There is some probability of the sewer committee of the city council be-gianing the manufacture of 30 and 30 inch sewer pipe through the work of the street department. The pipe will be used to take care of the ovreflow and flooded districts where the present sewers are not adequate. Although the street department may make the sewer pipe from time to time, it will not be laid until the budget for next year is passed as at present there is not sufficient funds for the work.
