THE FOOL'S REVENGE WILLIAM FOX PRODUCTION 'Fools Revenge', at Ye Liberty Sunday and Monday. In one of the scenes in 'The Fool's Revenge', a William Fox photoplay, Ruth Findlay, as Ethel Andrews, daughter of a former clown, is kidnapped in an automobile by Joseph Mendell, Warner Oland, a wealthy stock promoter. In the flight the car breaks down and Ethel and Findlay are supposed to be injured. The driver of the machine was instructed to wreck it at a certain point in the road on which the camera was focused. The scene was attempted, but the machine refused to wreck. The action was repeated; again the machine refused to wreck. The third time, the front axle snapped, according to schedule, and Miss Findlay and Oland were thrown out, receiving no make-believe bruises. Guess again. It wasn't that make of car.

Edna May, Actress and Millionaires wife, Bids Adieu to Stage Tomorrow

New York, April 15.—When Edna May acts for the benefit of the Actors' Fund in a special performance at the Century theatre tomorrow night it will not only be her first public appearance in eleven years, but her last appearance on any stage. This announcement was made by Daniel Frohman, president of the Actors' Fund, who obtained Miss May's consent to appear for the fund. "It will be a farewell not only to the American stage but to the entire world," said Mr. Frohman. "Miss May would never have consented to appear before the public again except for the sake of charity. Her profits from the moving picture she is now acting for will also be devoted to a charitable cause. She will turn them over to the allied war sufferers." Inquiries have been made of Mr. Frohman as to whether the actress would be seen in her famous role from the 'Belle of New York,' but Miss May has not sung for so long she has decided to give something else. She will act in a new one-act play, written especially for her. "Miss May closed her professional career in 1907, when she was married in London to Oscar Lewinohn, millionaire New Yorker. They have made their permanent home in England, with frequent visits to this country. Her only appearance on the stage after that was in 1911, when a company in which she was the only professional played a week at the Savoy theatre in London for charity, clearing almost \$20,000. The Actors' Fund performance at the Century will have the assistance of other prominent actors. A few of them are Sir Johnston Forbes-Robertson, now making a farewell tour of America, Mme. Nazimova, who will appear in a new playlet on the divorce question by George W. Middleton and Marie Dressler.

Brooks Baseball Team Wins The famous Brooks baseball team pulled off another of their famous stunts on their diamond last Sunday, by defeating the Mt. Angel college team, the score being Brooks, 2; Mt. Angel, 1. It was a very fast game from start to finish, notwithstanding the severe jolt from the south. Both batties were in fine trim and played to win. Foster, leaver, who was pitching for the Brooks team, crippled his arm so severely in the third inning he had to be released. Fred Molyar was called to the box and pitched a snappy game for the Brooks. Brooks will play a return game on the Mt. Angel diamond Sunday, April 16, and will cross bats with the Harriman club of Portland, on Sunday, April 23, at Brooks.—Gervais Star.

Pittsburg Kids to Get Half Their Savings Back from Deposit Bank Today (By United Press.) Pittsburg, Pa., April 15.—Thousands of Pittsburg boys and girls were delighted today when they got back half the savings that they thought were lost forever when the Pittsburg Bank for Savings failed last December. Whether the bank pays it or not, the kids also will get back the other half of their savings because Henry C. Frick, the millionaire steel man, has pledged himself to see that none of the boys and girls, most of whom have none too much of this world's goods anyhow, loses a penny by the bank's failure. Let the Capital Journal print your sale bills and other job printing.

FORGOT HIS LEGS Dallas, Ore., April 15.—Upon the arrival of his two legs today, the body of Peter Friesen was buried at 11 o'clock. Friesen was struck by a train near San Francisco and both legs cut off. The railroad company sent the body to his home here, but neglected to ship the legs. The funeral was postponed until this morning, when a railroad employe, carrying the legs, arrived.

SILVERTON'S NEW SANITARIUM The hospital built in Silverton by Dr. Brewer, of Salem, has been painted, papered and thoroughly disinfected and is now ready to receive patients. Drs. Heasley, who formerly had offices in the United States National Bank building in Salem, are in charge of the new sanitarium. They expect to specialize in obstetrics and besides giving their patients the best of care, the rates will be so reasonable that many will avail themselves of this opportunity. They will also receive non-contagious, acute and chronic cases, such as pneumonia, typhoid, rheumatism, paralysis, kidney, liver and stomach troubles. Osteopathic manipulation will constitute the principal treatment given. Hydrotherapy including electric light baths, dietetics, and other rational methods will also be used. Drugs will not be used as a curative agent. Results will be obtained by preventing the patient from eating and drinking food that will make bad combinations, which cause poisons to form, resulting in many disorders. The later idea of preventing disease, in place of wholesale drugging, is recognized by the more progressive among both physicians and patients. The treatment in the larger and more successful institutions is the treatment of elimination, in place of the use of poisonous drugs to kill the disease. Poisonous drugs are too often the cause of the patients death, instead of the disease germs. The use of surgery will be employed only when other measures have failed. Specialists in this line will be secured from Salem and Portland.

BEGIN CONSTRUCTION OF SILVERTON MILL It is stated that the Silver Falls Timber company will be ready to begin the construction of their new mill in this city next Monday, and that they will put about two hundred men at work on the job in order to hasten matters as much as possible. Men are coming to Silverton from all parts of the west in pursuit of work nearly every day, and the city is taking on a remarkably new appearance. Three families moved here from Salem last week and one from Portland. A Salem man stated to a Tribune representative Saturday that he knew of 10 more families in that city who contemplated moving to Silverton. Nearly every vacant house in the city has been engaged and new houses are being erected to accommodate the new population. It has been predicted that at least two hundred houses will be erected here during the coming summer. The number of business houses in the city is not sufficient to meet the demand at present, and it is believed that numerous store buildings will be erected before fall. Silverton has never before had such a spirit of activity, and it is certainly encouraging to the residents who have used every possible effort to make this the best town in the Willamette valley.—Silverton Tribune.

Anderson will erect the building and will commence work either the last of this week or the first of next. The building when completed will be occupied by the Silverton Auto company, they requiring the additional room for the expansion of their business.—Silverton Appeal.

Youngest Stage Star Coming to the Oregon

Little Mary Miles Minter, the youngest star of the stage or screen will be seen here at the Oregon on Sunday and Monday, in 'Lovely Mary,' a five act Metro wonderplay produced by the Columbia Picture Corporation. Miss Minter, who is just fourteen, has been on the stage since she was five years old. She made her debut with Nat Goodwin in 'Cameo Kirby,' but is perhaps best known to theatergoers for her remarkable performance in 'The Littlest Rebel' in which she was supported by Dustin and William Farnum. Miss Minter also appeared in 'The Warrens of Virginia,' and played with such stars as Mrs. Leslie Carter, Mrs. Fiske, Robert Hillard and E. H. Sothern. Despite her success on the speaking stage, she has achieved a greater success in motion pictures. Since joining the Metro forces she has appeared in such screen masterpieces as 'Emmy of Stork's Nest,' 'Barbara Frietchie,' 'Always in the Way' and 'Dimples.' The story of 'Lovely Mary' is one of the Southland and most of the scenes were photographed in the picturesque Everglades of Florida.
