PRESIDENT MAKES GREATEST SPEECH

Says American Navy Is Fit But Army Not Even Sufficient for Peace Times

Chicago, Feb. 1.—Fit for continuance of his military preparedness stumping tour after a strenuous day yesterday, President Wilson arose early, and had breakfast with Mrs. Wilson at 8 o'clock. After seeing a number of visitors at his hotel, he left shortly before 10 o'clock for the Rock Island station, destined for another full day.

His next goal is Des Moines, with rear platform speeches at Joliet, Ottawa, Rock Island, Moline, Davenport, Iowa City, Grinnell and Newton. The president last night delivered here one of the most important speeches of his political career, abounding in pointed paragraphs, of which some of the more prominent were: "The American navy is ready for war, but the American army is scarcely sufficient for the requirements of peace time."

"This war was brought on by rulers, not by peoples." "Law has broken down." "We may have to assert these principles of right and humanity at any time." "The force of American public opinion is not going to stop the war."

"I did not come away from Washington because I had the least misgiving as to what the United States was going to do... but that you might have from my lips the assurance of the absolute necessity that these things (preparedness) should be done, thoroughly done, and done very soon."

"It is probably a fortunate circumstance that America has been cited awake by those voices of the disturbed and reddened night when fire sweeps sullenly from continent to continent."

At the same time, he declared that the nation must prepare itself for possibilities ahead, and must be ready to maintain justice on this continent. He called it false that America has remained aloof from the conflict because of money to be made from the struggle.

A disguised Austrian arrested while trying to see the president last night caused a temporary stir. The president posed for movie operators in front of his hotel before departing, but Mrs. Wilson tucked herself into a corner of their limousine and did not give them even a glancing shot. Mounted officers kept back the crowds.

The president's train arrived at 10 o'clock. Previously a few enthusiasts broke through the guard of secret service men at the train and cheered the executive.

Broadway Juvenile a "Real" Daredevil

George W. Lederer has uncovered a "movie" hero who does not have to resort to being doubled or camera faked, in order to register the real "punch." This violator of all movie censors breathes in the person of Charles Trowbridge, leading juvenile of Broadway fame, who is being featured in the forthcoming World Film release, "The Siren's Song."

When the time came for the overboard thrill, the captain of the liner refused absolutely to allow the stunt, saying it meant certain death, for which he, as master of the ship, declined to be responsible.

Perseverance was useless, and delay only increased the tension. The netors were anxious to have it over with. After a terrific fist fight on deck, and at a given signal from the director, in violation of all ship's rules, Trowbridge was hurled headlong over the side into the sea.

Immediately upon hearing the cry "man overboard," the captain arrested the director and put him in irons for disobeying his orders.

The passengers, too, believing it real, made a threatening rush for him, but the sailors, quickly realising what might follow, hustled him below.

It was only after Trowbridge had been taken from the sea in an exhausted condition, and the boat that picked him up had returned, that the director was given his freedom. This great picture will be shown at the Bligh today and tomorrow.

Tacoma Lawyer Says Juries Are Packed

Tacoma, Wash., Feb. 1.—Attorney A. O. Burmeister, who has represented a large portion of those persons arrested here since the first of the year for violations of the prohibition law, today charged that the justice court juries are packed with W. C. T. U. members, before whom it is impossible to obtain a fair trial.

THERE WAS NO MUTINY

San Francisco, Cal., Feb. 1.—The reports of mutiny and troublesome times on board the steamer Mackinaw were exploded today when Thomas Peabody, captain of the ship, arrived from Honolulu on the Euer Wilhelmina.

Captain Peabody said he had taken the long mid-Pacific route because of fierce winds and seas. Six men quit the ship at Honolulu, he said.

FREAK LIFE PRESERVER

Oakland, Cal., Feb. 1.—As a result of the Aberdeen wreck a new life preserving invention was introduced to the waterfront today. Walter H. Kenan, an Oaklander, jumped into the cold bay waters from the fireboat in order to demonstrate the device. It consists of a vest lined with rubber tubes which can be blown up in a second and support a body.
