BRITISH PASSENGER LINER MAY BE LOST

Fear Grows That Orissa May Have Fallen Victim to German Commerce Raider

New York, Feb. 9.—The 5,358 ton British passenger liner Orissa, plying between South America and England, is believed to be at the bottom of the ocean, a victim of a German commerce raider.

The report that this vessel had been destroyed arose from a London cable to a Wall Street firm saying that "a large passenger steamer had met with a terrible accident in the north Atlantic."

The Orissa was last heard from at Rio Janeiro nearly a month ago. The report that this vessel had been destroyed arose from a London cable to a Wall Street firm saying that "a large passenger steamer had met with a terrible accident in the north Atlantic."

Shipping men are convinced that German raiders have sunk or captured several British vessels in addition to the liner Orissa, recently brought in to Norfolk as a Teuton prize.

The British admiralty has instructed liners to watch out for raiders and while officers scoffed at the possibility of danger, shipping circles are more concerned over the maritime situation than at any time since the Lusitania was sunk.

W. D. Evereth, second officer of the British steamer Author, believes that German raiders are in or en route to the Gulf of Mexico to waylay British ships.

The Pacific Steam Navigation company, owners of the Orissa, said they had no word of her since January 10 though she was due in Lisbon January 26 and in Liverpool February 1.

Shipping circles were besieged for information all day concerning the Orissa, but they had no news; moreover, correspondents' cables to London remained unanswered.

THE WHOLE BODY NEEDS PURE BLOOD

The bones, the muscles, and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased; the muscles become enfeebled; the body loses its elasticity, and there is inability to perform the usual amount of labor.

Hood's Sarsaparilla makes pure blood. It is positively unequalled in the treatment of scrofula and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Hood's and get it today. All druggists.

Push Indictment Against Smugglers

San Francisco, Feb. 9.—Federal authorities here expressed today their intention of pushing to the limit the indictments against immigration officials, former Mongolia steamer officers and Chinese, charging a Chinese smuggling conspiracy.

The indictments caused no surprise, for they had been forecasted from the time the Mongolia brought in a cargo of Chinese, and Immigration Commissioner Chinnetti took a hand in the investigation. The indictments, announced by United States District Attorney Preston, were against Immigration Inspector Joseph X. Strand; Deputy Immigration Commissioner W. T. Boyce; Immigration Inspector Frank Hayes; Immigration Interpreter W. C. Glendinning; Watchmen L. J. Smith and David F. Graham of the immigration service; Purser Hat, Chief Engineer Paul, Assistant Engineer Scott, Chief Steward Richards, steward Steward Wolfe and Watchman Garretty of the former Pacific Mail liner Mongolia; fifteen Chinese, and Joseph Tape, a Chinese employe of the Southern Pacific company.

Most of the crew were British. Fears are felt here for at least 7 big British and French liners and several Cunard freighters, now at sea.

Shipping circles were besieged for information all day concerning the Orissa, but they had no news; moreover, correspondents' cables to London remained unanswered.

A New Remedy for Kidney, Bladder & all Uric Acid Troubles

Dear Reader: I appeal to those of you who are bothered with kidney and bladder trouble, that you give up the use of harsh salts or alcoholic medicines and in their place take a short treatment of "Anurie."

I have taken many of Dr. Pierce's medicines for the past twenty-five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Dr. Pierce, namely, his "Anurie."
