Dr. H. C. Robinson's roadster was stolen for the second time this winter while he was making a call last night but after driving it from 14th and Asylum avenue the thieves ran into a mud hole and abandoned the machine. The thieves were evidently attempting to reach the river road leading out of Salem in a northerly direction as the car was abandoned on Fourth street near Gaines avenue. When they left the mudhole they broke the windshield and M. E. Cooper, who resides at 1250 North Fourth street heard the crashing glass and looked out in time to see two men jump from the car and run east on Gaines avenue.

Mr. Cooper telephoned the police and Officer White was sent out to the car. White chaffered the machine out of the mud and down to the police station. All efforts to reach Dr. Robinson were unavailing and within a short time after the car was returned to the station Dr. Robertson called up to report the loss of his car. He was informed that it was already in the custody of the police.
