When first advanced the proposition and lasting benefit. of the fourth dimension causal considerable stir in the scientific world, and but little real knowledge of its wonders exists even today in the popular mind. But "Prof." Matthews is the kind of lecturer who lifts such a subject out of the hazy, far-off scientific world in a few straight from the shoulder senten.

It seems rather strange that there ces, stripped of all scientific jargon and verbiage which only the specially aducated can understand. In simple, clear, popular "language he opens the doors to a most interesting realm; then, just when the interest has become grippingly tense, he brings his auditors back to earth in the relaxation of a delicious bit of humor. I had the privilege of listening to Professor Matthews a few even.

BANK DEPOSITS GAIN \$42,000,000 IN NINE YEARS IN OREGON

Following Panic In 1907 Banks Have Made Steady Gain and Still Grow

How the bank deposits in state and national banks in Oregon have grown from \$85,000,000 to \$127,000,000 since 1008 is shown on a chart which has bee

1908 is shown on a chart which has been prepared by S. G. Sargent, state superintendent of banks. Following the panie in 1907 in this state there were 191 national and state banks and now there are 201 banks of which S4 are national and 177 operate under a state charter. Nine years ago there were 59 national banks and 192 state banks.

From 1908 to 1910, inclusive, banks deposits in the state rose stendily without fluctuation from \$85,000,000 to \$119,000,000. From the first of 1911 to the close of 1913 deposits in national and state banks showed slight fluctuations, with a rising tendency. At the close of 1913 deposits in Oregon touched their high mark with a rotal of \$133,000,000. With the outbreak of war in Europe a decrease resulted, until at the beginning of 1915 deposits aggregated beginning of 1915 deposits aggregated only \$117,000,000. Since then, how-however, conditions have stendily improved, and the gain in deposits has been steady until now they total \$127,000,000.

The national banks in 1914 began to gain in deposits, while state institutions fell off. This fact is accounted for, according to Superintendent Sargent, because in 1914 the Security Savings & Trust company, of 1-ortland, was consolidated with the First National Bank of Portland The Jacobse in texts land. of Portland. The decrease in state bank deposits at this time was approximately \$10,000,000. Since the third call of 1915, however, deposits in Oregon state banks have risen stendily, gaining about \$5,000,000 in the last six months.

State bank deposits now total approximately \$49,000,000, while deposits in national banks of the state total approximately \$78,000,000.

in the morning paper, it was quite clear why such report might be circulated. Frequently the head lines are read and the substance of the article pre-sumed in accordance therewith, but in this ease the presumption went wide of he mark as the headlines did not seem give much idea of what followed.

Very truly yours, "I SAW THAT FIRST,"

SCOTT AND OBREGON TO SIGN AGREEMENT

(United Press staff correspondent.) El Paso, Texas, May 8.—Generals cott and Obregon planned to meet today to sign their agreement covering future operations of United States troops in Mexico. Unofficial statements from authentic sources said there was little likelihood of a break between Scott and Obregon on account of the Olean Springs outrage. The raid was regarded as an incident but not as a

rumors that the settlement might be you ask for. The attacked had been circulated for sev. Cleveland, Ohio.

El Paso, Texas, May 8 .- Consul Gar ein announced this afternoon that the concluding Scott-Obregon conference on the pact covering the operations of American troops in Mexico would be held between 3 and 5 p. m. today.

CALIFORNIA GRAPES DAMAGED BY FROST

Estimated Crop In Northern Part of State Will Not Exceed 40 Per Cent

Sacramento, Cal., May 8 .- The grape erop in northern California will be less than forty percent of the normal yield, as the result of the unusual and killing frost of last Saturday night, according to reports received today from Deputy Viticultural Commissioners, by

E. M. Sheehau, secretary of the State Viticultural commission.

In the Nupa Valley district the graps crop is practically wiped out, with the exception of a small area.

Sacramento county suffered heavily. Commissioner Stephens reports today that 90 per cent of the grapes in the Sacramento district and along the American river are some.

American river are gone.

Lodi reports a 50 per cent loss of grapes in the northern part of the San Joaquin valley. The vineyards to the west in the low-lands suffered most. The frost destroyed between fifty and sixty percent of the grapes in Sonoma county, particularly in the low-

land districts. Reports from Placerville indicate El county grapes were badly

lamaged. Hamaged.

Fresno reports no damage from frost.

"Saturday night's frost dealt a torfife blow to the grape crop of northern California," said Sheehan. "It is
probably the worst frost damage ever reported for this senson of the year. Only those vineyards on the hillsides escaped serious damage in most cases. The frost hit the lowlands heavily. The monetary loss will probably reach into the hundreds of thousands."

Brooks Notes

(Capital Journal Special Service) Brooks, Or., May 8.—The ball game for Sunday between Brooks and Ger-nis was called off on the account of he rainy weather.

The eighth grade examination being last Friday, the last day of school, the picnic and program was given on Saturday. Mr. Powell and his sister Miss Ella Powell are to return next year, thus showing how their work has been appreciated. appreciated.

The entertainment given by the Lad ies Aid was well attended in spite of the bud weather and the married people

did fine, and the collection wasmich more than expected.
