How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of granulated sugar with 3/4 pint of warm water, stirred for 2 minutes, gives you as good syrup as money can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This gives you, at a cost of only \$2.50, a full pint of really better cough syrup than you could buy ready made for \$4.25—a clear saving of nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquers it in 24 hours. Splendid for whooping cough, bronchitis and winter cough.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiaicol, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

## Y. W. C. A. CELEBRATE HALF CENTENNIAL

### National Jubilee In Honor of Fiftieth Anniversary Begins Today

(By United Press.)  
New York, Feb. 1.—Throughout the United States, beginning today, the Young Women's Christian association starts its national jubilee month celebrating the fiftieth anniversary of the founding of the first association, in Boston, March 3, 1866. Nine hundred and sixty-six jurisdictions, including city, country and student have developed and exist today as the result of that first association, which was started by a society of women to help self-supporting girls who came to the city to seek employment.

The organization membership in America today numbers 342,948. The association owns millions of dollars worth of property in buildings to which hundreds of thousands of young women go for education, recreation, and social life. The jubilee month will be filled with celebrations and events.

February 6 and 7 will be pioneer days, on which every member of the organization, past and present, will report back to the local association which was her first interest. On February 22 the historical pageant: "Girls of Yesterday and Today" will be presented in every association building in the country.

This will be a four-act play in which the girls of 1866 and the girls of 1916 will interpet through the medium of the other members of the company, the scenes that pass before them. There are only two speaking parts in the pageant. On March 3 will be celebrated the fiftieth birthday of the association's work in America.

Other pioneer associations bearing the name of Women's Christian associations were organized in Hartford, Conn., Providence, R. I., Pittsburg and Allegheny, Pa., in 1867. Cincinnati, Cleveland and St. Louis followed in 1868 by forming similar societies. Similar associations were formed in St. Joseph, Mo., Scranton, Pa., Kansas City, Mo., Minneapolis, Minn., and Toledo, Ohio. All city associations emphasized religious meetings and Bible instruction and as early as 1872 the New York City Y. W. C. A. commenced a Bible class which shortly developed an average attendance of 600. Employment agencies have always been an important part of association work.

In 1872 Hartford, Conn., erected the first building for this purpose. The first association summer home was built at Ashbury Park by the Philadelphia association in 1874. In 1891 Kansas City, Mo., opened the first self serving lunch room, now known as the cafeteria.

In 1895 a convention was held at Lake Geneva and the National Young Women's Christian association, which later became the American committee with headquarters at Chicago, was formed.

## A WOMAN'S TORTURE

No ingenuity of barbarism ever devised an agony so intense, so persistent, so long-enduring, so nerve-harrowing as that which is suffered day after day by the woman whose distinctly feminine organism is deranged or diseased. There are three trying times in every woman's life: 1st—when girlhood blossoms into womanhood; 2d—when motherhood is achieved; 3d—the change.

Dr. Pierce's Favorite Prescription was devised to make these three periods safe and painless by restoring to vigorous health the organs involved. It soothes, heals, nourishes. It gives nature just the help it needs. It is the only ready-prepared medicine devised by a regularly graduated physician and skilled specialist in the disease of women.

You know what you are getting with this Prescription, Doctor Pierce's, because it's extracted from native roots by using glycerine—no alcohol or narcotics. The ingredients published on wrapper and free to the world.

For all diseases peculiar to women, Dr. Pierce's Favorite Prescription is a powerful restorative. For nearly fifty years it has banished from the lives of tens of thousands of women the pain, worry, misery and distress caused by irregularities and diseases of a feminine character. Buy it now, in liquid or tablet form from your druggist or send 50 cents or \$1.00 to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., for tablets. Write for free book on women's diseases.

## Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If induced to adopt a morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated a very often, are urged to obtain a quarter ounce of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

## BURGULARS SURPRISED KILL BRAVE OFFICER

### Caught In Act of Robbing Saloon Three Are Overpowered and Jailed

San Francisco, Feb. 1.—In a pitched gun battle early today, one policeman was fatally injured, an unidentified bandit was shot, but escaped, while three out of six bandits engaged, were captured.

The injured policeman, G. J. McSweeney, heroically blocked one door of a Valencia street saloon to prevent the bandits' exit that way, though he had been shot three times and was weak from loss of blood.

The bandits, who escaped, fled in a waiting automobile, while bullets rained over them.

The police surprised the thugs in the act of burglarizing the saloon. After Patrolman McSweeney and Dorman had found three lookouts outside. These fled at once, leaving the fire of Williams. McSweeney hurriedly telephoned the Mission street station bringing a squad of reserves to aid.

Inside the saloon were the three burglars who had jimmied the front door, rifled the cash register already, and were then trying to blast the safe. Though they gave desperate battle, they were overpowered.

McSweeney was taken to St. Luke's hospital and physicians there held out no hope for his recovery. The three men arrested, carrying the names of William Schivo, Hugh Conroy and James Williams. All have police records and were on probation.

They had an elaborate set of burglar's tools.

Many leading gas-engine experts have recently declared that lubricating oil made from asphalt-base petroleum gives best results.

Pacific Coast motorists made the same discovery years ago. For the majority have been using Zerolene in preference to all other oils. They agree with the experts.

Zerolene is made from selected California petroleum— asphalt-base—under the unequalled refining facilities of the Standard Oil Company.

Next time you empty the crank case, refill with Zerolene.
