IT IS "FIGHT OR GET OUT"

The long expected has happened in Mexico and the American troops have clashed with Mexicans other than the bandits, and while Carranza would convey another impression, most probably with Carranza soldiers, though they may not have been apparently of the army.

Carranza has made an urgent request on President Wilson to immediately withdraw American soldiers from Mexican territory. He sets up that Villa's bandits are scattered and that Villa is in hiding; and in addition that he can now handle the situation, and there will be no more border troubles.

Carranza well knows this is not so, and that instead of being able to control Villa, that the United States troops would not be out of Mexico a week before the troubles in Mexico would be as bad as ever and the border again subject to raids by Mexican bandits.

On the other hand the overweening ambition of the de facto president makes him choose rather the annoyance of Villa than the ill feeling of the Mexican people, which he surely will have if he permits the hated gringos to pursue Mexicans, no matter how great criminals they may be, on Mexican territory.

It looks as though there could be but one outcome to the matter, and that is war with Mexico. We have put our hand to the comb and dare not stop until the vermin is destroyed. Carranza has shown that he cannot do this work, and the action of his soldiers in dodging Villa at every chance they had to capture or kill him, indicates how their sympathies lie.

The details of the fight at Parral have not been given out, but the fact that there has been a clash, and that Mexicans other than the bandits with Villa have been killed precludes any further real co-operation between the armies in the pursuit of the bandits.

Carranza has not acted on the square at any time, and the way he prevented the Americans using the railroads to forward supplies shows his feelings in the matter. If as the army officers assert, either fight or get out are the only alternatives—there should be no hesitation in making the choice.

Chairman T. B. Neuhausen of the state progressive party says "From all parts of the country comes reports that Roosevelt sentiment is growing rapidly and that the people are beginning to appreciate as never before all that Colonel Roosevelt has stood for." As a matter of fact Roosevelt never "stood for" anything. The American people stood for much from him and the republican party stood for much more. It is apparently not done standing for things from him either for it is standing for his pulling its nose, boxing its ears and telling it exactly where it can and must get off at.

Wonder where that kid correspondent at the Mexican front was discovered. He sends a dispatch to the world that the soldiers use beans instead of chips in playing card games. It is evident he doesn't know beans.

The Germans estimate the French losses at Verdun at 150,000, and the French estimate the German losses at 250,000. If each would make an estimate of its own loss both estimates would stand a better chance of being correct, besides it would very greatly reduce the death rate.

Governor Withycombe abolished the West honor system and eliminated the honor men. In place of it he has what is called the Withycombe merit system and "trusties." Which demonstrates that a rose by any other name will smell as sweet.

If as Napoleon remarked "an army fights on its stomach," there should be some pretty strong scrapping reported when those 8,000 tons of Oregon onions and carrots combined in hot mulligans fill the trenches inside the British soldiers.

The naval base for the Columbia is a boon to the state. It is the only thing suggested in years that the whole state has agreed upon without a big minority making the loudest noise. It is worth while also for demonstrating that it is possible for the whole state to agree, a thing heretofore reckoned among the impossibilities.

SPORTS

I watch the young men sporting, and tussling and cavorting, at divers manly games, at wrestling, Greek and Cornish, and boxing bouts tinvornish, until they break their hames. It gives them satisfaction to get their forms in action, to strain their bones and thews; life in their veins is bubbling, no rheumatiz is troubling the feet that fill their shoes. They have no gout or glanders, ring-bones or yaller janders, no spavins on their joints; if vagrant pain should hit them, they merely bid it quit them, and promptly it aoints. I see them strive and tussle, exerting every muscle—they call such horse-play fun; and in the shade I'm sitting, a-weeping on my knitting; my active days are done. My joints are stiff and rusty, my whiskers gray and dusty, I creak where'er I walk, and you may hear me sighing when I am sadly trying to drill around a block. Oh, Youth, when Age is gazing upon your sports' amazing, and energy so fine, Age feels its portion bitter, and says, "Though not a quitter, I must take in my sign."

**ALKALI IN SOAP
BAD FOR THE HAIR**

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary unsulfated coconut oil which is pure and greaseless, and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rises out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get unsulfated coconut oil at any pharmacy. It is very cheap, and a few ounces will supply every member of the family for months.

How About Combustion?

ANYTHING will burn. The fire insurance figures show you that.

To make a cigar burn easily and evenly the way the OWL does—

That requires combustion of a different sort.

It requires carefully cured leaf—long leaf filler—hand-workmanship—that square-end shape.

But because the OWL burns properly, you get the benefit of the OWL'S Million Dollar tobacco flavor. And that's worth a nickel every time.

WANTED HIS DRESS SUIT
San Francisco, April 14.—When Edward Rainey, the mayor's secretary, was handed a card saying the "assistant to the secretary of state" was in his outer office, he found awaiting a man who said he was merely waiting for his evening clothes so he could entertain Vice-President Marshall at Los Angeles. He vanished before the police arrived.

New Strength for Lame Backs and Worn-out Conditions

Dear Mr. Editor:

I suffered from a lame back and a tired, worn-out feeling. Was unable to stand erect and scarcely able to get around. It would usually come on at first with crick in small of my back. I took one box of Dr. Pierce's Auric Tablets and my back commenced to get better soon after starting to take them. I did not have to walk doubled over as I did before using the "Auric." It is the best remedy I have ever taken for what it is intended to relieve. I hope those who are in need of such a remedy will give these Tablets of Dr. Pierce's a trial.

Yours truly,
A. G. DRAKE.

Note:—When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, and the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often

got sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce, of the "Invaluable" Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for large trial package of his new discovery—"Auric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Auric" is the most powerful agent in dissolving uric acid, as hot water melts sugar. Being so many times more active than lithia, it clears the heat valves of any sandy substances which may clog them, and checks the degeneration of the blood vessels, as well as regulating blood pressure. "Auric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Auric" put up by Dr. Pierce, in 50-cent packages.
