After an extended tour of the northwest, Elliott C. McDungel, a banker of Buffalo, N. Y., is stopping in the city a few days. He expressed himself as being greatly pleased and surprised at the general appearance of Salem and its beautiful homes, and especially along the wide streets. He was also glad to find that the general northwest was prosperous and that real estate values were not inflated.

The Salem Rifle club will meet next Wednesday evening at the armory to make up its charter member list. Already more than 50 have joined the club and as it is organized primarily to improve general marksmanship, and as every man over 14 years is eligible, those interested in the club feel that its membership will grow rapidly. The club is for every man that likes rifle practice and who enjoys the sport.

Now that there is an epidemic of measles in the city, and about 60 cases quarantined, it might be well to note, according to Dr. O. B. Miles, a quarantine flag means that the child with the disease is to remain in the house 14 days, and that for the following five days, not to appear on the streets and not certainly not in any public place. Measles is a disease that is very contagious, especially before the rash appears. Most authorities agree that it is contagious four or five days before the rash is noticed.

LET ME SEE YOUR EYES

If an hours reading makes your eyes ache.

If printed matter occasionally (goes misty).

If you are obliged to stop work at times to rest your eyes for a few minutes.

If you find it easier to read nearer than the normal, 12 inches; or further away than this.

If you cannot recognize people across the street.

If you cannot read street signs easily or cannot distinguish the time by public clocks.

If you have to make an effort to see clearly—knitting the brows for example.

If vivid light gives you pain in the eyes, or if you require more light than you did before.

If you have any of the above difficulties, it is certain that you have defect of vision that could be corrected by properly fitted glasses.

I have fitted thousands of people in Marion and Polk Counties and have relieved all these difficulties and many others.

I do not use drops or drugs in making examinations as they are dangerous.

I guarantee satisfaction in every respect.

The Cherrians decided definitely last evening, not to enter a Salem candidate for queen of the Portland Rose festival and have so notified the festival officials. The opinion was unanimous that with the Salem Cherry air coming on, and the great excursion to be taken to Marshfield, that it would be best to devote all surplus energy to our home affairs. However, the Cherrians agreed to attend the Rose festival in a body and take a chance at the big prizes offered for the best drilled and equipped marching organization.

YOUR EYES

May or may not be alike. You may and you may not need glasses. The only way to find out is to have them carefully examined—then if you need glasses, buy them, if you don't, you'll be frankly told so.

In any event you will be fairly treated.
