Salt Lake City, Utah, April 28.—Plat denial of her husband's sensational allegations was made today by Mrs. Samuel H. Westfall, wife of a wealthy San Francisco mining man, whose husband has just filed suit for divorce.

Mrs. Westfall denies the charge in the complaint that she left San Francisco with \$400,000 in stocks and bonds belonging to her husband.

"The major portion of my property is my own," she declared. "It is from the estate of my father, Addison Hybce."

With regard to the letter which Westfall claims his wife left when she departed, Mrs. Westfall said:

"The note was a candid explanation. It was a man when he's down."

**SEYMOUR JONES AT HEAD OF DEPARTMENT**

Selected To Lead Agricultural Branch of Club—Corn Show Talk Starts Early

Seymour Jones was placed at the head of the agricultural department of the Commercial club for the coming year, by the action of the department at the meeting held last evening. Mr. Jones was rather backward about having his name presented and was inclined to insist that it be withdrawn. However, the members of the department felt that he was entirely qualified to handle this important department, and he was therefore duly elected, and will be responsible to a great extent for what is done along the lines of agriculture by the Commercial club the coming year.

Members of the agricultural department are in doubt as to whether it is advisable to hold a four day Cherry fair this year, but were somewhat inclined to lend their support towards a genuine Fourth of July celebration at the Fair grounds. To get this opinion in proper form, a committee composed of Robert Paulus, A. C. Bohndorf and M. W. Welch were appointed to make up resolutions. It was pointed out that the first week of July was generally a busy time of the year and that a four day Cherry fair might interfere with the labor needed.

Support will be given by the department for the corn show to be held next fall. L. J. Chapin told of the plans already made for corn shows in Yamhill, Polk and Marion counties, with the expectation that each would be larger than those of last fall, and that for the final show to be held the first week in December, the money would be necessary to accommodate the larger exhibits. The stakes will be larger this year, and from \$400 to \$600 will be necessary for premiums.

In the report of W. I. Staley, director for the past year, it was shown that the few special salesdays held under the auspices of the Commercial club had been entirely successful, but that the public market was a failure, due to a great extent to its unfavorable location.

Mr. Staley reported that the receipts of the department had been \$582.36 and that \$601.44 had been expended.

was a place to rest for a short time, Frank Miller entered the barn of a farmer living just east of the feeble minded institute. This morning he was found dead, apparently from heart failure. He was from Dallas and funeral arrangements will be made as soon as relatives are heard from. He was about 45 years old.

The Salem Life Underwriters association will meet at luncheon tomorrow afternoon at the Commercial club and will entertain Governor Withycombe as their guest. The address of the luncheon will be given by C. H. Pruner of the Mutual Life. The association was organized about four months ago and its members numbering 30 are all interested in the life insurance business. A. H. Gage is president.

The juvenile band of the United Artists met last evening for their formal organization and first practice. Twenty five of the youthful musicians were present for the first practice and as 30 have already signed up and agreed to come in, it is thought that the band will soon number 25 pieces or more, as ten members from the Lively school will become associated with the organization. Lynn G. Martin and other members of the Cherrian band have donated their services instructing the youngsters.

**MOTHER OF FOUR CHILDREN**

How Lydia E. Pinkham's Vegetable Compound Kept Her Well and Strong.

Lincoln, Illinois.—"I have used Lydia E. Pinkham's Vegetable Compound for ten years with good results and I have four healthy children. This summer I was in a very run down condition and the very hot weather seemed more than I could stand, but I commenced taking your Compound in June and from then until September 25th, when my last baby was born, I got along much better than I had before. My baby was a girl and weighed 14 pounds at birth, and I recovered very rapidly which I am sure was due to your medicine. I am well and strong now, nurse my baby and do all my work. I had the same good results with your medicine when needed before my other children came and they are all healthy. My mother has taken your medicine with equal satisfaction. She had her last child when nearly 44 years old and feels confident she never would have carried him through without your help, as her health was very poor."—Mrs. T. F. Cloyd, 1355 North Gulick Ave., Decatur, Ill.

Expectant mothers should profit by Mrs. Cloyd's experience, and trust to Lydia E. Pinkham's Vegetable Compound. Free confidential advice had by addressing Lydia E. Pinkham Medicine Co., Lynn, Mass.

The mayor and city aldermen and the city engineer went out to Twelfth and State streets this afternoon, on the invitation of the Southern Pacific officials and the railroads engineer. The purpose of the visit at this particular spot was a demonstration by the railroad's engineer, that a retaining wall had been built along and under one side of the track and that there was proper drainage, and that this wall and drainage was according to an agreement made with the city several years ago. At present the retaining wall and drain is covered by patchwork, and this was dug into in the demonstration. There seemed to be some controversy between the railroad and some members of the council as to whether this retaining wall was really there, and the only way to demonstrate, was to dig into the paving and find it.

**Cottolene**

"The Natural Shortening"

Make delicious pie crust after this recipe

Mix one scant teaspoon salt with one and one-half cups pastry flour. Chop in scant half cup chilled Cottolene. Mix in gradually three tablespoons cold water. Mix well, but do not knead with hands. If soft, lay paste in pan and place on ice till chilled.

Sprinkle flour on molding-board; flour rolling-pin; roll out flat, then roll up into form of jelly roll; stand it on end; pat down and roll into circular shape. When rolled into proper size cover sides and bottom of pie dish. Fill in pie material. Roll top crust in same way, making several incisions to allow for filling and puffing in baking.

Cottolene makes pie-crust light, flaky, wholesome: it excels for all shortening and frying.

Its use is simple, and you can get it in pails of various sizes to suit your convenience. Ask your grocer for a supply today.

Write for a free copy of our real cook book, "HOME HELPS." Our General Offices, Chicago, will supply you.
