Redding, Cal., April 6.—Mount Lassen showed evidences of renewed activity today.

Smoke and steam were emitted from the crater at intervals from daylight until noon. This is the liveliest outburst of the volcano since November 26, 1915. Snow is melting near the top. This fact, together with spasmodic outbursts all morning, make observers believe Mount Lassen is coming back on the firing line.

"Hello Ross", said Kaiser. "Howdy Bopp", said King

San Francisco, April 6.—Fresh international complications were not in sight today as the result of a meeting between George, king of the United Kingdom of Great Britain and Ireland, Lord of the dominions beyond the seas, Emperor of India, and Wilhelm, Kaiser of the German empire and King of Prussia, in the ferry building last night.

Of course these potentates didn't do the meeting in person, but their representatives did. King George's proxy was British Consul General Carnegie Ross, while the kaiser's representative was German Consul General Franz Bopp. Both were on their way home, with arms full of bundles.

"Hello Ross," said the kaiser's emissary. "Howdy Bopp," replied the agent of the king.

They then talked about one another's families, told jokes and remarked on the weather while scores of other commuters stared.

Miss Vera McMillan returned to her home in Salem a few days ago after spending three weeks visiting with the family of A. C. Bohrastrand, at Macleay.

HYGIENE SOCIETY TO MEET HERE SUNDAY

Prominent Speakers to Address Audience at Armory Sunday Afternoon

Prominent men throughout the state have become greatly interested in the work of the Oregon Social Hygiene society and many have devoted considerable time to the work without remuneration.

Among these who have been active in the work are such men as William F. Foster, Adolphe Wolff, William F. Woodward, Dr. Calvin S. White, L. R. Alderman, President Kerr of the O. A.

Social Hygiene Talk for Men at Columbia Gold Mining Company in Eastern Oregon.

Volunteer Speaker of the Society Talking to the Men of Large Manufacturing Concern on Company Time.

C. President Campbell of the University of Oregon, and others who are interested in improving present conditions.

Speakers who have gone out into all parts of the state have freed many discomforts of travel in sparsely settled districts but they have done this work cheerfully.

Employers of a large number of men have asked for speakers from the Hygiene society, realizing that improved physical conditions tend towards improved working conditions. These employers were glad to have experts speak to their men on facts of life.

Many expressions from prominent citizens attest the value of the meetings for men and women. In a city where meetings were held, the mayor declared that the work of the society would be of lasting benefit to the community in general.

A meeting of the Oregon Social Hygiene society will be held in the armory Sunday afternoon at 3 o'clock when speakers of state-wide reputation and well known physicians will deliver addresses. Governor Withcombe will preside.

STATE FORESTER HAS ISSUED HIS REPORT

Contains Much Valuable Information As to Fires and Work of Foresters

The fifth annual report of the state forester of Oregon, F. A. Elliott, has recently been issued by the state printing department. The report gives interesting information on what is being done to protect the forests, fire losses for 1915, improvement work, slash burning and what has been done to patrol the forest especially where owners fail to provide protection.

The state employs 27 wardens, according to the report, whose duty it is to enforce the forestry laws and supervise the patrol and fire fighting work of the several counties. Fourteen of these wardens served in counties where patrol associations had been organized.

In Marion county, one warden was employed by individual timber owners, two by associations, one by the state without compensation during 1915. A total of 154 fire wardens were employed by patrol association, and 107 by individual timber owners, the latter serving where no associations exist.

In Marion county, \$1,223.19 was expended during the year 1915 by associations in fire patrol, \$352.23 by the state and \$156.25 under the federal Weeks law, making a total of \$1,831.77 spent in patrol and improvement work on the Marion county forests for 1915.

Although there was a total loss of \$29,109 during the year, the loss in Marion county was practically nothing. While there is a record of seven fires, these only covered 162 acres of out-over land and old burns.

The sum of \$16,504 was spent in fighting fires during the year and here again Marion county fared very well, as the report shows that only \$51.25 was expended in the county and this was by associations.

Old trails extending 26.25 miles were opened in Marion county at an expense of \$88, while one and a quarter miles of new trails were opened at an expense of \$23.25. Also a mile and a quarter of telephone line was built in the county at an expense of \$84.05. Three cabins were constructed at total expense of \$45, making a total of \$134.40 spent in Marion county during 1915 for improvement work by patrol agencies.

paid its just proportion of protection costs. In addition to adequate patrol, the law has made funds available to promptly handle all fires occurring in timbered districts.

To Build Up—After Grippe, Colds—Bad Blood

Take a blood cleanser and alterative that starts the liver and stomach into vigorous action, called Dr. Pierce's Golden Medical Discovery because of one of its principal ingredients—the Golden Seal plant. It assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint. Start to take it to-day and before another day has passed, the impurities of the blood will begin to leave your body through the eliminative organs, and in a few days you will know that the bad blood is passing out, and new, rich, pure blood is filling your veins and arteries.

Get Dr. Pierce's Golden Medical Discovery to-day from any medicine dealer, in tablet or liquid form, or send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., ten cents for trial package of tablets.
