WOMAN EFFICIENCY EXPERT WARBLER IT

Suggests Those Not "Efficient"
Teach Efficiency to Their Children

San Francisco, Feb. 25.—"The study of efficiency should start in the kitchen and nursery," was the statement today of Mrs. E. P. Johnson Clark, the only woman efficiency expert to visit the Pacific coast. She was sent by the government to "clean up" archaic methods still employed at the customs house.

"Efficiency in business and in governments is quite the fad," she continued. "But few men and women think of employing it in the home. Let the mother and father preach it and the son and daughter will grow up with a broad knowledge that efficiency experts will not be necessary in the future. Let the mother start by bringing up her daughter with a knowledge of kitchen wastes; her son with a knowledge of business affairs, and the saving of pennies here and there."

"Then let the schools start in where the parents leave off. If there is one place where the lesson of efficiency can be well taught it is in the schools. There has been much neglect of this most important matter. The housewife is far too inefficient. She has no household system. The high cost of living could be given a hard blow by the introduction of efficiency methods."

Millionaire Autoist Speeding, Kills Girl

Oakland, Cal., Feb. 27.—That Adolph Uhl, San Francisco millionaire, was traveling a terrific rate of speed when the machine he was driving struck and almost instantly killed Miss Bess Smith at Wabash street and Oakland avenue, last night was the declaration of Captain of Detectives Walter J. Peterson, who announced today that if the family of the dead girl fails to prosecute the wealthy automobilist he himself will carry on a charge of manslaughter, with which Uhl is now charged.

Peterson and a corps of detectives by investigation today found that the car after striking the girl, dragged her body for 130 feet before the mangled form was torn loose from the machine and that 160 feet in all were required to bring the machine to a stop. Police automobiles traveling at the rate of 2 miles an hour were brought to a stop in 30 feet with only one brake in use. This test was made by the detectives in order to show that the Uhl party, late for a wedding was traveling at a tremendous speed when the accident occurred.

Uhl today stated that he was not driving his car at a fast rate and that he did not see the girl until after she had been struck to the pavement.

Sold Fake Mining Stocks Is Arrested In Florida

New York, Feb. 25.—Hurry, his evidence before the grand jury, United States District Attorney Marshall today obtained an indictment against J. Grant Lyman on a charge of conspiracy to use the mails to defraud through selling fake mining stock. Marshall planned to send two men to Florida tonight to bring Lyman back from there.

A check found on the man arrested at St. Petersburg dispelled all doubt as to the identity. Marshall said that Lyman went from here to Florida by automobile, and deposited \$10,000 at Philadelphia en route in the name of his mother-in-law.

San Francisco, Feb. 25.—Charged with fleeing an aged rancher out of \$6,000 "Dr." Alexander Walton, a clairvoyant, was arrested in Chicago last night, according to advices to local authorities today.

Through the suggestion of Miss Cornelia Marvin, state librarian, the Oregon Society of the Sons of the American Revolution, appropriated \$100 at their meeting held in Portland last Tuesday to give the state library for the purchase of books treating on patriotic subjects for the young. The idea was suggested that this amount be used mostly for books bearing on the revolutionary period to be placed in the state traveling libraries. The president of the society, Judge Galloway, for the interest he had taken in a patriotic way during the naturalization exercises held in his court, Winthrop Hammond was called on and spoke briefly of the work being done in Salem towards organizing a chapter in this city, stating that as soon as papers now out were passed on, the prospects were good for organizing a Salem chapter. The banquet was held Tuesday evening in the University club, Portland, about 125 attending.
