Raymond and R. P. Boise.

C. A. Shepherd, president of the recently incorporated Pacific Chemical company, was in Salem Saturday and reported that his company will begin operations at Albert and Summer lakes within about 30 days. The company proposes to put up a plant which will handle about 200 tons of sodium and 11 tons of potassium daily and the gross daily output will be valued at \$25,000 at the present war prices for chemicals which have heretofore been manufactured in Germany. The Pacific Chemical company is incorporated at \$300,000.

Unofficial information has been received by Judge Bushey that the Polk county court has decided upon a concrete bridge across the river at this city and will proceed to take soundings and make the plans for a concrete structure. The Polk county court is reported to have held a meeting last week and named an engineer to handle the proposition for them. It appears that the Polk county court was not satisfied with the plans for a steel bridge as submitted by the state highway engineering department and has been informed that a concrete bridge can be put in for less money than the estimate on the steel bridge. The state highway engineers reported that the bottom of the river would not support a heavy concrete bridge without sinking the foundations for the piers so deeply that the cost would be excessive. The Polk county court, however, appears to be seeking information as to the structure of the river bed from their own sources.

Smith reports that over 1,000 students exclusive of the city schools in Salem, Woodburn and Silverton will take the examinations at this

# FRUIT COMMITTEE NAMED BY GOVERNOR

State Wide Organization to Work in Interests of Better Fruit

Complying with the request of people interested in bettering Oregon fruit conditions, Governor Withycombe today has appointed a state wide fruit committee. Its chief purpose is to assist in raising funds which will be utilized in organizing the unorganized fruit sections of the state. This will be done in co-operation with the Oregon Agricultural College which has signified its willingness to cooperate in the work by utilizing the machinery already in existence for such activity and also putting trained men in the field.

By definitely organizing the fruit sections both as regards growers and selling agencies, it will be possible for Oregon to come under the new federal government plan and reap its many advantages. The government plan contemplates a uniform contract system throughout all the fruit growing districts, which in effect will permit organized selling to protect the interests of the growers without conflicting with anti-price fixing regulations.

The following is the committee, arranged in alphabetical order. J. C. Ainsworth, Portland. Chas. A. Brand, Roseburg. Leslie Butler, Hood River. A. H. Carson, Grants Pass. H. L. Corbett, Portland. Edward Cookingham, Portland. E. D. Cusick, Albany. W. D. Dodson, Portland. J. O. Holt, Eugene. L. H. Hodges, Portland. Geo. Johnston, Dufur. F. H. Madden, Central Point. H. B. Miller, Eugene. David F. Morrison, Portland. P. L. Meyers, La Grande. J. M. Poorman, Woodburn. C. A. Parks, Salem. A. R. Shumway, Milton.

Governor Withycombe has asked W. D. Dodson, who is representing the Chamber of Commerce on the committee, to call its first meeting when a permanent organization, election of chairman, etc., will be effected.

## Dr. Mendelsohn Has Had Busy Five Years Here

Five years ago today Dr. Morris P. Mendelsohn, Salem's noted oculist, arrived in the city and opened his offices. He is a graduate of Heidelberg in both medicine and surgery but has devoted his entire time and talents to the eye. He has had 33 years experience, and is an authority on all eye troubles. He practiced in San Francisco for three and a half years, leaving on account of the earthquake. He had offices in The Dalles for a short while and also in La Grande.

Since coming to Salem he has made more than ten thousand examinations of defective eyes and has fitted and corrected over half of them. Among those were more than 1100 children.

Doctor Mendelsohn has finely equipped offices in the United States National bank building, and a beautiful home at 215 Lincoln street, Salem's choicest residence district. He is prominent in fraternal circles, a consistent and persistent Salem booster, and is here to stay.
