Today Is Peace and Arbitration Day
Today is peace and arbitration day, generally observed by short and appropriate exercises in each room of the Salem schools, and organizations interested in peace throughout the country. The following was contributed by a committee on patriotic education from Chemeketa chapter, D. A. R.: "We may be sure that he will love all mankind best who loves his country best, and by his devotion makes it the strongest helper of all the sons of earth. Men are more wont to feel deeply patriotic in time of war than in time of peace. The thought of our whole country as above party and creed, above North or South or East or West, finds us and moves us, most profoundly when the welfare of the whole country is visibly threatened. In time of peace, by far the longer time of the two, we are thinking mainly about our family, our business, our local interests, and of the things in general which are apt to divide one section or one state from another. The main duty of the citizen in peace is to save the state, not from destruction from without, but from error and wrongdoing within. Patriotism then takes another form, as important to the welfare of all as volunteering for the battlefield. "New occasions teach new duties; Time makes ancient good uncouth; They must upward still, and onward, who would keep abreast with Truth; Lo, before us gleam her camp-fires! We ourselves must Pilgrims be, launch our Mayflower, and steer boldly through the desperate winter sea, nor attempt the Future's portal with the Past's blood-rusted key." From Lowell's "The Present Crisis"

Paterson, N. J., May 18.—Life is just one dinned disappointment after another here. Orders today required Paterson's telephone operators to disrobe fashion dictators and wear skirts long enough to conceal ankles, which the company decided were too conspicuous.

Canadian Unveils Intrigues of Court
John Murray Gibbon, a quiet but shrewd Canadian, has just given London something besides the war to think about, in the latest product of his pen, "Hearts & Faces." Full of shrewd, pointed description and biting irony, Gibbon's "Hearts & Faces" has invited the world to gaze upon the intimate life of several persons internationally famous and well-known in the daily life of the British metropolis. The book has been brought to New York to be published. Gibbon's life reads like a romance. He was born in Cayton, the son of a little Scot, educated in Glasgow; given a degree, "Cum Laude," at Christ Church (where King Edward was schooled), Oxford; admitted to classes in German universities and to the art schools of Paris and London, including the famous "Langham"; edited for a time "Black & White," one of London's big magazines; elected an officer of the Circumnavigators' club because of his globe-trotting achievements; author of several historical books, and now on the threshold of new conquests in a field but recently entered. Gibbon lives in the quaint French-Canadian village of St. Anne de Bellevue, Quebec, and is making a record for himself as an official of the Canadian Pacific railway.

STATE NEWS

Roseburg Review: Probably overshadowing the early development of some of the most valuable timber properties in this section of the state, Colonel J. E. Luse, of Sutherlin, will take steps in a few days to re-open the well known leads of the mineral at Nonpareil and at a point some distance nearer to Sutherlin. Mr. Luse only recently bought 300 acres of land, which includes the old tunnel and prospects which were worked many years ago, and this is now leased by other parties who already have a crew at work uncovering the lead. The other location, which has been owned by Mr. Luse for some time, is as yet of uncertain quality as to its ore bearing properties, however, and Mr. Luse has employed City Engineer L. G. Hicks to make an underground survey. It is expected that a crew will be placed on this land a short time later. Mr. Hicks will make his survey next Tuesday or Wednesday.

Molalla, Oregon: At the regular monthly meeting of the Molalla grange this afternoon a representative of the Oregon-Utah Sugar company will present the matter of establishing a sugar factory in Molalla. He says the factory will be built if he can get contracts for 2500 acres of beets, and that the soil here is suitable for the production of beets with a high percentage of sugar. It is believed the necessary acreage will be guaranteed here by the farmers, that the operation of a sugar factory would mean the establishment of a large pay-roll and that having the beet pulp after the sugar is extracted for dairy feed would help the dairy industry, which is already established in the locality.

Baker Herald: Haines' big event of the season will be the "Stampede" Friday and Saturday, May 26 and 27, and according to the Record the affair will be entirely under local management this year for the benefit of the Haines Concert band and park board, under the joint auspices of which the affair will be staged.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.
