A REAL OLD PEARL

Stanford University, Cal., April 21.—Examining a shell in the Conchology laboratory of the Staley Herald of San Jose, a student, discovered a pearl 15,000,000 years old, which he presented to the university museum today. The pearl, it is declared, originated in the Eocene age, ages before man appeared on earth. The shell in which it was found came from Puget Sound, Wash.

Accident On Farm Is Reported to State Accident Commission

Among the accidents reported to the state industrial accident commission from Marion county this week was one which occurred on a farm. B. W. Catching, of Gervais, sustained a cut chin while farming. Nine accidents were reported from Black Rock where a party secured a push car and loaded it with wood and started to ride down the hill on the loaded car. The car jumped the track and nearly all in the entire party sustained more or less severe bruises.

The other accidents in Marion county were: Louis Koukoulis, Pratum, bruised knee, railroad operation; S. J. Moore, Mill City, twisted knee, logging; and H. C. Lewis, of Aumsville, broken rib, in railroad operation.

During the past week, April 14 to 20, inclusive, there were reported to the state industrial accident commission 237 accidents, of which three were fatal.

Of the total number reported, 169 were subject to the workmen's compensation act; 41 were from public utility corporations; 26 were from other firms or corporations who have rejected the provisions of the act; and one was from a farm which does not employ labor in hazardous occupation.

Tax Commission Sends Out Statement for Last Half of Taxes

A taxpayer has the right to pay the first half of his taxes after April 5 without paying the second half; on payment so made, interest is to be charged, on the first half only, at the flat rate of one per cent for each month or part of a month that payment is deferred after April 5, according to a recent statement issued by the tax commission.

Under the law now in effect the second half is not due and payable until October 5, regardless of whether the first half was or was not paid by April 5. Prior to the date of tax delinquency, which under all circumstances and conditions is October 6, the two halves represent separate and distinct obligations. Of course taxes may be paid in full at any time, but failure to pay the first half by April 5 does not change, in any respect, the status of the second half, nor the requirements for payment thereof.
