COURT HOUSE NEWS

The jury in the case of Jake Moser against H. A. Humphreys and J. F. Humphreys returned a verdict in favor of the plaintiff against the defendants giving the plaintiff a judgment in the sum of \$172.25 with interest and the further sum of \$25. This was a horse trade that was pulled off near Silverton last year in which Moser sold a mare to the Humphreys for \$250 and they paid \$50 down when they received the horse. Later they said they found the mare to be a "kicker" and they returned her to Moser, who then demanded \$75 difference in the price of the horse. He brought suit to collect on the balance of the note for \$150 with interest.

The jury in the case of the state against C. W. Scott returned a verdict of guilty and charged in the indictment of the court asking that the minimum penalty only be imposed. It was charged in the indictment that Scott, who is a Court street second hand dealer, sold a pocket pistol to Pascal Traglio without a permit.

The case of the state against E. N. Tracy, charged with selling wood at a greater measure than its true measure, went to the jury late this afternoon after the arguments by the state's attorneys and Attorney Carey P. Martin for the defendant. The case of G. H. Tracy on a similar charge, was next called in department No. 1 of the circuit court.

An inventory and appraisement filed in the probate court today in the estate of Mary Irmen shows the estate to consist of city lots in Butteville valued at \$400. The appraisers were W. R. Scheurer, Randolph Woolworth and Andrew Johnson.

Music of Canary Birds

"Hath No Charms" If It Is Continuous

Intimating that it is all very nice to wake up in the morning and hear the little birds sing if there is only a few of them, but when it comes to living in a canary bird rookery that life is no glad sweet song, Hazel Mosher today filed a suit for divorce in the circuit court of this county against her husband William F. Mosher. She also states in her complaint that her husband represented before their marriage that he was a reputable business man and had a business reputation and good credit. She further says that this was a mistake because he bought her engagement ring on the installment plan and that she had to give it up to the collector after they were married.

The couple were married in this city December 23, 1914, and have one child, Maurice L. Mosher, aged five months. She charges cruel and inhuman treatment by reason of being compelled to live in a house where canary birds were being raised for the market. She asks for \$100 suit money and \$50 attorneys fees and the custody of the child.

"Sanitary" Is Making

A Splendid Showing

(Continued From Page One)

scrubbing themselves with a special medicated soap. Every camp is made near a water course. The farthest point upstream is reserved for human drinking purposes. Every drop of water that goes into kitchen or canteen is dipped out in tin cups from midstream. Horses and mules are watered further down. The danger of sickness is further minimized by wells dug for the drink-

ing supply. A river is doubtful and the water must be tested frequently. Well water is not likely to be infected, especially if the soldiers dig their own shafts.

There is light danger of typhus in this latitude. Further south the disease has ravaged the native population. As a precaution, however, no man is allowed to go near the Mexican towns. In cases where it is necessary for messengers to enter settlements they always bathe immediately upon their return.

The average of illness in foreign service has been four per cent. If the army's present health continues the expedition will have established another mark for health in a country where, officers agree, the average of sickness might have been very high.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. You can now get the relief and help that mustard plasters gave, without the plaster and without the blister.

MUSTEROLE does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage MUSTEROLE in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

And there is nothing like MUSTEROLE for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pileitis, Rheumatism, Lumbago, Pains and Aches of Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.
