THINGS BUSINESS MEN FORGET TO LOOK AFTER

Night Watchman's Report for Month Points Out Some Carelessness

Merchants are credited with having a proper care for the cash drawer, but few would acknowledge that occasionally they walk off in the evening, close the front door, but forget to lock it. Nor would any business man confess that he had actually closed his business for the day, leaving the back door unlocked, or even leave one of the windows up.

But just to take care of such accidental happenings, and also to act as watchman for the night prowler, the merchants of the city have engaged a night patrolman, John Marr. The following report made each day to Chief Welch, and monthly to the police committee of the city council, rather indicates that the worries of business causes the business man to be careless once in a while. But just as a reminder, patrolman Marr notifies them in writing, the following day. The following is the report submitted to the police committee at the council meeting Monday evening and shows what the merchant patrol service found during April:

- High class dry goods stores—two front doors unlocked.
- Barber shop—front door unlocked.
- Second hand store—front door unlocked.
- Hardware store—back door shutter open.

- Second hand store—goods left hanging out in front of store.
- Grocery store—sack of beans left outside alley door.

WASHING WON'T RID HEAD OF DANDEUFF

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. By using this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

To Interview Employers About Militia Boys

Acting under instructions of Adjutant General White, Captain Max Gehlar will endeavor to secure the views of employers towards their employees who are in Company M and who would like to attend the annual maneuvers. This will come up for discussion at the company meeting next Tuesday evening. During the week an effort will be made to learn from each employer whether they are opposed to any of their employees joining the militia. This is in line with the efforts being made by the government to ascertain the general attitude of employers towards the militia and whether they would support voluntary service. In Company M it is estimated that 40 per cent of the men are employees, and that the remainder are in business for themselves or so placed that they can control their own time. In the past, there has not been a friendly disposition towards the militia. But under the new conditions that have arisen the past two years, this feeling has gradually changed in all parts of the country until now, service in the militia companies is being sought by not only the employees, but by those in middle life who understand and appreciate the situation of the United States in the present changed world affairs.
