SCHOOL PROBLEM IS BECOMING SERIOUS

Salem Now Maintains Buildings for 201 Pupils From Outside Districts

During the semester ending this week, 201 pupils have registered in the upper grades of the Salem schools who are not residents of this district. The upper grades include the senior high school and the three junior high schools—Washington, Lincoln and Grant. These are all tuition pupils, who pay the bare cost to the district of the expense of the teachers and the maintenance of the schools, but nothing on the amount Salem has invested in its school properties.

In order to give all school children in the state the advantage of a high school education, the legislature passed a law at the last session providing that school children in a district which did not maintain a four-year high school course, would be allowed to attend any public school in the state with a high school, and the county from which they come, would pay the tuition. This tuition was to be estimated according to the actual expense of running the school. It is still a question in figuring the cost of tuition, whether the investment of the district in school property should be considered, or whether the actual cost of teachers, janitors and upkeep was the only cost of maintaining the schools.

With the rate as now figured, Salem will receive in tuition, only the actual cost pro rata of maintaining the schools and does not receive anything for the investment or money paid for interest.

Buildings Getting Crowded. The average tax payer's interest in the number of outside pupils attending in Salem arises from the fact, that this attendance is gradually crowding the schools, forcing many of the lower grades in the junior schools to attend in the out-lying schools, and eventually bringing up the proposition of building another junior high school. The new state law provides that they have a right to attend any district in the state, provided tuition is paid. The present crowded condition of the schools now is due to the unexpected number of pupils from districts outside of Salem.

During the last semester, 133 pupils from outside the district have registered at the senior high school. At Washington junior high, the registers from outside districts were 37. Grant school accommodated 23 pupils whose homes are not in Salem, and the Lincoln junior high, 7.

Marion county districts where high schools are not maintained are sending 143 pupils to Salem. Polk county is sending 31 and other counties in the state 27. These numbers have been registered during the semester. A few have fallen out, while others have moved to Salem, avoiding the payment of tuition.

While the general desire for the higher education, especially in the country districts, the new law wherein the district pays the tuition, will eventually add to the attendance of the schools of a high standard. This will especially affect Salem as in many districts it will be cheaper for them to pay the tuition of a few of its pupils, rather than to maintain the higher grades.

Don't neglect a pain anywhere, but find out what causes it and conquer the cause. A pain in the kidney region may put you on your back tomorrow. Don't blame the weather for swollen feet, it may be an advanced warning of Bright's disease. A pain in the stomach may be the first symptom of appendicitis. A crack in a joint may be the forerunner of rheumatism. Chronic headaches more than likely warn you of serious stomach trouble. 18 POUNDS OF BLOOD

is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes.

AVERAGE CITIZEN TO GET CHANCE AT JOBS

Civil Service Examinations Offer Opportunity for Life Employment

Examinations, in which the average citizen will have a chance, will be held by the civil service department of the government within the next few months. Ordinarily, civil service examinations are for those with a college training, or a technical knowledge in a certain line.

The young man who can qualify as a first class stenographer will be given a life job, starting at \$70 a month, with advancement reasonably rapid. After once in the government's employ in the civil service, the position is assured as long as the work assigned can be done satisfactorily.

Between March 15 and June 5, examinations will be held in which the average man will have a chance. General mechanics are wanted. Guards for U. S. penitentiaries are to be examined, as well as stenographers. Press feeders for U. S. government service are needed, and women only need apply. Stenographers along with typewriting, as well as telephone operators are all wanted. Further information regarding these examinations may be secured of Postmaster Hucklestein.

The March 15 examinations will also give the average man a chance at the government pay-roll. Bookkeepers, engineers and forest assistants will be examined. Land law clerks, physicians, veterinarians and telegraph operators are now all under the civil service, and a man cannot be fired just because the boss does not like him.

April 12 is the day when assistant photographers, cadet engineers, civil engineers and postal clerks may take the examination. Trained nurses for Panama service are also now in the civil service.

Those applying for departmental work, must have lived in the state at least one year and when examinations are taken, they must be within the state where the applicant resides. For other service, no length of state residence is necessary, and these examinations may be held outside the state. Almost all examinations not in departmental work, are held at Seattle.

Anyhow, the examinations this spring so far announced are those that may be taken by the average man, especially the young man who is a good stenographer and is willing to start his civil service life on \$70 a month.

AUSTRIANS GET PART OF ALBANIAN COAST

Capture Part of Defenders But Serbs Escape—Other War News

Rome, Jan. 26.—The Austrians have occupied San Giovanni Di Medina, an Albanian seaport, and are now heading for Durazzo, another port, according to dispatches today. These said that they plan to make a junction with the Bulgarians in the Albanian region.

Part of the Montenegrin and Albanian forces defending Scutari were said to have been captured when that city was occupied by the Austrians, but the Serbs escaped and headed southward.

Norseman is Safe.
London, Jan. 26.—After Liverpool notices had reported the torpedoing and sinking of the Dominion liner "Norseman," it was learned today she had not sunk but was beached. There were no casualties among the crew.

Albanians Beat Bulgars.
Rome, Jan. 26.—Bridistai dispatches today reported that Albanian under Essad Pasha, retreating toward Berat, encountered Bulgars advancing from Delrida and hurled them back in a bloody engagement.

Monitors Shelled Positions.
Amsterdam, Jan. 26.—Allied monitors closed in and shelled German positions at Westende today while simultaneously allied aviators bombarded positions near Kluke and Heyst.

The shelling of Westende was said to have been especially effective. It resulted in officials sending numerous wounded Germans to Bruges and Ghent. The attack is believed to have been in retaliation for German raids on channel towns.

British Loss Appalling.
Constantinople, Jan. 26.—"The British attempting to relieve the garrison at Kableshana (Mesopotamia) have sensed their attacks after appalling losses near Felarte," said the Turkish official statement today.

Say Montenegrins Quit.
Vienna, by wireless to Sayville, L. I., Jan. 26.—Representatives of Montenegro last night signed articles at the field headquarters whereby the Montenegrin army agrees to lay down its arms, according to official announcement tonight.

Dear Editor: I appeal to those of your readers who are bothered with backache and a constant tired, feelings to give "Anurie" a trial. It is a remedy recently discovered by Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. I suffered from backache, swelling of hands and feet, too frequent excretion from the kidneys and many other symptoms. Was unable to work, but after taking just one box of "Anurie" according to directions I am again able to perform my daily duties.

Note:—Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIE," the newest discovery of Dr. Pierce, who is head of the Invalids' Hotel and Surgical Institute, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and aching head (worn out before the day began because they

She Will Recover

So her doctor said. Her friends and neighbors felt sure of it too. They have used Peruna themselves and know of its merits. That old cough that had worried her for years and years, for which she had taken all sorts of cough medicines, has disappeared. Peruna is doing the work. She will recover. Indeed, she has recovered.

Her name is Mrs. William Hohmann, 2764 Lincoln Ave., Chicago, Ill. She had suffered with catarrh of the bronchial tubes and had a terrible cough ever since a child. As she got older she grew worse. She coughed both winter and summer. Had to sit up at night. Could not sleep. "But all that has left me now. Peruna has cured me."
