## Back from Pleasant Visit In the East

Mr. and Mrs. J. B. Knight returned Saturday evening from a three months' visit in the south and east.

For Mr. Knight, the trip was one of pleasure as well as business. Besides short visits at San Francisco, Los Angeles and New Orleans, they passed several weeks with relatives in Mississippi, Kentucky and Illinois.

The National automobile show in Chicago was attended. Mr. Knight, as salesman for the Studebaker car, was greatly interested in the chassis of a Studebaker entirely gold plated, shown at the Chicago auto exhibit. He also attended a national convention of Ford agents and salesmen and brings the word that the Ford factory has decided to increase their output this year from 300,000 to a half million. He reports that all automobile factories will increase their output this year from one-third to one-half and that on account of the great railroad business in the east, there may be some difficulty in receiving shipments. Most of the railroads in the east are busy shipping munitions to the sea coast and it seems that ammunition, shells and machine guns have the right of way over the more peaceful Fords and other cars.

Public Service Commissioner Clyde B. Aitchison arrived in Portland today from Washington, D. C., where he appeared before the interstate commerce commission as a representative of the national association of public service commissioners. Mr. Aitchison was appointed at the national convention of the commissioners held in San Francisco last summer to take part in the arguments on railway valuation that were heard by the interstate commerce commission.

West Station is about to become a second Holland, not in the amount of water surrounding it, but from the fact that several families from Holland will soon settle in that vicinity, bringing with them their cows and farming implements. For it is known that cows in Holland are really part of the community and are as carefully cared for as members of the family. George Boersma took 22 acres, Ed Boersma bought 22 acres, and their father, Cornelius Boersma, bought the adjoining 12 acres, while Arie Penning bought the 20 acres located between Johan Tjoelker's and Wolter Van Dam's. As soon as green feed is available these new families will have between 40 and 50 additional cows.

### MONEY PAID FOR HOGS

Seventeen hundred dollars in one day for hogs was the amount J. M. Miesler paid last Friday for the porkers shipped from Hubbard. There were 115 in this shipment and brought seven cents. The indications are that even a better price may be realized this week. For the months of October and November last, \$12,000 was paid for hogs shipped from Hubbard, and for the year 1915 there were thirty cars shipped which averaged \$1200, or a little better in the aggregate of \$36,000 for hogs raised around Hubbard. For one item that is making a fairly good showing. This sum is for car load shipments of live hogs and has nothing to do with the number of dressed hogs shipped by express from Hubbard on the early morning train. A low estimate on this shipment for the year is 600 which would add another \$1200, or practically \$48,000 from the raising of hogs for the year from all sources, which is considered a source of profit when a majority of the feed can be raised.—Hubbard Enterprise.
