### You've Wanted a Range Like This---Here It Is

Every housewife in America has long dreamed of a range that would successfully burn coal or wood or gas or oil, singly or in combination. The Duplex-Alcazar is the first range to fully fill the bill. It is as near perfection in construction, operation and results as human brains and great manufacturing facilities can make it. Furnished in two types to burn coal, wood and gas, or coal, wood and oil as fuel. The Duplex-Alcazar is a year 'round range that conforms to every conceivable weather condition and every possible requirement of cooking. The change from fuel to fuel is made instantly. In its very simplicity lies its strength.

## Duplex ALGAZAR

You will recognize its unique merit when you see the range itself. Back of these ranges is the most progressive stove factory in America.

It does not involve stinginess, which is an abuse of thrift, nor does it require that each item of savings should be a financial investment. The money that is spent in the education of one's self or of one's family, in travel, in music, in art, or in helpfulness to others, if it brings real returns in personal development or in a better understanding of the world we live in, is in accordance with the spirit of thrift."
