### SHIPPING ON SOUND TIED UP BY STRIKE

More Than 400 Walk Out When Demand for Increase Is Refused

Seattle, Wash., Mar. 21.—Practically every steamer plying between Puget Sound ports, inside of Cape Flattery is reported tied up today unable to load or discharge freight, as the result of a general walkout of employees. More than 400 firemen, clerks, deck hands, waiters, porters, cooks, watchmen, pantrymen and messmen, are on strike, demanding wage increases of from \$5 to \$15 a month, 50 cents an hour for overtime and improved conditions of labor. But three steamers are reported running out of this port to neighboring points. They are the Tacoma, on the Seattle-Tacoma run, and the Kuluhan and the Wainalele. The Kuluhan's crew has been replaced with negroes, it is reported. Demands on all steamship companies were presented by the Puget Sound Steamship Men's union at 4 o'clock yesterday afternoon. They were refused. Deckhands are demanding increases in wages from \$40 to \$50 a month. Overtime rates are demanded for all work performed except between the hours of 8 a. m. and 5 p. m. and for Sunday and holiday work.

### Germans Trying Flank Movement Make Small Gain

(Continued from page one.)  
ed. The Germans escaped into Zeelburg after a running fight.  
This clash was the first in weeks. It is believed the German vessels either emerged from Zeelburg or dashed along the coast of Holland from Heligoland. Incoming skippers reported mist overhanging the English channel and the North sea.  
The German admiralty's statement said the Teuton destroyers scored several hits. Then, said Berlin, the British vessels fled.

### ALKALI MAKES SOAP BAD FOR WASHING HAIR

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.  
The best thing to use is just plain unsifted coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.  
Simply molten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.
