WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't Eat Bite of Breakfast Until You Drink Glass of Hot Water

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve-wrecks," "brain-fags," and pessimists, there should be a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations, a bad poison, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change to both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

CHAMBERLAIN WINS

Washington, April 7.—By a vote of 34 to 34 the senate late yesterday retained Senator Chamberlain's volunteer reserve clause in the army bill, defeating the Lee amendment.

The Low Spread Spreader Will Appeal To You

EVERY detail in the construction of the Low Spread manure spreader, you will be certain when you have examined the spreader, was designed because it increased the efficiency, the strength, or the simplicity of the machine.

Thus, it is built low—only waist high—to save you a vast amount of energy. It is built of best steel, except for box siders, apron slats, etc., to make it stand all strain and all loads for years. The end gate to keep the beater from clogging, the heavy steel rear axle, the shields to cover working mechanism, the extra strong beater and apron drive mechanism, all tend to give you many years of perfect service.

But you cannot really appreciate the features that have built up Low Spread reputation until you go over the spreader yourself. Come in and examine it as thoroughly as you like.

GUARDING NEW ALMADEN

San Jose, Cal., April 7.—As a result of anonymous threats, guards have been placed around the properties of the New Almaden Quicksilver Mining company near here. The plant is turning out material used in the manufacture of ammunition.

Electric lights have been installed and strangers are being challenged. Since the war's outbreak the price of quicksilver has jumped from \$25 a flask to \$250. The Almaden mine is one of the world's largest, and is working 24 hours a day, with three shifts, on war orders.

PUGILISM NOT WORK

Oakland, Cal., April 7.—Boxing is not a job in the opinion of the Oakland police. Recently Albert Monez, a prize fighter, was ordered to find a job and get to work. Monez refused on the grounds that his occupation is boxing. That the police of Oakland do not consider pugilism a legitimate occupation was evidenced today when Monez was jailed on charge of vagrancy.

TO PREVENT FLOODS

Washington, April 7.—An appropriation of \$5,000,000 will be made to relieve flood conditions on the Sacramento river when the General bill under consideration by the house flood committee is passed. The sum of \$45,000,000 will be appropriated to halt Mississippi river floods.

Villa Has 2000 Men Near Parral and Will Fight

(Continued from Page One.)

al of all American troops from Mexico was without foundation, as far as official messages indicated. Once Carranza asked how long the expedition proposed a piece of string? "a" said one army of into Mexico it intended to march, but the question was not answered and Carranza did not repeat it.

The supply problem is the most vexatious, though the war department suggests motor trucks will successfully cope with the situation even if Mexican railroads are not opened for American use.

Three thousand "rookies" will soon head for the border. It was learned, to remain below the border and how far new doing border patrol duty should the Villa pursuers urgently need reinforcements.

Negro Troopers Got Them

By H. D. Jacobs. (United Press Staff Correspondent.) U. S. Army Headquarters, Dublin, Tuesday, by motor to Columbus, N. M., April 7.—Details of the American victory at Aguas Calientes last Saturday have just arrived here by mounted courier.

In a narrow valley 30 miles southeast of Bachajon groups of bandits snatched around their camp fires before the United States cavalry arrived, said the advisers. Their emblems of frioles were bobbing and stripes of "jerky" were waving on the coals. Other outlaws lolled on dirty blankets, hewing themselves mending harness or cleaning guns. The scene was military, but peaceful.

The men comprised a band formed of those scattered by Colonel Erwin's troopers at San Gerónimo three days before. They felt they had earned a rest, and were enjoying it. They had no thought of combat. Many rifles were strapped to the mule packs.

Encamped as they were at an altitude of a mile and a half the air was rather chill, but the sun came out brightly at noon after days of snow and rain, and the weary Villistas basked contentedly in its rays.

Without warning, a cyclone of negro cavalrymen led by Colonel Brown charged pell-mell down the steep slopes into the startled camp. The thunder of their horses' galloping hoofs was punctuated by the cracks of rifles, the shrill yells of little mad men.

A score of Villistas had tumbled into the bloody dust before the Americans reached the camp's outer rim. Twenty more corpses lined the route of their retreat.

They met the Americans with a harmless, scattering volley. Those unable to reach their horses leaped into the tall grass like rabbits. Lost in the dense undergrowth and the rocky arroyos they quickly escaped. A few mounted bandits spurred south into San Antonio canyon, the negroes of the Tenth pursuing them 50 miles until the last Mexican was lost to sight.

This was the first encounter in which negro troopers figured. Manuel Brax, Villa's lieutenant, was reported among the slain.

Ten Bandits Killed

Washington, April 7.—Americans and Villistas fought a third engagement last Tuesday, dispatches to the war department declared today. With Carranzistas co-operating, United States forces defeated the bandits, killing 10 and capturing 2. The battle occurred near Genegilla.

The same message to the war department confirmed reports of a fight at Aguas Calientes Saturday.

Colonel Leteher at Chihuahua City reported Colonel Brown's troops had been living for two weeks on beef and corn, but that a mining company made fresh supplies of food and money available for the soldiers, sending a train from the border to a point near where the Americans are stationed.

A "rumor" of Villa being wounded, he announced was still in circulation. General Gutierrez is keeping Leteher informed with regard to the position of Carranzistas forces.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat If Kidneys Feel Like Lead or Bladder Bothers You—Meat Forms Uric Acid

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flesh clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Woman's Body Lays Ten Days In Cottage

Livermore, Cal., April 7.—For ten days the dead body of Mrs. N. N. Holmes has been lying just where she breathed her last in a little cottage here, still gauding in death \$15,000 hidden in walls and floors, which she so carefully watched over in life.

Neighbors found the remains after Mrs. Holmes had been dead for some time. By her side a will was discovered. It left a \$50,000 estate to a son, Dr. Horace H. Holmes, of Canandaigua, N. Y., and directed that no person touch her body until he arrived here. This document also told where the gold was hidden.

Dr. Holmes has been notified and the town authorities have appointed a man to watch the house night and day so the body will not be disturbed. Mrs. Holmes was 87 years old. She had lived in the house ever since the civil war, and neighbors say she has only been outdoors three times in the past 12 years.

THE MARKETS

The following prices for fruits and vegetables are those asked by the wholesaler of the retailer, and not what is paid to the producer. All other prices are those paid the producer. Corrections are made daily.

Eggs are showing some firmness and several of the city grocers were paying 17 cents this morning. This firmness is caused by the storage interests of Seattle and Tacoma buying heavy.

Otherwise, the market is absolutely dull. With no transportation facilities on water and the farmers not willing to sell, the general markets are without life.
