Use Cottolene for shortening when you bake biscuits, pies and pastries. Fry doughnuts, fish, chicken and vegetables in Cottolene. It adds to the joy of eating. Your grocer will supply Cottolene regularly. It is packed in pails of convenient sizes.

THE N. K. FAIRBANK COMPANY

"Cottolene makes good cooking better."

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Got Rid of My Corns With Magic "Gets-It"

Simplest Corn Cure in the World—No Pain. No Ours. New, Sure Way.

When corns make you almost "die" with your boots on, when you've soaked them and picked them and sliced them, when corn-swelling salves

Why Have Corns At All When "Gets-It" Removes Them the New, Dead-Sure Way? and tapes, bandages, and plasters that make corns pop-eyed have only made your corns grow faster, just hold your heart a moment and figure this: Put two drops of "Gets-It" on the corn. It dries at once. You can put your shoe and stocking on right over it. The corn is doomed. It makes the corn come off clear and clean. It's the new, easy way. Nothing to stick or press on the corn. You can wear smaller shoes. You'll be a joy-walker. No pain, no trouble. Accept no substitutes. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

STATE NEWS

Bend's water supply now comes from above the town, which means that both purity and pressure are bettered. The change cost \$10,000.

A co-operative creamery subscription at La Pine has started off well. It is proposed to erect a plant that will call for 200 to 300 cows.

An anti-rabies measure the county court of Grant county has decided to continue the coyote scalp bounty at \$3 through January, February and March.

Marshfield: It has recently been reported that Philip and Henry Buchner have closed a deal for the purchase of the Simpson Lumber company property, and are also negotiating for timber owned by the Menasha Woodware company. The amount involved is supposed to be \$1,000,000.

The Dallas Chronicle: A. S. Milne, proprietor of the City market, drove a horse and sled across the Columbia river yesterday afternoon with a load of 1155 pounds of meat. The combined weight of the horse, which weighs about 1000 pounds, a 400-pound sled and 1155 pounds of meat, Mr. Milne states, should be evidence that the ice is safe for any kind of traffic.

East Oregonian: Containing among other pictures several views of the Indian boys and girls on the Umatilla reservation gathering vegetables grown by themselves, the agricultural number of "The Red Man," a magazine printed by the Indians of Christie, reached the desk of the East Oregonian this morning. It is a splendid publication from a standpoint of contents and typographical excellence.

Oregon Emerald: The head, feet, and hide of the deer that killed its keeper, William F. Wallace, in Hendrick's park on January 9, are now in the museum of the department of zoology. The day after the killing A. C. Shelton, assistant in the department and E. C. Hills, deputy game warden, shot the animal and turned the meat over to the police department of the city for distribution to the poor. The head will be mounted later.

The sport of coasting is gradually systematized at Myrtle. The Condon Times' correspondent writes: "The Myrtle Coasting club have built a fine new coasting sled 22 feet long, through the kindness of Henry Ziegler doing most of the work. The coasting ground is from the top of Mayville Heights down past Church avenue. The managers on the line are Henry Ziegler, conductor, Harry Wallace, brakeman, and W. H. Maroon, engineer. The times they are having are fine and furious."

Randon World: Rabbit farming is one of the industries that have grown up in this section of the country during the past year and raising pet stock of this variety promises to become a source of income not to be disregarded. The local demand for the animals for eating is small, as yet, but in the metropolitan markets the supply is always short and rabbits are considered a great delicacy, being served at all of the first class hotels and grills and bringing good prices. The meat is white, tender and juicy and is said to be the most easily digested of any flesh food.

Cashy Herald: A. M. Arneson, living east of town, was in the city the first of the week. He reports that a great many of the trees were blown down in his vicinity during the past week or so. Reports from elsewhere also state that considerable damage to standing timber had likewise taken place. Wind is said to have had the effect that around Molalla and especially to the south of that place where a considerable amount of timber is located that the recent high winds had taken down a very large number of trees. Some places the trees are so thick that they lie piled across one another fifteen or twenty feet high. It is said that a good many million feet of timber have thus been uprooted. The theory is advanced that the trees not being accustomed to much wind from an easterly direction whence it came were not prepared to withstand much pressure when the wind blew from this point of the compass and it did not take much to put them down for the "count." When a tree of any size fell it generally took several with it, thus adding to the amount of fallen timber.

WITH HUSBAND AND FAVORITE DOG, THE FORMER MARJORY GOULD RETURNS HOME

Mrs. Anthony J. Drexel, Jr., and "Bella."
Mrs. Anthony J. Drexel, Jr., formerly Miss Marjorie Gould, arrived in New York from England a few days ago. She was accompanied by her husband, Anthony J. Drexel, Jr., and her favorite dog, "Bella." All three at once went to their home in Philadelphia.

Commercial Club to Act On Fair Grounds Road

Three topics of vital interest will come up this evening at the Commercial club. There is a feeling that something must be done about the Fair Grounds road, and that now is the time to get ready, and not wait until a month before the state fair.

The proposition as to whether a bathing beach will be run for personal gain, or whether the city will have charge, will also be threshed out. According to rumor on the street, several parties are getting ready to grab on to the beach as established last year and make money out of it.

The organization of an automobile club is in the air, and this will also be discussed. The meeting tonight is for every one who is interested in these three subjects.

NO PORK IN BARREL

Washington, Jan. 25.—As a result of a conference today between President Wilson and House Leader Kitchin, it was announced that there will be no omnibus public buildings bill this session, while the rivers and harbors bill will be limited to \$24,000,000.

PASSES GOOD ROADS BILL

Washington, Jan. 25.—The house today passed the Shackleford good roads bill, appropriating \$25,000,000 to aid states in building public highways.

A Chinese girl, a graduate of Wellesley college, will be at the head of a college to be opened in that country by the American institution.

A whole crop of Billy Sunday's has sprung up. He couldn't be allowed to work that lead alone.

RURAL CREDIT PLANS

Washington, Jan. 25.—The senate postal committee today recommended an increase of one-half of one percent in the rate allowed railroads for carrying mails.

The committee also reported favorably the administration proposal to increase the maximum amount one may deposit in the postal savings banks to \$2,000, as against the present limit of \$500.

If this proposal is enacted, the administration hopes to execute its rural credits program through funds thus obtained.

The government has earned more than \$400,000 in administering the postal savings and a further \$1,700,000 profit in excess of the interest received from banks over that paid to depositors.

WHEAT STEAMER IN DANGER

Astoria, Or., Jan. 25.—The French bark Bayard, loaded with \$180,000 worth of wheat for Europe, is in distress 45 miles south of the Columbia river, the tanker Drake reported by wireless at noon.

The Bayard's top gallant masts are gone and her sails are in ribbons, the Drake reported. Marine men are puzzled by this report, for there has been no heavy weather off the Oregon coast since Sunday.

Immediately on receipt of the Drake's message, the tug Onsetta started south under full steam.

A SCENE FROM "THE LIFE OF OUR SAVIOR" (PATHE)

AT THE LIBERTY TO-DAY AND TOMORROW

Mathé Freres announce, without fear of contradiction, the "Chef D'oeuvre" of the cinematographer's art, in their wonderfully realistic photo-chronology "The Life of Our Savior," at the Ye Liberty today and tomorrow.

The production comprises nine thousand feet of gorgeously colored film actually made in the Holy Land. Bible students and scriptural authorities, both in Europe and America, are unanimous in acclaiming this marvelous creation the glorious realization of a great and noble purpose. It is an indisputable fact that the advent of Christ changed the whole course of the world's history and for that reason this timely exposition, in animated photography, is indeed a welcome acquisition to the world of art and literature as well as to Christianity.

United States Steel Cuts Big Fat Melon

New York, Jan. 25.—The United States Steel Corporation today declared a quarterly dividend of 1 1/4 per cent on its common stock.

The regular quarterly dividend of 1 3/4 per cent on preferred stock was also declared.

The melon in the common amounts to about \$6,350,000.

The common stock dividend was the first declared since December, 1914, when 1-4 per cent was disbursed.

Steel earnings for the last quarter were \$51,232,788, the greatest in the history of the corporation. These figures exceed any previously by nearly \$6,000,000.

BRITISH LOSE 6,000.

Berlin, by wireless to Sayville, L. I., Jan. 25.—British forces, trying to relieve Kut-el-amara, Mesopotamia, lost 6,000 in killed and wounded when the Turks repulsed them, said a Turkish official statement today.

Montenegrins Surrender.

Berlin, by wireless to Sayville, L. I., Jan. 25.—The main Montenegrin army has surrendered to the Austrians and the whole of Montenegro is now held by the invaders, according to dispatches received here today.

Switzerland spends more on relief of poor than does any other country.
