JOFFRE AND HUMBERT COMMAND FRENCH FORCES IN GREAT BATTLE OF VERDUN

General Humbert (left) and General Joffre.

The two big leaders of the French in the terrific battle of Verdun are General Joffre, commander in chief of the French army, and General Humbert. General Humbert has received great praise for the skillful manner in which he has handled his troops during the long drawn out contest.

List of Minerals Found in Polk County

A partial list of mineral occurrences in Oregon has been compiled in bulletin form by the state university, in which eight minerals are reported as occurring in Polk county. All of them are in the black sands near Falls City. The bulletin is for free distribution and may be had by addressing the registrar, University of Oregon, Eugene. Eighty-nine minerals, with many hundreds of occurrences of these minerals are found in Josephine county, 49 in Baker and 33 in Jackson. Grant has 28 and Curry 25. The eight from Polk county are: chromite, magnetite, gold, monazite, garnet, olivine, quartz and zircon. Chromite is the source of chromium salts and is also used in making hard steel and for making brick to line smelter furnaces in some instances. Magnetite, which occurs in the black sands of the Pacific coast, is found near Falls City. It is an ore of iron strongly attracted by a magnet. Gold and monazite, the source of thorium, from which the Welsbach gas mantles are made, are two more. Garnet crystals, which are used for gems, are also used for abrasive purposes in finishing wood and leather. Perfect crystals are valuable as museum specimens. Olivine, which, when a clear variety, is called peridot, is used as a gem. Quartz is used for optical instruments. Quartz sand is good for glassmaking and as sandstone is used for homes and grinding stones. It is fused in electric furnaces for making heat-resisting "silica ware." The last of the minerals listed for Polk county is zircon.

CELEBRATE THEIR 40TH WEDDING ANNIVERSARY

The country home of Mr. and Mrs. S. W. Jones was the scene of a very pleasant and happy occasion, Sunday afternoon, February 27, it being the 40th wedding anniversary of Mr. and Mrs. S. W. Jones. The immediate family arranged an informal at home to surprise them. The floral decorations were red carnations, daffodils and violets. Light refreshments were served by the Misses Addie Tobie, Blanche Evans and Arta Jones.

AN INTERESTING COINCIDENCE WAS THAT

it was also the 25th anniversary of Mr. and Mrs. J. W. Fruit of Brooks. Many friends and relatives who could not be present sent congratulations and best wishes. Those who called to express their congratulations were the following: John Cutsforth and wife, A. E. Evans and wife, H. H. Booster and wife, Scott Jones and wife, Mrs. Rebecca Jones, Adelaide Jones, Mrs. C. C. Collard, Mrs. S. E. Thornbury, Sam Brown and family, A. E. Austin and wife, Ruth and Julia Bell Austin, L. K. Young Man Returns After Long Time Abroad

B. W. Bumphrey, one of Uncle Sam's boys, arrived at the home of his mother, Mrs. S. A. Fulton, Saturday, February 26, after an absence of four years and three months. Young Bumphrey enlisted in the navy at Portland, Ore., November 9, 1911, and remained at the training station at San Francisco until March 5, 1912, when he left on the army transport, "Thomas," for Asiatic Station. He arrived at Manila, P. I., March 30, and was attached to the submarine "A-2" until June 1, when he was transferred to the U. S. S. Helena, flagship of our navy in International Yangtze Patrol. He remained on this patrol of the Yangtze Kiang river until December 12, 1915. Bouts of this patrol perform service as far as Chengtu, 2,570 miles from the coast, and due to the European war, the U. S. boats are the only ones in service, all others being interned. Due to the fact that Bumphrey has always been of an inquiring turn of mind, and having the opportunity of three years, he has made an exhaustive study of the conditions of interior China. Readers of the Mail may remember a long letter from him published in December, 1912. After his enlistment had expired he returned to the U. S. via Manila, Guam, Wake Island and Honolulu, arriving at Bremerton, Wash., February 8, 1916. The distance he has traveled in naval vessels since leaving has run to the enormous total of 38,374 knots. Mr. Bumphrey gave an interesting talk to the Stuyton school Tuesday afternoon on his travels and more particularly "China." He also exhibited a collection of curios, relics, etc., that he brought home with him.—Stuyton Mail.

PRUNING DEMONSTRATION.

Arrangements have been made with the Extension Department of the O. A. C. for a pruning demonstration to be given on Tuesday, March 7, at the Woodburn Orchard (O.'s 200-acre apple orchard on Elliott Prairie, by Prof. Brown. Prof. Brown will precede his demonstration by a lecture at the hall, and then go into the orchard and give a practical demonstration of the work. Professor Brown is conceded to be the leading authority in the Northwest on pruning and all matters relating to the culture of apples. As there are many orchards in Marion county that need attention it is hoped that a large number will attend so that the benefits of the lectures and demonstration will be as widespread as possible. The lecture and demonstration will continue all day, beginning at 10 o'clock on Tuesday, March 7th, and will be held at the Woodburn Orchard (Company's 200-acre orchard at Elliott Prairie, five miles east of Woodburn.—Independent.

SCHOOL'S GOOD RECORD

In spite of the long duration of the snow and later the high water, Raybell school, District No. 137, did not take a vacation but continued school through the bad weather. The attendance for the month ending Feb. 25th was 93 per cent, while that of the preceding month was 92.3 per cent. Following are the names of the pupils neither absent nor late this last month: John Mays, Florence Ray, Nicholas Zenzen, Hubert Zenzen, August Zenzen, Kenneth Peterson, Frances Olson, John McNamee, Donald McNamee, Marietta Peterson and Norman Yeager. Miss Anna Ringnes of Silverton is the teacher at Raybell.—Woodburn Independent.

AGREEMENT OF FLAX TO BE INCREASED 200 ACRES FOR 1916

Board of Control Will Sell Seed To Eugene Farmers at \$2 Per Bushel

The farmers residing in the vicinity of Salem have contracted to raise 579 acres of flax next year which is an increase of over 200 acres over last year's crop when 369 acres were contracted for, according to the report of Secretary R. B. Goodin at the meeting of the state board of control held yesterday afternoon. To encourage the raising of flax in Lane county the board agreed to sell the seed to the farmers of that county at \$2 per bushel if the Eugene Chamber of Commerce would guarantee the payment for the seed. Warden Minto, of the state pen, was authorized to manufacture 2,000,000 bricks with convict labor at the prison brick yard to be used in some of the state buildings. Warden Minto also advanced a few ideas in prison management that he picked up on his trip to some of the best eastern prisons. Warden Minto recommended to the board that the prisoners be allowed commissions on their work and that a system of merits and demerits be established, also that black and white striped suits be provided for unruly prisoners. These recommendations were taken under advisement by the board. The board of control of the state of Washington sent a communication which stated that the Washington laws did not permit the exchange of insane patients between the two states but that an effort would be made to pass such legislation as would permit this exchange at the next session of the legislature. Superintendent Hale of the Boys' Training school was given authority to parole a number of the boys not at the school. Mrs. Esther Hopkins, superintendent of the Girls' school, reported that there were 40 girls at the school at present and 34 on parole and she recommended a parole officer to look after them. She was given authority to employ another instructor whose duties would include parole work. Miss Catherine Donu will be employed in this capacity. The reports from the various state institutions showed the number of inmates during the month of February to be as follows: State hospital for the insane, 1,617; state penitentiary, 576; feeble minded institute, 311; training school, 156; tuberculosis sanitarium, 74; state blind school, 37; industrial school for girls, 140; state deaf school, 97; eastern Oregon hospital for the insane, 381; state soldiers' home, 191.

OLD RESIDENT DIES

For nearly seventy years Mrs. Evadne Hiltbrand lived on the same farm where she died last Saturday, February 26th. Mrs. Hiltbrand was a daughter of Mr. and Mrs. Solomon Tetherow and Dallas, Kansas, born March 26, 1828. She crossed the plains with her parents in 1845 and settled with them on a donation land claim, on which part of the city of Dallas now stands. One year later she was married to Paul Hiltbrand and they took up a claim for themselves on the Luckiamute river, about three miles from Sevier. There she had lived ever since Mr. Hiltbrand died 25 years ago. For more than 25 years Mrs. Hiltbrand had been totally blind. Death was caused by pneumonia and the infirmities of age. She is survived by two daughters and one son, Mrs. La Vene Cottle, of Portland; Mrs. Martin Seaford, and James Hiltbrand, of Airlie. Two brothers and one sister also survive. They are S. H. Tetherow, of Fall City; T. B. Tetherow, of Independence, and Mrs. Martha Burns, of Dallas. Funeral services were held at the home Monday, conducted by Rev. H. Charles Dunsinger, of Independence. Interment was in the Smith cemetery at Lewisville.—Dallas Itemizer.

IMPORTANT TO THE JACKS

San Francisco, March 4.—Under determination of whether Fresno county Jack rabbits are "rodentia" or "lagomophora" will depend whether hunters can slay them. The state fish commission has given the jack rabbit whatever they're lagomophora—whatever that is—and therefore entitled to state protection.

GW JOHNSON & CO. TO MOVE INTO U S BANK BUILDING

Compton's Racket Store to Occupy Building at 141 North Commercial

G. W. Johnson & Co. announced today that their clothing store would occupy the room now in use by the Woolworth store in the United States National bank building about May 15. The Compton racket store will move from the present quarters in the Earlight building on Court street to the room to be vacated by G. W. Johnson & Co., and the Woolworth store will occupy a room in the new McGilchrist building at the corner of State and Liberty street. G. W. Johnson & Co. is one of the oldest established firms in the city and Mr. Johnson located in Salem about 34 years ago, moving here from Lebanon. The store opened for business at 141 North Commercial street, the present location, about 27 years ago. The firm is composed of G. W. Johnson, Sr., and his two sons, Clyde E. Johnson and Paul V. Johnson. Another son, Oscar M. Johnson, now deceased, was formerly associated with the firm but later opened up a store of his own which was sold out to Brick Brothers. The new store in the bank building will be entirely remodeled before it is occupied by the Johnson company. There will be two entrances, one from Commercial street and another from the main lobby of the building. The room is much larger than the present quarters of the company and will allow the firm to increase their stock and also permit a better display. The Johnson lease on their present store room has not yet expired and when negotiations were on with Mr. Compton, the latter asked if the back windows were absolutely burglar proof. He was assured that they were as nearly burglar proof as it was possible to make them and Mr. Compton stated that he was confident that in his present location of Court street no burglars could enter from the rear and that he slept with a feeling of security. Both stores were burglarized the same night, two days later, and in both cases the burglars entered through the rear windows. The proprietors of the respective stores concluded that it was a stand off and neither would boast of a burglar proof store in the future.

Denounces Papers For Printing Silly Story

Washington, March 4.—Denouncing the action of certain American newspapers in printing a report that President Wilson had resigned or was considering resigning, the White House today issued the following statement: "When Secretary Tamm's attention was called to a story appearing in certain newspapers that the president had resigned or was considering resigning, he said: "An American newspaper that would publish a story of that kind in a situation like the one now confronting the United States dishonors itself."

BORN FEBRUARY 29.

Miss Zorn will have only one-fourth of the usual baubles, rings, bracelets and the like, and who knows but that she will grow old only one-quarter as fast as the ordinary mortal, for, you see, Miss Zorn was born Tuesday, and Tuesday was the 29th of February, and the 29th of February comes only once in four years.

POLK COUNTY GETS FEW FISH

From the annual report of the state game and fish commission we learn that in 1915 the lakes and rivers of Oregon yielded the most, 1,390,430 while Polk got next to the smallest number, only 24,156. During the year 17 arrests were made in Polk county for violation of the game laws, in 13 of which convictions were secured. Lines totaling \$550 were collected in these cases.—Dallas Itemizer.

year and found that the indications were that the site on Marion street would hold up a concrete structure. However the board of viewers was authorized to investigate only the Center street location and submitted the partial report to await further instructions. The report follows: Any bridge erected on the Center street site will necessarily be supported on piers erected on pile foundations, such footings will carry a strong steel bridge but will not do for a concrete structure, except at prohibitive expense especially for a concrete bridge with a draw. The Engineers are unwilling to recommend the erection of a concrete bridge at this site, therefore unless otherwise directed your viewers will not cause plans and specifications to be prepared for a concrete bridge on Center street, we therefore submit the matter for your consideration and instructions.
