How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of granulated sugar with 1/2 pint of warm water, stirred for 2 minutes, makes you as good syrup as money-can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This gives you at a cost of only 54 cents, a full pint of really better cough syrup than you could buy ready made for \$2.50—a clear saving of nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquests it in 2 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and leads and soothes the inflamed mem-brane in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated com-pound of genuine Norway pine extract, combined with glycerol, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money prompt-ly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

NELSON RE-ELECTED HIGH SCHOOL HEAD

Dr. Carl Doney Will Deliver Annual Commencement Address June 2

J. C. Nelson was re-elected principal of the Salem high school at the meeting held last evening by an unanimous vote at a salary of \$1425 a month for the 12 months following July 1, 1916. Mr. Nelson is now serving his second term as principal of the school.

Miss Margaret Cosper was also re-elected supervisor of the elementary schools at a total salary of \$1,200 for the 10 months' work. Miss Cosper has been associated with the Salem schools longer than any of the present teach-ers.

Dr. Carl Gregg Doney, president of Willamette university, was chosen by the board to deliver the address at the commencement exercises to be held June 2. After discussing various speakers who might be asked to deliver the ad-dress, the board decided that as long as Salem was the home of a speaker of the ability of Dr. Doney, there was no need of going outside the city. Any-how, the board believes in the slogan "Try Salem First."

A report was read by Dr. O. B. Miles, school physician, of the analysis of wa-ter from the McKinley and other schools. All were satisfactory excepting from the McKinley, and the board appointed the building and grounds committee, acting with Chairman Miles to take immediate action to secure a water supply that would be satisfac-tory.

A request was presented to the board asking permission to raise potatoes in one corner of the athletic field, but as this was rather contrary to the policy of the board, the request was not con-sidered. But the athletic field did com-e in for its share of the good things as the board voted to spend \$75 on a cin-der path, an improvement that was recommended by Coach Clancy.

Miss Emily J. Griffin, physical in-structor for the girls of the high school, was elected for the remaining two and three-fourths months at a salary of \$80 a month. Miss Griffin was formerly in charge of the girls' physical work in St. Helens hall but when this school was damaged by fire last fall the phys-ical culture work for the girls was dis-continued.

Market Is Restrained In Wall Street Today

New York, Mar. 28.—The New York Evening Sun's financial review today said:

Although there was no confirmation in overnight Washington news with regard to reported offers of apology and reparations from Germany for the Susex affair, the incident lost some of its force and effect with professionals and recoveries in war stocks and specialties continued.

Enough uncertainty remained, how-ever, with regard to diplomatic relations in Mexico to restrain the market. Aside from a few issues pools were favored and the early improvement was limited.

War stocks opened unchanged and became stronger. Crucible steel, American locomotive, Goodrich tire and International nickel were featured. Steel was lower but recovered and ruled during most of the session at small fractional advances.

The late trading did not change the situation. Business was contracted and activity confined to a very few issues which moved uncertainly. The general tendency was heavy and some early afternoon improvement was felt. Bethle-hem steel declined 20 points in limited dealings.

ROBBERS ARE TRAILED

Salt Lake City, Utah, Mar. 27.—Blood hounds from the state prison today at-tempted to trail a bandit who held up train No. 1 of the Oregon Short Line near Roy, Utah, 30 miles north of here Sunday, and took 31 pieces of registered mail. The robbers trail led across open fields toward Salt Lake City. Officers believe the fugitive is trying to reach town and hide there.

Villa's Whereabouts Not Precisely Known

By E. T. Conkle,
(United Press Staff Correspondent.)
El Paso, Texas, March 28.—Francisco Villa's exact whereabouts was unknown to officials this afternoon. General Gavira, believing he was marching southwest toward Minaca said indications were he was splitting up a band, probably intending to reunite them at some selected rendezvous.

General Bertani wired from Madera that the situation in the Casas Grandes district was quiet. Gavira would not discuss reports that American officers had not been permitted to use the Mex-ico Northwestern telegraph lines to the border for personal messages to their wives and sweethearts.

Run-down? —Tired? —Weak?

Every spring most people feel "all out of sorts"—their vitality is a lowebb. Through the winter months shut up a great deal in heated house, office, or factory, with little healthy exercise in the great outdoors—eating more than necessary—the blood becomes surcharged with poisons! The best Spring medicine and tonic is one made of herbs and roots without alcohol—that was first discovered by Dr. Pierce—years ago. Made of Golden Seal root, blood root, with glycerine, it is called Dr. Pierce's Golden Medical Discovery. Ingredients on wrapper. It eliminates from the blood disease-breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health.

Sold by medicine dealers, in liquid or tablet form, or send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for a large trial package of tablets.

WHEN "RUN-DOWN."

Salem, Oregon.—"As a spring tonic, to build up a weakened, run-down system, and to give one an appetite, I found Dr. Pierce's Golden Medical Discovery good. A friend had recom-mended it and I found it all that she claimed for it."—MRS. JAKE GIBBER, 1506 S. Bellevue Street.

Constipation causes and seriously aggravates many diseases. It is throu-ghly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three a cathartic.
