TNEY DA TOMORRO

Read This Over Twice

For tomorrow, I am going to give the public of Salem a really real treat; a treat that you have never had and

one that you will never forget. Thousands of articles have been placed in this Jitney Sale, that are worth ten times the priced asked, but remember this; the prices only quoted in this ad are for Tuesday, March 14th, tomorrow only. In order to have all lines go as far as possible, I reserve the right to limit quanities to each customer, but take my advice and be here early. as I don't expect it will last the entire day. While some lines are heavier than others, although all lines are liberally represented, some original selling prices run up as high as \$2.00 and over. Especially in the millinery Department there'll be crowds, so come early. Open 9. a. m.

Silver Lake Lender: Veo. J. Angland and Jerry Ahena, sheepmen, who have been wintering their bands of sheep near Viewpoint, this reanty, were its town hat Sandby. They report the man as nearly, gene in that part of the decert, and that the deepest it has been at any one time this winter was eight inches, but that it drifted badly. They graduated from the University of Oregon in 1910, and for two years was graduate manager of student are good shape, and that their loss was a very small per cent. As far us they were all going through the winter in good shape, and south of them, they were all going through the winter in good stape and south of them, they were all going through the winter in

sive spectacles she ever witheseed. She mid the flag appeared to flutter with our minds are quite as active as in the moving of the clouds but remained former years but our strength does not in the tame form for some time.

Klamath Falls Herald: "As a result ofes as much as possible, the range op-demic in the Bly section is appairently ever. Incidentally there has been such a warfare carried on against coyotes in that district that they are practically extinct there," so may Clarence Muta-chenhacher, who has been associated with the government hunters in the

be increased one third, making in all

"SPEAR HEAD" AN OLD TIME **FAVORITE**

The Most Popular Chew for a Third of a Century

PURE, RICH, FRUITY-SWEET

The man who chews gets by far the most wholesome enjoyment and satisfaction out of tobacco, especially if he chews plug tobacco. The rich juices of the leaf are retained in good plugs better than in any other form. For more than a generation Spear Head has held first place as the favorite high-grade plug chewing tobacco.

This unique distinction is due solely to the wonderful quality and flavor of Spear Head-the richest, mellowest, tasticst chew in the whole world. Spear Head is the choicest of all

red Burley, hand-stemmed and made into mellow-sweet plugs in a perfectly clean, most sanitary factory. You can't chew the flavor out of

Spear Head, because it's a part of the tobacco. That rich, ripe, red Burley taste keeps on pleasing you as long as you keep on chewing.

Chew Spear Head and you'll be chewing the purest and most satisfying tobacco that it's possible to make. In 10c cuts, wrapped in wax paper.

Geary Gives a "Sendoff" To Fruit Auction System

Northwest Crop. Except Apples, Could Be Handled Better if There Were Central National Clearing

and their name. Was a suggestion to received great applature.

It was decided to send a delegation weather to the state legislature to fruit growing in the northwest more that Washington's birthday be profitable, have just been outlined for is a school horiday, as well as a let he students in industrial and commer dislay.

following reports were received in morning session: By regents; omah, Mrs. James N. Davis; Wilder of the ensure markets under the control of the ensure markets under the direction of fruit metion advocates in levi E. Tracy: Oregon Lewis and

central national clearing bease for all fruitgrowers' associations to the com-

signed to eastern agents, who compet-with each other in submitting prices for

ont; magazine, Mrs. E. S. Par-tions should ship evers cost to be sold iven of the American Revolu- at ametion by directly connected agents; that the process would the

were able to learn concerning the other hands cust and south of them, they were all going through the winter in good shape. These min say the genoes in the Viewpoint country are starting to grow, and that the losses among the horses there will not amount to my thing to spenk of.

Pendleton Tribune: Residents in the Three Mile section say an musual phenomenon in the sky last eight. The clouds formed a large flag, with six white stripes and seven dark mess. In the northwhest corner of the stripe formation there were immunerable stars. The "flag" ran morth and south, and was losated in the creek, and the "flag" was plainly marked and was one of the most impressive spectacles she ever witnessed. She

AS WE GROW OLDER

former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, of muzzling dogs, confining earths and rheumatic pains or stiffened joints horses, and shooting or polsoning coy beset us, and we cannot easily throw off the colds that winter being

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific oil-Oregon City Entermise: Twenty-six more muchines will be installed in the garment department of the Oregon City woolen mills Mooday, according to Superintendent H. P. Tschirgt, This means that the output of this department will seem that the output of this department will seem to be superintended to the seasons of the seem of the
