GERMANS TRAIN AFRICAN SAVAGES TO FIGHT BRITISH

Sensational Report Brought By Returned Mining Engineer

San Francisco, Mar. 28.—Sixty thousand savages trained by German military leaders are waiting in the jungles of German East Africa for a battle with British troops for the possession of the country. This was the report brought here today by J. K. Eaton, wealthy mining engineer, who came to San Francisco on the liner Sierra from South Africa. "The English had thousands of soldiers rushing a railroad from British East Africa to German East Africa when I left there five weeks ago," said Eaton. "For months German leaders have been putting the savages under military training. They will fight to the last ditch but I believe the British are too powerful. They have an immense army ready to be transported over their new railroad. "The Transvaal country has been the scene of a half dozen anti-British uprisings."

DR. ARTHUR WAITE WILL CONFESS THAT HE IS THE POISONER

Defense Is Expected To Rely Solely On Plea of Insanity

New York, Mar. 28.—District Attorney Swann today summoned Mrs. Margaret Horton to question her with regard to Dr. Arthur Warren Waite's alleged poisoning of John E. Peck, his wealthy father-in-law. She was accompanied to his office by her attorney. Before calling her, Swann ordered a piercing investigation of her career. He said he wanted an answer to the question: "Why has she retained an attorney if her relations with Waite were blameless? Why had she rented a studio room at the Plaza hotel with Waite for the study of French?" Swann reiterated there was no evidence showing her to be connected with the alleged crime. Waite's condition was improved this afternoon and he was scheduled to repeat in the presence of a stenographer the confession he is said to have made to his brother, Frank, admitting poisoning Peck. "Waite is a monumental, scientific poisoner," said Swann today. He believed the accused man purchased cultures of typhoid and tuberculosis germs for the purpose of infecting Peck so a cursory examination after death would indicate he had fallen victim to some disease and not to arsenic poisoning. In addition to being a poisoner, Swann asserted he had evidence indicating that Waite was also a bigamist. He would not say who his other wives were. It is known because the police that Waite was a confidential friend of four wealthy New York women. Their names are withheld.

Villa Hard Pressed Is Latest Report

(Continued from page one.)
No Outbreaks Reported.
Galveston, Texas, Mar. 28.—Wireless messages from Tampico today said there had been no anti-American outbreaks there, but fear of them persists. The Gulf Refining company's yacht left for Port Arthur with the wives and children of Tampico oil men who were afraid to remain longer among the Mexicans.
Censor Cut Dispatch.
Columbus, N. M., Mar. 28.—(Censor deleted 150 words.)—Several carloads of rifle ammunition were unloaded here during the night.

of the College Bureau of Organization and Markets. Great importance is attached to this conference, since it is expected that plans for co-operative marketing will be worked out in a way that will meet the special needs of the horticulturists of the North Pacific section.
Of Grants Pass and its people the Courier asserts: "There are more industrial developments now under way than any community in Oregon has ever welcomed in a single season. There was never a time when the spirit of Grants Pass was better or when co-operation was practiced to a greater degree than during the past few months."

SPOKANE CONFERENCE TALKS PREPAREDNESS

Senator Poindexter Sends Paper—Good Roads Also Discussed

Spokane, Wash., March 28.—In a paper sent to the Northwest Conference on Preparedness and read by the Chairman today, Senator Miles Poindexter urged that the recommendation for an increase in the navy, made by the naval board, be followed as far as possible. "A practical proposition, however," said the paper, "is the most we can obtain at this session. This probably will be the adoption of the five year building program recommended by President Wilson and Secretary of the Navy Daniels. "It is to be hoped that by some international agreement which must be proposed and conducted by the executive branch of government, we can come to some agreement with foreign nations for limitation of naval armaments on some basis would leave the United States in a relatively good position. "Without such an agreement, it is the right of folly for the United States to proceed alone and without regard to international conditions to limit its own naval armament on the theory that there is to be no further use of naval power. "Under the circumstances," concluded Senator Poindexter, "unless we have requisite naval strength, we cannot maintain peace even by the surrender of our most priceless national privileges. "The problem of good roads and preparedness were linked today in the conference when E. P. Mathewson, president of the good roads association and the automobile association of Montana emphasized the importance of a permanent network of highways for military purposes. "Permanent highways and good roads as a part of preparedness," was the topic to which he was assigned. As general manager of the Anaconda Copper Mining company's reclamation works, Mathewson has indicated that company to match dollar for dollar with several counties in Montana to build permanent roads. "The action of the war department in ordering army officers not to participate actively in the conference had little effect today. Lieutenant Colonel Baker, though he spoke as a private citizen, was thought to have voiced the sentiment of army officers in general when he spoke yesterday. His utterance had time to sink deeply into the minds of the 150 or more delegates before the telegram arrived from Washington excluding officers from the conference. Many officers were in attendance today, but none participated in the speaking. The conference will end tonight. The Junction City "Punkin" show, which has been an annual affair for several years past, has been incorporated.

Railway Transportation Will Be Investigated

Washington, Mar. 28.—Early consideration by the house of the senate joint resolution providing for an investigation of railway transportation conditions was urged today in a letter President Wilson wrote to Representative Claude Kitchin. "The railways are becoming more and more a key to the country's successful industry," the president wrote. "It seems to me of capital importance that we should lay a groundwork of actual facts for the necessary future legislation. I know we all want to be absolutely fair to the railroads. It seems to me that the proposed investigation should be the first step toward fulfillment of that desire."
Washington, Mar. 28.—Voting 373 to one the house today passed the army deficiency bill appropriating \$8,600,000 to cover the cost of the American expedition into Mexico and enable the war department to recruit the army to full strength, buy airplanes, motor trucks and equipment. Representative Merwin London, socialist, of New York, was the only member casting a negative vote. The house's action is taken as congressional endorsement of the move against Francisco Villa.

How German Surgeon Won His Freedom

San Francisco, Mar. 28.—Amid dramatic circumstances, Dr. Carl Werner won his freedom from an Australian internment camp by operating on a wounded British officer and proving he was a surgeon. Physicians are immune from internment. Telling the story today Dr. Werner, who arrived on the liner Sierra, said he was incarcerated for 11 months. Having lost his papers he was unable to prove his profession until the officer arrived from Gallipoli so seriously injured that only a most delicate operation would save him. Dr. Werner got permission from the camp authorities and performed the operation while other surgeons and his guards watched critically. The operation was successful and Dr. Werner, his wife and child, were permitted to depart.

Candidates Offer Remedy For All Legislative Evils

Among the candidates who filed today are: Denton G. Burdick, of Redmond, candidate for nomination by the republican party for the office of representative in the legislative assembly, 21st representative district. Robert Tucker, of Portland, candidate for nomination by the republican party for the office of circuit judge, fourth judicial district, department no. 3. L. F. Conn, of Lakeview, candidate for nomination by the republican party for the office of circuit judge, fourteenth judicial district. Albert W. Mueller, of St. Helens, candidate for nomination by the republican party for the office of representative in the legislative assembly, 20th representative district.
