I make a specialty of fitting the genuine Kryptoks for far and near vision in one lens, thus doing away with the necessity of two pairs of glasses or the glasses with lines that fill with dirt, etc. I use only the highest grade of materials and guarantee satisfaction in every respect. My 33 years of practical experience in exactly fitting of glasses is always at your service. You pay me no more for properly fitted glasses than you pay elsewhere. Quality of material and service considered. I do not use drops or drugs in making examinations as they are dangerous. All broken lenses replaced while you wait. My motto: Rightly fitted lenses and proper service at all times.

The Store That Saves You Money
NOTASEME Refrigerators
Stone lined, made of heavy ash with wired beveled panels. Solid brass nickel-plated lever locks.
It will not break; it will not leak; it will not rust; it will not absorb dampness or germs; it has no seams, therefore it can have no cracks, to harbor uncleanness; there is nothing to diminish the original circulation of cold air which is a feature of this celebrated refrigerator. The round corners enables this refrigeration to be easily cleaned, keeping it sweet and pure for foods.
The construction of the Notaseme is such that it saves the ice bills and gives perfect refrigeration. See window display and get our prices.
