Although the war in Europe has caused all of our materials and chemicals to raise in price, some nearly 800% and some are off the market entirely and cannot be bought at any price. We were lucky and bought a big supply before the raise, hence we can afford to make the following offer which only lasts until April 1st: For 25 days we will make photographs at just one-half our regular price. Nothing reserved. Same courteous treatment and careful attention given to all taking advantage of this offer this month. The plan is, simply pay one-half our regular price at time of sitting and when work is finished we deliver it to you without any additional payment.

The small samples received were submitted by me to our fabric company in London and their opinion was quite favorable. We also have other connections in Scotland and at Belfast and these firms would like to receive several tons of fiber. I will be in Oregon next summer when I hope to take this matter up again with you.
