## Mary Pickford In a Marvelous Role

Plays American Girl Kidnapped by Italians in "Poor Little Peppina," Thrilling Romantic Drama

Mary Pickford as an Italian boy! The delightful little Japanese Cho-Cho-San, in "Madame Butterfly," has shed her mandarin and her kimono for the rough boots and corduroy of the Italian peasant, and she laughs, fights and smokes her way into the heart, just as the little Niponese sobbed her way into the affections of the public. And just as the Famous Players star so cleverly concealed her own mannerisms in the interpretation of the Jap girl, so in this original photoplay by Kate Jordan, which will be the Paramount attraction at the Ye Liberty Theatre today, and Thursday, Little Mary Pickford buries the Pickfordian character beneath an avalanche of Italian mannerisms and of boyish conceits that once more prove her wonderfully broad versatility.

"Poor Little Peppina" is the biggest

and most thrilling original story in which Miss Pickford has ever been seen

on the screen. Opening in Italy, the scene of action changes to Sicily and then, when the kidnapped American girl makes her escape as a stowaway, dressed as a boy, New York supplies the setting for the rest of the action. Here the little runaway, still preserving her disguise, becomes a "newsie," a boot-black, a fruit vendor and a messenger boy. But her adventures narrowly escape coming to a very sudden end when she becomes employed in an opium den in which she again encounters the man who had stolen her several years before. Escaping from the den, she later succeeds in preventing the man, Soldo, from murdering the one man whose kindness to her has won her devotion. Though she herself is nearly killed in the effort to save her friend, she is successful and her heroism is the means of restoring her to her real parents.

## Hubbard Men Buy Government Timber

Portland, Ore., May 9.—Announcement is made today by the forest service that the district forester, Portland, Oregon, has just approved the contract for the sale of Brown Bros., of Hubbard, of 3,000,000 feet of timber on the Crater national forest in southern Oregon.

The timber is located on a crystal creek on the west side of Klamath lake and consists mostly of western yellow pine, although there is some sugar pine and other species. The prices paid for the timber are \$3.20 per thousand feet for the yellow pine and sugar pine, and 50 cents per thousand feet for the other species.

The timber will be towed down Klamath lake and sold to Klamath Falls mills.

## LAST REGULAR OFFICER OF MEXICAN WAR DEAD

San Diego, Cal., May 9.—With the death at Coronado yesterday of Lieutenant Colonel Albert Bradford Kauffman of St. Louis, the last surviving regular army officer to serve in the Mexican war passed away. He was born in Lancaster, Pa., July 18, 1825.

## OREGON SCHOOL LAW WILL BE ADOPTED BY NORTHWEST STATES

Inland Empire Teachers Association Approves Oregon's Methods

That the teacher's certificate law of Oregon is one of the best yet adopted by any state is shown by the report of the certificate committee of the Inland Empire association recently held at Spokane. The committee submitted a report every point of which is covered by the Oregon certificate law, and recommends that all the states forming this association, namely, Montana, Idaho, Washington and Oregon, secure certificate laws as outlined by the report. As Oregon already has such a law, this well mean that the other three states will model their laws after the Oregon law. The report of the committee follows:

To the Educational Council of the Inland Empire Teachers' Association:

In order to raise the standard of qualifications for teachers and to promote inter-state equality, your committee begs leave to recommend the following:

1. The classification of certificates and the standards of certification should be uniform in the four states included in the inland empire. (This to include a standardized list of institutions from which papers are accredited.)
2. All certificates should be issued by state authority rather than through county superintendents' offices.
3. All examination questions should be prepared under state authority and all examination papers should be graded by state authority.
4. Certification through institutional training rather than by examination should be emphasized and encouraged.
5. No certificates should be granted to persons who have not completed a high school course or its equivalent, plus professional training.
6. Within a reasonable time all rural and grade teachers should be graduates of a normal school course of two years in addition to a four year high school course.
7. All persons who teach in accredited high schools should have four years' of training beyond a four year high school course, such training to include or be supplemented by professional training.
8. It is the sense of the committee that statutes on certification should be broad and general, leaving details to be determined by the state board of education or other legally constituted agency.
9. No laws enacted should be retroactive.

## DEMOCRATS FORM WILSON LEAGUE

About twenty local democrats met in the circuit court room Thursday evening and launched a "boost" in Polk county for President Wilson. What is to be known as the "Wilson League" was formed, organized by J. T. Henry of Portland, league organizer for the movement. A. B. Muir was elected president of the league; Miss Ruth Nunn, vice-president; M. L. Boyd, secretary; and Miss Georgiana Pike, treasurer. The object of the league, like similar leagues over the state, is to promote Wilson's political interests in the county, irrespective of party affiliations. Oscar Hayter made a brief talk.—Dallas Observer.

## GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat If You Feel Backachy or Have Bladder Trouble—Salts Fine for Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is incessant effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## Poses Searching For Escaped Convicts

Eureka, Cal., May 9.—Poses scoured the wooded country of southern Humboldt county today for three escaped convicts with whom an all night battle was fought near Dyerville with no results.

The fugitives are Gustave Kahl, of San Francisco, serving 10 years for murder; Leopold Walde, serving 12 years for arson; and John H. Rubottom, of Santa Cruz, serving five years for objectionable conduct. It was thought last night that the trio had been brought to bay and considerable firing occurred during the dark hours. One of the convicts is believed to have been wounded.

The men broke away from a highway construction camp.

## REPUBLICANS FAR IN LEAD

Practically complete reports of the registration in all counties of Oregon show that the Republican party claims 161,614 of the 241,377 voters, or 67.02 per cent. The democrats have 60,450, or 25.07 per cent. The progressive party has registered 1274, the prohibitionists 5496, the socialists 5429, and miscellaneous registrations number 6874. Only the republican party shows a heavier registration than at the election two years ago when the republican registration was 136,282. The other divisions have fallen off, the democrats only slightly, however, the difference being 243. The total registration in 1914 was 229,601.

The registration in Polk county is as follows: Republicans, 3,540; democrats, 1,879; progressives, 16; prohibitionists, 210; socialists, 162; miscellaneous, 197; total, 6,004.—Dallas Observer.

We are in the lead—The World kicks a man when he's down.

## ALL STATES DRIFTING TOWARD INDUSTRIAL ACCIDENT INSURANCE

Carle Abrams Returns From Convention of Commissioners at Columbus

State Industrial Accident Commissioner Carle Abrams, who returned to this city yesterday from a trip to the International Convention of Industrial Accident Boards and Commissioners, at Columbus, Ohio, reports that the sentiment throughout the United States is almost universally in favor of the several states handling their own industrial accident insurance as a state function.

"From the reports of the 45 delegates representing over 20 states the indications show that all of the states of the Union are drifting toward state accident insurance," said Mr. Abrams today. "The belief is gaining ground that workmen's compensation is a function of the state government and not a private enterprise. Also it will be noted in passing that Oregon pays the largest benefits of any state in the Union on an average for compensation to injured workmen."

Mr. Abrams stated that some difficulty was encountered in solving the problem of inter-state insurance and it was probable that legislation would be passed by congress allowing each state to handle insurance on inter-state business conducted within its own borders. At present employees of firms and corporations doing inter-state business must secure their accident insurance through private companies and their redress is only through the courts.

A committee has been appointed to draft a model compensation act for the use of the states which have no compensation laws as a state function at present. This will also tend to make the compensation acts in the various states more uniform than they are at present.

Dr. E. H. Thompson, formerly chief medical advisor of the Oregon commission, accompanied Mr. Abrams on the eastern trip. Dr. Thompson attended the convention and read a paper in the medical department, on "Neurasthenia, a Problem of Compensation." Dr. Thompson remained in the east to take a special course in New York City.

A morning delight—a noon-time luxury—an evening necessity—

## Margaret Mason Writes of Gotham Fads and Fashions

His arrow's feather end dipped within a bleeding heart, Then on his Psyche's new spring hat He painted with rare art. And when the summer girl espied This love of chapeau, She cried "I'd give my heart for that But I've no heart you know."

New York, May 6.—Next to your face your hat should be the most painted affair of the season. No, of course not, Gertrude, I'm not insinuating anything. Aren't your hats always next to your face?

All those artists who have been painting the town, or coloring their stories, aren't in it any more with the versatile brush wielders who can dash off a hatscape or two while you wait.

Birds, fruit and flowers are the choice subjects for these hat masterpieces. The artists go in for still life possibly because they believe while there is life there is hope.

Most of the birds are anything but still, however, as they are done in the most striking colors and lean toward the parakeet and cuckoo varieties. The fruit painted hats bear every known fruit, reasonable and unreasonable, in relentless abundance.

Peaches, apples, oranges, strawberries, grapes, pears, plums and citrus fruits clump together. What a fortune our orchard crop would mean if only our fruit trees were hat makers.

The hats painted in floral effects run to large blooms, like hydrangeas, cabbage roses and pansies; even some of the lilies are gilded. You know how it is yourself when the

house decorators leave a little enamel or radiator bronze behind, how you go around touching up everything in sight.

The same thing evidently has happened to the fashion artists. With the paint left over from the hats they have lavishly gone about decorating evening frocks and afternoon gowns in handpainted festoons, garlands and nosegays.

The plain little tight bodices and buffant skirts and pinnacled hats on the evening models lend themselves beautifully to handpainted ornamentation.

A handpainted gauze chiffon or silk frock for a bright summer's day is perfect apparel when topped with a handpainted hat of like design and finished with handpainted hose and slippers to boot.

Five indeed for the maid who has sense enough to come in out of the rain. Painted parasols are exceptionally charming. They carry out the design of the rest of your painted costume, or they may be an original theme.

A lavender one done in clusters of purple and yellow pansies is indeed food for thought. We have long had lamp shades and candle shades handpainted, so why make light of handpainted sunshades.

Anyhow you look a handpainted summer seems imminent. All summer girls will be "Mind-the-paint-girls!" and of a necessity "Watch your step" as a waterword will fade into oblivion before the admonition "Mind the paint!"

Let us hope we don't all have the painter's colic before the season's over.

# Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma. Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCASLAND, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman. Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. OSWOOD, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## CONGRESS LEADERS CONSULT WITH PRESIDENT ON SUBMARINE QUESTION

In addition to conveying congress in joint session to hear his views on the submarine question President Wilson called into consultation the ranking members of both sides of the senate and house foreign affairs committees. Senator William J. Stone of Missouri, democrat, is chairman of the senate committee, and Representative Henry D. Flood of Virginia leads the house committee. The leading republican of the senate committee is Senator Cabot Lodge of Massachusetts, and Henry A. Cooper of Wisconsin, leads the republicans of the house committee. All of these men and their colleagues on the committees have kept in close touch with the president and the secretary of state in view of recent developments in the submarine matter. No. 1, Ford; No. 2, Lodge; No. 3, Stone; No. 4, Cooper; No. 5, President Wilson addressing congress.

## If You Suffer from Backache, Lumbago, Kidneys or Rheumatism Take Hot Water and "ANURIC"

American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues cling and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your druggist—"Anuric." Because of uric acid in over-abundance in the system, backache, pains here and there,

rheumatism, gout, gravel, neuralgia and sciatic result. It was Dr. Pierce who discovered a new agent, called "Anuric" which will throw out and eradicate this uric acid from the system. Dr. Pierce believes "Anuric" to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for trial package or \$1.00 for full treatment "Anuric."

## MARION NOTES

Miss Wilma Tike and William Palmer went for a joyride auto ride Tuesday evening accompanied by Miss Belle Wipper and Chester Lee.

Mr. and Mrs. W. Cooley, of Salem, were visiting at the H. A. Cooley home last week.

Prof. Godward has seen fit to postpone inviting Turner down until the last day of school. We hope he won't see fit to postpone it till Christmas.

An Endeavor social was held at the home of Joseph Doerfler Friday evening. Also a party was given at the home of Miss Elsie Wilson, both were well attended.

A farewell party was given at the H. C. Harper home Monday night, all of the neighbors were present. At midnight a dainty luncheon was served. An enjoyable time was reported.

Rev. Russell of the Friends church, is the proud father of a nine pound girl. Mrs. Wert and infant son have returned from Salem to their home in Marion.

## IT'S YOUR KIDNEYS

You have swollen feet and hands! Stiff, achy joints! Sharp shooting rheumatic pains torture you. You have aching back, pain in the lower abdomen, difficulty when urinating. Look out! These are danger signals. Trouble is with your kidneys. Uric acid poisoning, in one form or another has set in. It may lead to dropsy or fatal Bright's disease if not checked.

Get some GOLD MEDAL Haarfes Oil Capsules immediately. They are an old preparation, using all over the world for centuries, combining nature's healing oil and herbs, well-known to physicians and used by thousands in their daily practice. The Capsules are not an experimental makeshift "patent medicine," or "salt," whose effect is only temporary. They are a strong and ready, and act naturally, gently and quickly. But when you go to the druggist, insist on getting the put original Haarfes Oil in Capsules. I sure the name GOLD MEDAL in the box, and thus protect yourself against counterfeits.

Mr. and Mrs. Peter Miller, of North Bend, are visiting relatives in Marion. —Aunsville Record.
