

Tone THAT'S WHERE THE VICTROLA IS PRE-EMINENT.

There is no doubting, no questioning Victor supremacy. To know of the superiority of the Victrola over all contenders, it is only necessary to make comparisons — Victrola tone is perfect; Victrola finish superior to all others; Victrola mechanism and finish are characteristic of all Victrola products — the very best. Every Victrola owner is a music-lover and satisfaction is his portion. Our particular pride is that the superior service we offer in our Victor departments has made ours the most popular Victor stores in the West.

VOTERS WILL SHOW PRESIDENTIAL CHOICE AT THE PRIMARIES

Justice of the Peace May Be Elected In All Districts of County

The election notices which were sent out for posting today by the county clerk show that Marion county voters will have the opportunity to make 37 crosses on their ballots on May 19 at the primary elections. The members of the Progressive party will vote for but 33 since they have two less delegates in the national convention and one less delegate at large.

The notice for the Salem Justice district contains the space on the ballot for one justice of the peace. There is a wide difference of opinion as to the length of the term of the justice of the peace. The officials elected in 1914 are held by some authorities to have been elected for a six year term while others hold that the justices of the peace are elected for but two years. The county clerk states that it is not for him to settle the question and that since no harm can be done by allowing the electors to vote for their selection for this office they will be allowed to do so while considerable harm can be done by leaving the names off the ballot in the event that the court should decide that the term for the justice of the peace was for but two years.

The full list of officials to be elected in this county follow:

- Five electors of president and vice-president of the United States.
- One representative in congress, First congressional district.
- One secretary of state.
- Two justices of the supreme court.
- One dairy and food commissioner.
- One commissioner of the public service commission of Oregon—district comprised of counties lying west of the Cascade mountains.
- Two judges of the circuit court, Third judicial district.
- Five representatives in the legislative assembly, First representative district.
- One district attorney.
- One county clerk.
- One county sheriff.
- One county assessor.
- One county superintendent of schools.
- One county recorder.
- One county treasurer.
- One county surveyor.
- One county commissioner.
- One county coroner.
- One constable (for each justice district).
- One justice of the peace (for each justice district).

Republican Party.

Four delegates to the republican national convention—state at large. Two delegates to the republican national convention—First congressional district. One committeeman for the above named precinct.

Democratic Party.

Four delegates to the democratic national convention—state at large. Two delegates to the democratic national convention—First congressional district. One committeeman for the above named precinct.

Progressive Party.

Two delegates to the progressive national convention—state at large. One delegate to the progressive national convention—First congressional district. One committeeman for the above named precinct.

Also at the primary nominating election, May 19, the republican, the democratic and the progressive parties will have an opportunity to vote their preference for the choice for one person to be the candidate for the nomination by their respective political parties, for the office of president of the United States, and for one person for the office of vice-president of the United States.

Prune Growers Will Meet Here Tomorrow

A meeting of the members of the prune growers of the Salem Fruit union was called for Saturday afternoon to act on setting a closing date for the 1916 prune pool. Crop reports from all sections and market reports will also be read and discussed. The blooming season of California prunes gave promise of a big crop and many dried fruit packers began to sell for future delivery out of the coming crop. Due to frosts in California, within the last two weeks the market has been stiffening.

Plans are on foot in California to form a state wide prune growers association similar to the associated raisin growers, which now has contracts for 154,000 acres, within 20,000 of the total raisin acreage of the state. This association in California has 7,500 members and maintained the price of raisins last year, notwithstanding there was an extra large crop, according to Robert C. Pauling, manager of the Salem Fruit Union.

Today there will be a meeting at San Jose, California, of the state prune growers with the object of organizing similar to the raisin growers. On account of the prospects of such an organization being formed, speculative packers in prunes have withdrawn. The Salem Fruit union is getting fruit pools formed and has already lined up quite a large acreage.

and business was the object of the Arctic trip announced today. An attempt will be made to bring back a skeleton of a bow head whale for the New York museum of natural history.

DRINK WATER TO AVOID SICKNESS SAYS AUTHORITY

Glass of Hot Water Before Breakfast Daily Keeps the Doctor Away

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, spitting acidities, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing and sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank-up on the subject of internal sanitation.

Funeral of Mrs. Chadwick to be Held Here Saturday

The funeral of Mrs. Jane Ann Chadwick, who died yesterday morning at the home of her granddaughter at Winlock, Washington, will be held Saturday afternoon at 2:30 o'clock from St. Paul's church. The Rev. Robert S. Gill will conduct the services and burial will be in the Odd Fellows' cemetery.

Marion County Boy with the U. S. Marines

Experiencing that peculiar pride that is felt by the trained marine when he is brought to a full realization of the responsibility that rests upon him as the defender of his country's flag, Francis J. Stewart, of this city, a recruit in the United States Marine Corps who has, for the past few months, been undergoing a course of instruction in the drills, duties, etc., which would make him a full-fledged "regular," was recently "turned over to duty" and transferred to the marine barracks, San Diego, Cal., where he is being held in readiness for transfer to expeditionary, sea or foreign duty. Francis, who is a son of Mrs. Ann Stewart, R. F. D., No. 2, Salem, enlisted in the United States Marine Corps at its Seattle recruiting station on December 2, 1915.

Bayne Building Is Damaged by Night Fire

The Bayne building on State street between Commercial and Liberty street was damaged by fire last night which broke out at about 11:10. The fire started in one of the wood closets in the rear of the building and the corridor leading to the closet was badly charred. The skylights and glass doors and windows were broken out by the heat and the plaster was knocked off in several places. The damage is estimated at about \$500 by John Bayne who has charge of the building and the loss is fully covered by insurance. The building is the property of Mrs. George Bayne.

It is not known how the fire started though it is possible that a cigarette may have been dropped in the closet several hours later. The alarm was turned in by Patrolman Murr.

ROSEBURG TO VOTE AGAIN ON BUILDING RAILROAD

Roseburg, Or., April 14.—The people of Roseburg will vote on a new contract for the timber railroad with Kendall Brothers, to be embodied in a charter amendment. The new contract provides the straight construction of the entire road to be turned over to the city for disposition when completed. The election will be held the last day of May. Manager Kendall verbally agrees that construction will begin as soon as the election is held authorizing the road, as he feels sure of his ground and will not wait for the courts to pass on the measure.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's a Simple Recipe That Anybody Can Apply with a Hair Brush

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Poultry and Egg Circle To Elect Delegates

For the purpose of electing delegates to a convention that will meet in Salem within a few weeks, the members of the Salem Poultry and Egg Circle will meet at 2 o'clock Saturday afternoon in the auditorium of the Commercial club.

This call to meet has been sent out by G. M. Vuris, president of the circle. All of the nine egg circles in the valley will meet Saturday and each elect two delegates to the general convention which will be held later in Salem for the purpose of effecting a federation of all Oregon Poultry and Egg Circles.

One of the objects of effecting a federation of all the Oregon circles is to establish a central sales agency at Portland. The experience of the east has proved that the most practical way of selling eggs is through a central agency. With the establishment of a first class sales agency in Portland the circles will be able to not only hold their growing trade, but to develop new fields.

POSLAM, FOE OF SKIN DISORDERS

Successfully Combats Stubborn Eczema; Comforts, Heals.

Usually, nowadays, the treatment of Eczema, Pimples, Rash and most stubborn skin afflictions merely amounts to the necessary application of Poslam, the healing remedy, and the use of Poslam Soap, the pure, luxurious soap medicated with Poslam. Distressing surface troubles are healed through this treatment and their recurrence prevented.

Poslam acts quickly. Inflamed complexions may be cleared overnight through its use and its healing power is so intense that improved results, in both serious and minor troubles may be expected after one or two applications.

For sample, send 4c stamps to Emergency Laboratories, 32 West 25th St., New York City. Sold by all druggists.
