that this country should prepare, not only for outside enemies but against our interior weakness and that a special meeting should be called to endorse the military program of the president.

Claims There Is Great Water Power Trust

Washington, Jan. 20.—Existence of a gigantic water power trust was charged today in Secretary of Agriculture Houston's report to the senate.
This declared that a grave monopolizing tendency had grown up through common ownership of stocks and through the community of interests between banking and financial circles.
Municipal plants, he said, invested only \$138 per horsepower developed, while private plants invested \$301. Forty two percent of the power of the country is in Oregon, Washington and California.

OUR YOUNG WOMEN are so often subject to headache—are languid, pale and nervous—because their blood is thin or insufficient. They are not really sick and hesitate to complain, but they lack that ambition and vivacity which is their birthright. They do not need drugs—but do need the tonic and nourishment in Scott's Emulsion that makes richer blood, fills hollow cheeks, suppresses nervousness and establishes strength. Nourishment alone makes blood and Scott's Emulsion is the essence of concentrated nourishment, free from wines, alcohols or opiates.
If mother or daughter is frail, pale or nervous, give her Scott's for one month and see the betterment. It has a wholesome, "nutty" flavor. Avoid substitutes. At any drug store.

Mr. Davis' Name Is, Joseph Dennis In Eugene, Says Sheriff

The man, who under the name of Davis, is badly wanted in this city on a charge of robbery, was arrested in Eugene yesterday under the name of Joseph Dennis by Sheriff James Parker, according to information received last night by Chief of Police Welsh. Davis is the man who is charged with the robbery of the residences of Mrs. Provoknit and Mrs. McCauley in Salem and Sheriff Parker states that a watch answering the description of the one taken from Mrs. Provoknit's rooms was found on the man when arrested.
It appears that Davis followed the same tactics in Eugene that he did in Salem and Sheriff Parker states that the officers found two diamond rings upon his person when he was arrested both of which were stolen in Eugene. Davis will be tried in Lane county and will not be brought to Salem for trial unless he escapes conviction in Lane county. Davis' method was to rent a room for a week and pay a small sum down and then to ransack the house at the first opportunity.

Mother Jones' Talk Puts End to Strife

Indianapolis, Ind., Jan. 20.—"Mother Jones, angel of the mine camps, stamped the United Mine Workers' convention here today. Following an address in which her unpolished oratory raised 1500 delegates to a fury of enthusiasm, she forced Duncan MacDonell to the platform to shake hands with President John White, thus ending a bitter struggle between the two that has threatened the miners organization for years.

Adolph Germer, of Illinois, also "hit the trail" and made peace with White, after which Germer's resolution providing a prob of the White regime, was defeated.

President White admitted that two American financial agents of the miners are here in close touch with the allies. It is believed that they are trying to prevent a possible strike in the main coal fields which would tend to hamper production of munitions.

HARRY STOMACH JOY IN YOUR VEST POCKET

Daniel J. Fry Has Such Faith In This Dyspepsia Remedy That He Guarantees It.
One of the greatest successes in the sale of medicine has been achieved by Mi-o-na, the standard dyspepsia remedy, and its sale is increasing so rapidly that Daniel J. Fry, the popular druggist, has had work to keep a stock on hand. It is very popular with bankers, ministers, lawyers and others where business or profession keeps them closely confined, while those who have brought on indigestion through irregular eating, worry, or other causes, have found relief in this reliable remedy.

Mi-o-na comes in tablet form and is sold in a metal box especially designed for convenience in carrying the medicine in the pocket or purse. It is pleasant to take, gives quick relief and should help any case, no matter of how long a standing. This remedy has been so uniformly successful that Daniel J. Fry will in future sell Mi-o-na under a positive guarantee to refund the money if it should not prove entirely satisfactory. No other dyspepsia medicine ever had a large enough percentage of cures so that it could be sold in this manner. A guarantee like this speaks volumes for the merit of the remedy. There is no time like the present to do a thing that ought to be done. If any one has dyspepsia, today is the best time to begin curing it.
