MAY DESTROY YUMA
El Centro, Cal., Jan. 29.—Yuma is flooded again. The waters are rushing through the streets seven feet higher than last week, demolishing many structures and threatening to undermine brick buildings. The entire population is in flight to the highlands, according to reports this afternoon. Eleven feet of water is tumbling over Roosevelt dam. Emergency work is being rushed on the levees. Water is rising.

SWEDEN HINTS WAR; DENMARK FOR PEACE

England Makes No Objection to Danes Sending Supplies to Germany

By Charles P. Stewart.
London, Jan. 25.—War rumblings may disturb Sweden at present, but Denmark almost certainly will keep out of the war. She wants to keep out; and Germany and England second her desire. This much is gleaned from recent conversations with Copenhagen officials and with well informed persons here today.

If Denmark fights at all, it must be with the allies. She lost Schleswig Holstein to Germany 52 years ago—and has hated the Germans ever since. But Germany could cross the imaginary line separating the two countries and overrun Denmark rapidly. Hence Denmark cannot afford to fight.

On the other hand Germany is not anxious for an invasion, for despite the English blockade, Germany gets considerable supplies through Danish ports. In case of invasion, an iron clad blockade would be enforced, with consequent suffering for Germany. Again, Germany is not anxious to undertake the defense of the long Danish coast line against possible allied landings.

At the same time, England realizes that German occupation of Denmark would cut off considerable food supplies for the British Isles. It is understood that there is a tacit agreement by which Denmark divides her foodstuffs between England and Germany without objection from either. This is assigned as the reason that no Danish food ships have been torpedoed.

Brandeis' Appointment Starts Fight In Senate

Washington, Jan. 29.—By the closest vote by which any supreme court justice was ever approved, Louis D. Brandeis of Boston will be confirmed to that bench, according to reliable indications today.

Acting Chairman Overman of the judiciary committee announced today he would appoint a committee of five to give hearings on the fitness of Brandeis for the post, as long as the opposition to his confirmation warrants such action.

Meantime, President Wilson is prepared to fight as hard as necessary to put his appointment "across." If necessary, he will force a public test of the traditional "senatorial courtesy" privilege, in order to win out. In this connection, it was pointed out today that the president's nomination of George Rublee to the federal trade commission failed because of Senator Gallinger's objection. It is learned that the latter fought the Rublee appointment because Rublee was an intimate of Brandeis.

KILLED TWO FOXES.

Walter Dorman, Roland LaFore and Clyde Wilson went out to the Battle Creek school house neighborhood Thursday evening with two hounds and the same number of guns for a fox hunt. They returned this afternoon with two fine big gray foxes. One led the hounds a chase for four hours and a half and the other for five and a half hours. They each proved Roosevelt's assertion as true for when crowded to it each climbed a tree and were brought down by the guns. Next Wednesday morning about 7:30 the boys will put their dogs after a coyote that lives up that way. Farmers are requested to look out for him and get him if they can.

THESE MAY BE CREW

Oakland, Cal., Jan. 29.—Reports of a lifeboat filled with men and buffeted by the waves of the ocean off Point Monterey have been received by Captain Fred Linderman, owner of the ill-fated steam schooner Aberdeen. The news strengthens the belief of the captain and his brother that the crew of the vessel may yet be safe and arrangements for a patrol to cruise in the vicinity are being made.

Cherrians Out of Debt May Pay Visit to Coos Bay

The Cherrians are entirely out of debt and there is real money in the treasury, according to the report of Arthur R. Wilson, at the meeting last evening.

The invitation of the Rosarians to accompany them to Honolulu on the steamer Great Northern April 12 was read and the secretary authorized to acknowledge the receipt thereof and to also notify them that at least one Cherrian would be with them and probably more.

The trip to Coos Bay at the opening of the railroad to Marshfield appealed to many of the members and a committee was appointed to investigate as to rates and other matters pertaining to the trip. The invitation to go to Marshfield has not as yet been received by the Cherrians but they are rather expecting it.

The Cherrian uniforms are not to be loaned, unless with the special sanction of King Bing. It was learned that several uniforms had been worn by those not Cherrians and it was the sense of the meeting last night, that such a thing was not in accordance with the wishes of the organization. A property committee was appointed, consisting of J. H. LaForsman, chairman; John Gruber, and Hal D. Patton.

In order to raise money for trips and other gala occasions, it was decided to give an entertainment this spring and to put the matter in right shape, a committee consisting of H. H. Olinger, chairman; Hal D. Patton, George Graves and Theodore Roth were appointed.

Anticipating several boosting trips this spring and summer, the Cherrians will begin drilling, and will meet next Wednesday night at the armory, under the command of C. L. Dick.

MOOSE TO PUT ON SHOW

The Moose lodge is preparing to put on the biggest show ever. It will be under the personal supervision of a committee of which Benjamin Brick is chairman, and will be given at the opera house Thursday evening, March 2. A special feature of the entertainment is that a dance will be given at the Moose hall immediately after the close of the show, and the ticket of admission to the show also entitles one to the dance. It is sort of a double-bender.

Carl Bidder, manager of the Orpheum and a friend of Mr. Brick, will appear in a few comedy sketches. Miss Alice Justin, who has been starring in the Orpheum circuit, will also come. Barnett H. Goldstein, a young lawyer, of New York City, now of Portland, will appear in comedy acts and pantages. Ernest Blue, George Patterson and Benjamin Brick compose the committee on entertainment and they promise a fine show. The Webb orchestra will play for the dance.

Donald Is Organizing To Start a Creamery

The beginning of the development of the dairy industry at the north end of Marion county was made at Donald yesterday. A large meeting of the farmers of that neighborhood was addressed by Professor Barr and Professor Graves, of the Oregon Agricultural college.

Professor Graves said that Oregon could gain a leading place among the dairy states of the nation. Our mild climate and abundant growth of forage and grain crops give us special advantages over some of the other successful dairy regions of the east. As to markets he thought the Atlantic coast cities would purchase all the butter this valley could produce if it would grade extra in quality. He said the

silos was a very necessary equipment of every dairy farm.

A registration of the number of cows tributary to Donald was taken and as a result a creamery of cheese factory will undoubtedly be started at that place. The business men, assisted by the ladies, served an elaborate dinner to all present.

Big Attraction at The Grand Theatre

"The Unknown," a thrilling and unusual drama of the Foreign Legion and Algeria, will be the attraction at the Grand theatre today with the distinguished romantic actor, Lon-Tellgren in the stellar role. This is one of the most unusual photodramas that the Jesse L. Lasky Co. have ever produced and according to all reports has scored a phenomenal success.
